AHCTRF203	Renovate grassed areas
Application	<p>This unit of competency describes the skills and knowledge required to work as part of a team to renovate sports turf surfaces.</p> <p>The unit applies to individuals working in a range of job contexts who undertake defined routine activities under supervision. They exercise limited autonomy within established and well known parameters, providing solutions to a limited range of predictable problems</p> <p>No occupational licensing, legislative or certification requirements are known to apply to this unit at the time of publication.</p>
Prerequisite Unit	Nil
Unit Sector	Turf (TRF)

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Plan and prepare for turf area renovation program	1.1 Participate in team meeting to discuss site plans and locate services in consultation with supervisor 1.2 Confirm sports turf renovation work activity with supervisor 1.3 Identify work health and safety and environmental hazards, assess the risks and implement controls according to workplace health, safety and environmental procedures 1.4 Report abnormal health and safety and environmental issues according to workplace procedures 1.5 Select, ensure serviceability, fit and use personal safety equipment
2. Prepare materials, machinery and equipment for turf renovation program	2.1 Select and check hand tools, equipment and machinery for renovation work according to renovation program and report faults according to workplace procedures 2.2 Select and safely store chemicals required for renovation work according to renovation plan and workplace safety procedures 2.3 Select and store turf grass propagation material required for the renovation program to preserve its viability 2.4 Identify and select work site safety requirements according to workplace safety procedures and renovation site requirements
3. Undertake turf renovation	3.1 Conduct pre-operational and safety checks on hand tools and renovation machinery and equipment according to workplace procedures and manufacturer instructions 3.2 Implement site safety requirements and monitor and direct play area users according to workplace procedures 3.3 Operate turf renovation tools, equipment and machinery safely and effectively to renovate turf surface according to renovation program and workplace procedures
4. Complete turf renovation	4.1 Collect and dispose of waste material according to manufacturer instructions and workplace and environmental procedures 4.2 Clean, maintain and store tools and machinery according to workplace procedures 4.4 Record activities and report work outcomes according to workplace procedures

Foundation Skills	
<i>This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.</i>	
Skill	Description
Reading	<ul style="list-style-type: none"> Interpret symbols and text on turf renovation plans and instructions to identify key information and sequence renovation activities
Oral communication	<ul style="list-style-type: none"> Use open and closed questions logically to clarify work instructions Use industry terminology to communicate with team members
Numeracy	<ul style="list-style-type: none"> Estimates and calculates distance, area, volumes and ratio
