---	--

Qualification Description

This qualification reflects the role of individuals licensed to operate a business that trains horses under racing industry regulated licensing criteria for the purpose of competing in industry-regulated events in the harness or thoroughbred racing codes.

It covers the care, maintenance and performance of racehorses and the tasks and duties associated with running a racing establishment, including managing staff, finances and equipment. Trainers are responsible for planning and organising their own work, leading others and carrying out often complex and non-routine tasks.

This qualification is required for industry licensing and registration in some states and territories. Refer to the relevant state or territory Principal Racing Authority for current requirements.

Competencies attained in the units packaged for this qualification will apply to the harness and thoroughbred codes of the industry. Consequently, when performance criteria are applied they will relate to the harness or thoroughbred code and a Certificate IV in Racing (Racehorse Trainer) must contain a statement as follows:

'This qualification was achieved under the conditions operating in the [insert relevant racing code - harness OR thoroughbred] code of the racing industry.'
