The new units outline industry-specific requirements for innovative thinking, collaboration, leadership, change management, research and project management.</p> <p>All Advanced Diploma units of competency have been transitioned to the new standards format.</p>

Introduction

About this Guide

This Companion Volume Implementation Guide (Implementation Guide) is designed to assist assessors, trainers, Registered Training Organisations (RTOs) and enterprises to use the *FWP Forest and Wood Products Training Package*.

Structure of this Guide

This Implementation Guide contains two sections.

1. Overview

This section includes information about:

- what training packages are, and how they are developed
- the qualifications, skill sets and units of competency (including imported and prerequisite units of competency) in the training package
- mapping between previous and current versions of the qualifications and units of competency
- key work, training and regulatory/licensing requirements in the industry.

Note: Lists of qualifications, skill sets and units of competency, together with mapping information for qualifications, skill sets and units of competency, are in the Appendices section.

2. Implementation

This section explains some of the key features of the *FWP Forest and Wood Products Training Package* and the industry that will impact on the use of the Training Package. It includes information about:

- training pathways
- occupational outcomes of qualifications
- entry requirements for qualifications
- access and equity considerations
- resources and equipment requirements.

Overview

About training packages

Training packages specify the skills and knowledge (known as competencies) that individuals need in order to perform effectively in workplaces. Training packages:

- reflect identified workplace outcomes
- support national (and international) portability of skills and competencies
- reflect the core, job-specific and transferable skills, required for job roles
- enable the awarding of nationally recognised qualifications
- facilitate recognition of peoples' skills and knowledge, and support movement between school, VET and higher education sectors
- promote flexible modes of training to suit individual and industry requirements.

Note: To make them easy to interpret, training packages are written in simple, concise language, with delivery and assessment requirements clearly described. Training package products do not prescribe how an individual should be trained so that users can develop training and assessment strategies to suit the needs of their particular learners.

Training package components

Training packages consist of endorsed and non-endorsed components¹.

Although all components must be developed to comply with the Standards for Training Packages 2012², endorsed components must be submitted for approval by the Australian Industry and Skills Committee before they are released for use.

A summary of endorsed and non-endorsed components is provided on the following page.

¹ Note that the words 'components' and 'products' are used in currently applicable legislation standards and policies. Both words are generally used to refer to the qualifications, skill sets, units of competency, assessment requirements, credit arrangements and supporting materials produced for training packages.

² The *Standards for Training Packages 2012*, and accompanying policies, are available from the Australian Department of Employment, Skills Small and Family Business website <<https://www.employment.gov.au/training-packages>>.

Endorsed components

Product	Description
Qualification	A qualification combines the skills standards (called units of competency) into meaningful groups that meet workplace roles and align to the Australian Qualifications Framework (AQF).
Unit of competency	A unit of competency describes the requirements for effective performance in a discrete area of work, work function, activity or process. They specify the standard against which training delivery and assessment of competency can take place.
Assessment requirements	Assessment requirements accompany each unit of competency and include the performance evidence, knowledge evidence and conditions for assessment.
Credit arrangements	Credit arrangements provide details of existing arrangements between training package qualifications and higher education qualifications in accordance with the AQF. Note: There are currently no nationally applicable credit arrangements between any Skills Impact training package qualification and higher education qualification.

Non-endorsed components

Product	Description
Skill set	A skill set addresses a particular industry need or a licensing or regulatory requirement. A skill set is not endorsed but includes endorsed units of competency.
Companion volume	This general term refers to any product (including this Implementation Guide) which supports training and assessment.

Training package development

Training packages are developed through a process of national consultation with industry. There are some key stakeholders that drive training package development.

Key stakeholder roles³

COAG Industry and Skills Council (CISC)	The CISC is the ministerial council responsible for industry and skills. The CISC provides a forum for intergovernmental collaboration and decision-making about industry competitiveness, productivity and labour market pressures, and skills development and national training arrangements, including training packages.
The Australian Industry and Skills Committee (AISC)	The AISC was established by the CISC in 2015 to provide industry leadership within the national training system. As well as setting the priorities for the review of training packages in a national review schedule, the AISC approves training packages for implementation.
Industry Reference Committees (IRCs)	IRCs are the key industry advisory bodies to the AISC. They are made up of people who are experts in their particular industry sectors. IRCs drive the process of training package development so that the qualifications and units of competency are aligned with modern work practices.
Skills Service Organisations (SSOs)	SSOs are funded by the Australian Government to provide technical, operational and secretariat support to IRCs. SSOs assist IRCs to identify the skills required for jobs. Under the direction of the IRCs, SSOs develop and review compliant training packages that meet industry needs. Skills Impact is an SSO.
Government	The Australian Government supports the AISC and its network of IRCs and manages the SSOs. State and territory governments, referred to as State or Territory Training Authorities (STAs/TTAs), canvass stakeholder views about training packages, provide implementation advice, identify issues and develop purchasing guides for training providers.
Vocational education and training regulators	The national VET regulator, the Australian Skills Quality Authority (ASQA), and two state-based VET regulators, Victorian Registration and Qualifications Authority (VRQA) and Western Australian Training Accreditation Council (WA TAC), regulate the training and assessment strategies and practices of registered training organisations. Their aim is to ensure consistency with the requirements of the endorsed components of training packages.

³ More information about key stakeholder roles is available on the AISC website < <https://www.aisc.net.au>>.

The development process

The process used to develop and endorse training packages is based on the following principles:

- open and inclusive industry participation in development, validation and endorsement of training packages
- strong stakeholder engagement and the opportunity for industry to drive change
- highly responsive and capable of meeting industry needs and priorities for new skills
- clear and transparent arrangements for resolving contentious issues
- accountability of all stakeholders for the role that they play in the process.

The diagram summarises the process of training package development.⁴

⁴ The training package development and endorsement process policy can be downloaded from the Department of Education, Skills and Employment website <<https://docs.employment.gov.au/documents/training-package-development-and-endorsement-process-policy-0>>

Contents of this training package

The *FWP Forest and Wood Products Training Package* contains AQF aligned qualifications, skill sets and units of competency.

Prerequisite requirements

Some units of competency have prerequisite requirements. This means that an individual must be competent in the prerequisite units(s) of competency before undertaking any assessment in the unit containing the prerequisite(s).

No units of competency in the FWP Forest and Wood Products Training Package have prerequisite requirements.

Units of competency that are imported from other training packages MAY have prerequisite requirements.

Details of prerequisite requirements for imported units are found in the Implementation Guide of the training package that contains the unit. For example, prerequisite requirements for units of competency from the AHC Agriculture, Horticulture and Conservation and Land Management Training Package are included in the AHC Implementation Guide.

Imported units

Qualifications include units of competency from different training packages, including:

- AHC Agriculture, Horticulture and Conservation and Land Management
- AUR Automotive Retail, Service and Repair Training Package
- BSB Business Services Training Package
- CPC Construction, Plumbing and Services Training Package
- CPC08 Construction, Plumbing and Services Training Package
- CPP Property Services Training Package
- CPP07 Property Services Training Package
- CUA Creative Arts and Culture Training Package
- FSK Foundation Skills Training Package
- HLT Health
- ICT Information and Communications Technology
- LGA04 Local Government Training Package
- MEM Manufacturing and Engineering Training Package
- MEM05 Metal and Engineering Training Package
- MSM Manufacturing Training Package
- MSF Furnishing Training Package
- MSS Sustainability Training Package
- PSP Public Sector Training Package
- PUA12 Public Safety Training Package
- PUA Public Safety Training Package
- RII Resources and Infrastructure Industry Training Package
- SIR Retail Services Training Package
- SIT Tourism, Travel and Hospitality Training Package
- TAE Training and Education Training Package
- TLI Transport and Logistics Training Package

Please refer to **Appendix 1** for details of components in the *FWP Forest and Wood Products Training Package* including lists of:

- qualifications, skills sets and units of competency
- imported units of competency.

Mapping information

Mapping to previous versions of a training package can be useful for delivery and assessment because it:

- outlines the changes between current and previous versions of qualifications, skill sets and units of competency
- states whether the vocational outcomes of the current and previous versions of units of competency and qualifications are equivalent
- shows any components that have been added to, or removed from, the training package.

Note: The mapping tables are summary documents only and cannot be used alone to determine an individual's competence.

Please refer to **Appendix 2** for mapping between previous and current qualifications, skill sets and units of competency.

Registered Training Organisation (RTO) use

An RTO may use the mapping information to help design training and assessment strategies, including recognition of prior learning (RPL) systems. In addition to the mapping information, RPL processes must take into account other evidence of current competency, for example, how long ago an individual was awarded a superseded unit of competency and current work experience.

Employer use

An employer might use the mapping information to determine whether there are gaps between a qualification held by workers and the current expectations of a job role. Once gaps are identified, this could assist in planning professional development activities.

How equivalence is determined

Units of Competency

The training package developer determines equivalence based on the definition provided in the *Training Package Products Policy*⁵ which state that:

“Training package developers are responsible for mapping units and determining their equivalence status.

- Where a unit of competency is superseded and the workplace outcome of the unit has changed, the superseding unit must be deemed ‘Not Equivalent’.
- The workplace outcome can be determined to have changed when the skills and knowledge (reflected through the elements, performance criteria and assessment requirements) required to achieve the workplace outcome of the superseded and superseding units cannot be mapped to each other.
- Determinations of ‘Not Equivalent’ may also be used to support licensing, regulatory, legislative or certification requirements. The equivalence table must list the units of competency and clearly identify the status of each unit according to the following categories:
 - **Equivalent** - the workplace outcomes of the superseded and superseding units are equivalent
 - **Not Equivalent** - the workplace outcomes of the superseded and superseding units are not equivalent (refer Section 2.5)
 - **Newly created** - the unit has been created to address an emerging skill or task required by industry
 - **Deleted** - the unit is deleted as the skill or task is no longer required by industry”

If two units are determined to be equivalent, an RTO can recognise an ‘old’ unit as satisfying the outcomes of a new unit (including RPL). However, an RTO cannot assume that no changes are needed for the training and assessment of the new unit.

If a unit of competency is not equivalent to its predecessor, this means that there are significant changes in the new unit. These changes would need to be addressed, for example, through training, providing additional RPL evidence.

⁵ The policy is available from the Department of Education, Skills and Employment website at <<https://docs.employment.gov.au/system/files/doc/other/tppp.pdf>>

Qualifications

'Training package developers are responsible for mapping qualifications and determining their equivalence status.

- Where a qualification is superseded and the occupational outcome and/or the AQF level of the qualification has changed, the superseding qualification must be deemed 'Not Equivalent'.
- The occupational outcome can be determined to have changed when the skills and knowledge required to achieve the occupational outcome of the superseded and superseding qualifications cannot be mapped to each other.
- Determinations of 'Not Equivalent' may also be used to support licensing, regulatory, legislative or certification requirements.
- The equivalence table must list the qualifications and clearly identify the equivalence status of each qualification according to the following categories:
 - **Equivalent** - the occupational outcomes of the superseded and superseding qualifications are equivalent
 - **Not Equivalent** - the occupational outcomes of the superseded and superseding qualifications are not equivalent
 - **Newly Created** - the qualification has been created to address an original skill or occupational outcome required by industry
 - **Deleted** - the qualification is deleted as the skill or occupational outcome is no longer required by industry.'

Superseded and deleted training package products

A product is **superseded** when another training product replaces it. This happens if the skill needs of industry change so training package developers need to alter a qualification, unit of competency or skill set.

A product is **deleted** when another training product does not replace it. This happens if industry determines that there is no longer sufficient demand for a qualification, unit of competency or skill set.

The rules around the use of superseded and deleted products for training purposes are in Clause 1.26 of the *Standards for Registered Training Organisation (RTOs) 2015*.

ASQA has a useful guide that explains how to manage the transition from superseded and deleted training products. This can be accessed from: < <https://www.asqa.gov.au/standards/about-standards-rtos-2015/standard-one/clauses-1.26-1.27>>

Coding conventions

There are agreed conventions for the national codes used for training packages and their components.

Training package codes

Each training package has a unique three-letter national code assigned when the Training Package is endorsed, for example, FWP is the code used for the *FWP Forest and Wood Products Training Package*.

The practice of assigning two numbers to identify the year of endorsement is no longer used as it is not consistent with national policy.

Qualification codes

Within the training package, each qualification has a unique eight-character code that is used to identify the qualification, along with its title. The table explains the format of a qualification code for the *FWP Forest and Wood Products Training Package*.

Identifiers	Description	Example for FWP40216
Training package identifier	Three letters	= FWP
AQF level identifier	One number identifying the Australian Qualifications Framework level	= 4
Sequence identifier	Two numbers identifying the sequence of the qualification at that level in the Training Package	= 02
Version identifier	Two numbers identifying the year in which the qualification was endorsed.	= 16

Unit of competency codes

Within the training package, each unit of competency has a unique code (up to 12 characters). The code, as well as the title, is used to identify the unit of competency. The table explains the format of a unit of competency code for the *FWP Forest and Wood Products Training Package*.

Identifiers	Description	Example for FWPF5212
Training package identifier	Three letters	= FWP
Sector identifier	Two to four letters	= FGM (forest growing and management)
AQF level indicator	One number that is a guide as to the type and depth of skills and knowledge described in the unit. This identifier is loosely tied to the Australian Qualifications Framework and can range from 1 (indicates Certificate I) to 8 to (indicates Graduate Certificate/Graduate Diploma)	= 5
Sequence identifier	The final numbers identify the sequence of the unit in the particular unit sector and AQF level, and allows each unit to have a unique code	= 212

Under the *Standards for Training Packages*, units of competency no longer include a version identifier (e.g. A, B, C). In training.gov.au the release history of each unit is shown in both the web view of the unit and in the unit modification history and mapping tables.

Key work and training requirements in the industry

About the industry

The forest and wood products industry is critical to Australia's future economy based on sustainable products and clean energy. It is the only industry with a carbon neutral footprint, generating durable carbon storage through forest growing and management activities and wood and timber manufactured products with low embodied energy.

The forest and wood products industry is characterised by a mix of small, medium and large enterprises. Some enterprises show a high degree of vertical integration, being involved in activities across all of the six industry sectors:

- Forest Growing and Management
- Harvesting and Haulage
- Sawmilling and Processing
- Wood Panel and Board Production
- Timber Manufactured Products
- Timber Supply.

The industry's value chain includes the management of all forests, forest reserves and parks through conservation and land management, the forest growing and management activities for timber production, the manufacturing of a diverse range of traditional and non-traditional wood-based products, and the distribution channels to deliver and sell these products. The distribution is achieved through retail and trade merchants on one side and wholesalers, manufacturers, importers and exporters on the other side. The industry supplies a diverse range of products including:

- timber and timber elements for building construction
- structural timber systems, including manufactured frames and trusses and laminated veneer lumber (there is also potential in the future for manufacturing cross-laminated timber, parallel strand lumber and laminated strand lumber)
- engineered wood products
- indoor and outdoor wooden furniture
- wood chips
- pulp and paper and packaging products
- bio-fuels and bio-energy.

Based on a range of superior characteristics, including low embodied energy, low Greenhouse gas (GHG) emissions over the life cycle, time and weight efficiency when used in construction and good strength and thermal insulation properties, the timber products have clear advantages over, and can substitute, emission-intensive building materials such as steel and aluminium.

The future holds potential for many innovative uses of wood fibre in bio-refineries to generate wood-based compounds and composites from the manufacturing of cellulose fibre, nano-crystalline cellulose, and carbon fibres from the manufacturing of lignin. These innovations can replace petroleum-based compounds in a variety of materials, processes and industries related to automotive and aerospace domains, electronics and consumer products, or medical products and devices, and reduce the use of fossil fuel sources such as oil and gas.

Forest harvesting optimisation

Skills development for harvesting optimisation is required for all mechanised operations conducted in a commercial forest harvesting environment. These operations include tree felling, processing, extraction and loading. Mechanical harvesting machines such as feller bunchers, single grip harvesters, excavators with log grapple, skidders, forwarders, yarders and loaders must be operated by highly skilled individuals to perform safely and efficiently and to ensure optimal value recovery and extraction of logs.

Improving competences of forest harvesting operators is an important step for the Australian forest and harvesting industry sector to ensure ongoing increases in productivity and efficiency. Skills requirements in line with the industry best practices for optimisation include:

- safe and appropriate operation of the machines
- efficient use of on-board computer systems for single grip harvester to achieve maximum product value recovery during harvesting and forwarder to optimise product loads (volumes and weights) during transportation to customers
- practices for production cycle efficiency and product quality with outcomes including minimal damage to log products and correct product segregation, stacking, identification and presentation to the roadside or landing area.

Existing qualification, skill sets and units of competencies have been upgraded to reflect the level of performance expected of harvesting machine operators today and in the future, to support safety, product quality and efficiency outcomes.

The methods and knowledge base for product quality and efficiency vary according to the production system and type of log products, whether it is for sawlog or pulp log production. On this basis, the industry is keen to experience training that is contextualised to the production environment and requirements in which they operate.

To maintain the units of competency useful to the whole industry, they were written to describe requirements about product quality in terms of meeting production plan or systems. This has some implications for training providers by requiring them to liaise with individual organisations and customise training according with their specific production environment, whether it is for sawlog or pulp log production.

Training is expected to be delivered on-the-job as it is more successful in developing confidence and knowledge and to be supported by suitable training providers and assessors. Requirements for assessments to take place using actual harvesting machines and within a forest harvesting site are included in most of the units of competency. This will allow those workers who are already in the industry to build their skills and complete assessments in their own workplaces. Training needs to be flexible and adaptable to the existing knowledge and skill base of the operator. For those not yet in the industry, or new entrants, training providers will need to arrange access to a forest harvesting site in order for learners to receive effective training and to meet the assessment requirements.

On-the-job training, as with most training, requires some follow up with students and employers to ensure the learning outcomes have been achieved and are being implemented.

Industry has indicated that computer simulators can be used to teach the new units for on-board computers but the actual assessment must be done on the machine as long as the learners are already competent machine operators with appropriate accreditation. A combination of on-site training by employer and/or technology vendor in partnership with a training provider and workplace-based learning strategies is being considered by the industry as an option for teaching the on-board computer units.

Harvesting operator skills

This section outlines additional information to consider when delivering training and assessing knowledge for harvesting operators.

When undertaking a harvesting machine operation unit, operators may be required, depending on the workplace requirements, to attain a range of specific knowledge in relation to the following task areas.

a) Work health and safety risk control measures

- Personal protective equipment requirements
- Lifting heavy items safely
- Proper restraint techniques
- Emergency procedures
- Site security measures
- Getting in and out of the machine safely (the '3-point of contact' method)

b) Machine maintenance requirements

- Maintain clear windows
- Check the machine and clear build-up of flammable debris
- Maintain operational machine lighting
- Maintain operational machine safety features including handles, steps, emergency exits, radios, door latches, etc.

c) Log quality characteristics and defects

- Size (lengths and diameters)
- Shape (straightness/sweep, ovality, taper)
- External features (branching/forks, knots)
- Internal features (wood properties)
- Defects including:
 - Natural (fungal, insects, scars, deadwood, dry sides, pruning stubs, resin pockets)
 - Felling and processing defects
 - Drying damage

d) Methods to reset the harvesting head's length counter

(when undertaking FWPHAR3223 Use on-board computer systems for single grip harvester)

- Find End function of the on-board computer system
- Saw Zeroing method

e) Length and diameter measuring system fitted on harvesting heads

(when undertaking FWPHAR3223 Use on-board computer systems for single grip harvester)

- Potentiometer
- Measuring Arm
- Drive Coupling
- Length encoder
- Measuring Wheel
- Accumulator

When undertaking *FWPHAR3223 Use on-board computer systems for single grip harvester*, where colour branding is a prescribed outcome for the operation, operators are expected to acquire and demonstrate skills for setting up or adjusting colour marking functions of the on-board computer and for using harvester controls to colour mark individual logs.

When undertaking *FWPHAR3229 Operate single grip harvester* and *FWPHAR3225 Operate excavator with log grapple*, where machines are used for debarking operations, operators are expected to acquire skills and knowledge for conducting mechanical debarking.

When undertaking *FWPHAR3223 Operate feller buncher*, operators are expected to acquire skills, which allow them to correctly inspect the cutting head attachment, whether this is a chain saw bar, circular saw or shearing head, and be able to replace a chain saw bar configuration when required.

Harvesting Technologies

Technology has always been a key driver of change in the forest industry. These days, digital technology, drones and remote sensing systems, in-field technologies and optimisation equipment are supporting the industry to be more productive, environmentally sustainable and safer. As a result, many job roles require different levels of technical and digital skills than before.

New optimisation equipment is maximising the output of timber while also making it possible to track yield in real time. In-field wood chipping is now more advanced, making it possible to perform debarking and chipping on the same site as timber is harvested with reduced costs and increased efficiency. Techniques for cable logging and winch-assisted harvesting on steep slopes are another area where gains are being made, improving harvesting outcomes in a challenging environment.

Even with these technologies and advances in harvesting operations, there remains a need to conduct manual felling and chainsaw operations. Several industry programs rely on these skills standards to provide the benchmark for performance in these areas.

Most of these developments are now reflected in the national skills standards to ensure industry can keep up with high demand for timber, a competitive market, and industry requirements. For example, five (5) new units of competency have been developed to support skills development in digital technology, winch-assisted harvesting, mechanised forestry site preparation on steep slopes, and safe use of a chainsaw within trees. The units of competency for felling trees manually and chainsaw operation have also been updated to accurately reflect these high-risk activities.

However, there are still gaps in the FWP Forest and Wood Products Training Package in relation to digital technology that need to be addressed. These gaps refer to:

- Development of digital forest operational maps
- Development of cutting instructions files for forestry harvesters
- Management and analysis of harvesting optimisation data
- Collection of forestry data using unmanned aerial vehicle (UAV).

Prefabricated timber building systems

Four new units of competency were released with the *FWP Forest and Wood Products Training Package 4.0* to address critical skills and knowledge requirements in the design, on-site manufacture and off-site installation of prefabricated timber building systems:

- *FWPTMM3208 Apply critical workplace processes in the manufacture of prefabricated timber building systems*
- *FWPTMM3209 Install prefabricated timber building systems on-site*
- *FWPTMM5209 Determine prefabricated timber building systems designs for compliance, manufacture and installation*
- *FWPTMM5210 Verify compliance and conformance of prefabricated timber building systems during manufacture*

a) Industry expectations about training delivery

The industry expectation is that people assessed as competent in these new units will be equipped with the appropriate skills and knowledge to perform jobs effectively, efficiently and to meet compliance requirements in a business that operates within the prefabricated timber building systems industry.

The updated and new units of competency can be delivered and assessed in the workplace or an environment that accurately represents workplace conditions. They support implementation across a range of industry settings by providing guidance that encourages assessment in a variety of contexts and applications.

b) How training package components meet occupation and licensing requirements

The skills and knowledge covered by the updated and new units of competency are applied in a timber building systems manufacturing facility or a timber construction environment. No licencing requirements are required to conduct the jobs described by these units of competencies.

However, the following two units, *FWPTMM3208 Apply critical workplace processes in the manufacture of prefabricated timber building systems* and *FWPTMM3209 Install prefabricated timber building systems on-site*, are targeted to occupations such as wood machinists, carpenters, joiners, construction workers or other trade operators, and the learners are required to have an appropriate trade qualification or equivalent before undertaking this training.

Likewise, the learners of the *FWPTMM5209 Determine prefabricated timber building systems designs for compliance, manufacture and installation* are expected to be architects, design engineers, draftspersons, structural engineers, building services engineers or architectural technicians and, thus, have an appropriate building design qualification.

Significant industry feedback indicated that the new units of competency should specify that they are intended for people with previous occupational qualifications and skills. As a result, the following statements were included in the Application section of the new units.

“In order to undertake this unit, individuals must have a relevant trade qualification or equivalent”

or

“In order to undertake this unit, individuals must have a relevant building design qualification or equivalent.”

Learners of the updated and new units of competency are also expected to meet workplace and legal obligations related to work health and safety, apply relevant standards and perform activities according to workplace procedures and operational requirements. These requirements are explicitly reflected throughout the units.

c) Industry standards and codes needed to be considered when delivering and assessing the prefabricated timber building systems units of competency:

- **Structural design**

The National Construction Code (NCC)

AS 1170.0 – Structural design actions – General Principles

AS 1170.1 – Structural design actions – permanent, imposed and other actions provides the basis for determination of appropriate dead, live design loads and loads combinations

AS 1170.2 – Structural design actions – wind actions – which provides the basis for wind loads

AS 1170.4 – Structural design actions – Earthquake actions in Australia – which provides guidance and design procedures for earthquake forces

AS 1720.1 – Timber structures – Design methods

AS 2796 Timber - Hardwood - Sawn and milled products

AS 2082 Timber - Hardwood - Visually stress-graded for structural purposes

AS 4785 Timber - Softwood - Sawn and milled products

Timber Truss and Frame Estimating and Design

The timber truss and frame industry is critically important to Australia's economy and its people, as a high proportion of modern homes and buildings require its products. For this reason, timber systems designers and manufacturing operators play a crucial role in making sure a building is structurally sound, requiring skills to read architectural plans to calculate material quantities and costs. They are also responsible for producing timber system wall and/or truss fabrication plans, documents and products that adhere to building codes and standards and making sure that the communication between the factory floor and construction businesses are fit for purpose.

As the timber systems designers and fabricators perform two distinct job roles, two Certificate III qualifications are now available for the timber truss and frame sector to reflect this distinction in skills and learning outcomes. These qualifications are: the *FWP31020 Certificate III in Timber Systems Design* and the *FWP30920 Certificate III in Timber Frame or Truss Manufacture*.

Five (5) skill sets are also available to support fabricators who wish to develop technical skills related to a job function as opposed to a complete end-to-end manufacturing process. Each skill set is a subset of, and will provide credits toward, the revised *FWP30920 Certificate III in Timber Frame or Truss Manufacture*.

Timber Supply

Timber supply sector covers a range of activities that provide the link between Australian and international suppliers and producers to downstream users. This can include wholesale operators who sell to timber retailers or companies that construct housing or timber products; the timber retailers and timber product companies themselves; and distributors who negotiate deals across the globe. Those working within timber supply play an integral role in facilitating the sale of timber and timber products.

Timber sales operations have evolved significantly over the last few years, and these significant changes include:

- Timber trade sales and the imports of a wide range of engineered wood products is a growing sector due to the ongoing construction of residential and commercial buildings and the sustainable benefits of timber in these developments.
- With the growing sales of timber to building construction businesses and trade customers, most hardware stores have transitioned a large proportion of their retail operations to the timber trade. These stores have adopted a business-to-business model and a 'whole of house' concept.
- Sourcing timber and timber building systems from international markets have placed a greater emphasis on the verification of product compliance with the Australian Illegal Logging Prohibition Act, certification systems, legality verification systems and the Australian Standards for the engineering and design of timber building systems.
- To support the growing complexity of this sector, the IT systems that are available to timber sales operations have also increased in sophistication.

The *FWP30620 Certificate III in Timber Building Products Supply* has been developed to support industry jobs and evolving skills requirements, particularly in relation to the growing sales of timber to building construction businesses and trade customers. It has been also designed to enable specialisations in the following job areas: warehousing, logistics and customer sales.

Working safely

Working safely is a major point of focus across all sectors and job levels within the industry. It is an integral part of every work activity and is central to nearly every training activity that occurs.

Employers and managers are legally required to ensure personal safety of all workers. The evidence for demonstrating that workers can perform safely and effectively in harvesting operations, is 'holding' adequate FOLS endorsements (see page 61) to operate tree felling and harvesting equipment such as chainsaws, bulldozers and excavators, skid steer loaders, mobile chippers and splitters, and a range of trucks and vehicles.

Production workers, operators and technicians are trained to follow and apply procedures and work practices covering a wide range of safety matters including equipment operation and isolation; emergency and evacuation procedures, use of safety equipment, first aid and firefighting equipment; wearing of personal protective equipment and clothing; hazard identification, risk control and mitigation, handling and elimination of hazardous materials and substances; manual handling including shifting, lifting and carrying; fatigue management and safe forest practices including required actions relating to forest fire. These safety matters feature extensively in the delivery and assessment of skills from Certificate I to Certificate IV.

Units and qualifications from Certificate IV through to Advanced Diploma focus on the supervision, management and control of health and safety in the workplace. Supervisors and managers need to be well versed in a wide range of legislative and requirements, particularly in relation to health and safety. Timber growing, harvesting and haulage contracting, sawmill operations and timber products production all contain high-risk activities that must be carefully monitored and managed.

Owners and managers are responsible for ensuring workers are aware of their health and safety rights and obligations; that safe work procedures are developed, implemented and followed; that equipment is safe to use and that the work environment is safe. Managers, supervisors and Occupational Health and Safety/Work Health and Safety (OHS/WH&S) representatives require significant and ongoing training in carrying out risk assessments and, in the case of an incident, investigation, injury management and rehabilitation procedures. To minimise the risk of incidents, emphasis is placed on practical training such as site inductions, manual handling, hazard identification, Personal Protective Equipment (PPE) use, emergency and first aid procedures and equipment use. Fatigue and heat stress management is now recognised as a key safety imperative. Managers and supervisors are responsible for ensuring employees can recognise the causes and signs of fatigue and can take action to minimise its effects.

Forest operations and the production of wood products require the use of vehicles, heavy machinery and other equipment. Trees and logs can weigh many tonnes, and there is inherent risk in felling, handling and haulage activities. Safety training for haulage focusses on loading, unloading, load restraint and safe transport.

ForestWorks has a number of resources to support safe forestry operations, including a Log Haulage Manual, Tree Faller's Manual and Chainsaw Operators Manual, together with interactive online resources to support leadership and management in forest industry sustainability.⁶

⁶ Resources are available from the ForestWorks website: <<http://www.forestworks.com.au/>>

Working sustainably

Sustainability is a far-reaching concept that relates to numerous environmental, economic and social aspects of forestry operations.

Strategies and initiatives that support sustainable work practices are championed and driven by management. Management is responsible for ensuring that all production workers, operators and technicians work according to legislation, regulations, industry standards, organisational policies, procedures and practices, operational controls and monitoring and measurement programs that minimise our environmental footprint. All managers along the value chain develop and implement practical initiatives for reducing, recycling or eliminating waste and chemicals, and for conserving energy, water and material use.

As a package, these measures and practices are designed to support the sustainability of any organisation. Promotion and communication of legal and regulatory obligations, as well as sustainable work practices, are undertaken beyond the organisation boundaries, reaching local businesses and communities. Examples of factors that impact on forest businesses' sustainability, and sustainable industry practices include:

- Fungal, viral bacterial, insect and vertebrate biohazards are of particular threat to long term sustainability. The potential economic damage of a biohazard infestation may include the loss of forest value, current and future markets and damage to trading status. Sustainable forestry practices include the management of fire, weeds, soils and culturally significant landscapes, irrigation and watering strategies, and protection of native flora and fauna. Forestry technicians and managers need to carry out risk assessments of the social, economic and environmental impacts of potential infestations as well as planning the use of infestation treatments and control methods such as eradication, quarantine, fumigation, use of pesticides, biological controls and culling of infected plants.
- Forest growth, productivity and sustainability factors are indicated by canopy health and growth. General forest lean, wind speed and direction, felled trees, density of trees, ground slope, soil and water protection, ground hazards and obstacles, contingencies for modifying operations during wet or other adverse weather conditions are also factors which all forestry activities, from planting and forest management through to harvesting and sawmilling, need to consider when developing sustainable operations.

Key training for workers focusses on environmental care and protection measures; impact minimisation strategies; environmental hazard identification, including threats to native vegetation, flora and fauna; land use and management; protection of heritage and archaeological artefacts, and rehabilitation strategies and activities. In downstream processing sectors, such as sawmilling, and manufacture of timber and wood panel products, key training requirements for sustainability focus on housekeeping, resource optimisation and applying waste disposal, recycling and re-use guidelines.

National forestry standards, i.e. Australian Forestry Standard Ltd (AFS) and Australian Forest Stewardship Council Standard (FSC), and the international Programme for the Endorsement of Forest Certification (PEFC) recognise sustainability in the industry through certification. Certification gives customers confidence that the products they buy are based on sustainable forestry operations and good management practices. For certification, audit and quality purposes, management needs to implement a chain of custody certification system, including a register of documents that can include timber source information, processing records, quality records, and details for numbering/labeling systems. Worker training focusses on applying practices and procedures that comply with certification, while supervisors and managers need training to ensure that policies meet the needs of the organisation and are correctly implemented.

Working innovatively

When organisations and workers learn new and improved ways of working, there is a direct and positive impact on productivity and competitiveness. To achieve a culture of collaboration and innovation, the process needs to be driven by organisation leaders and managers.

Innovative coordination of planned harvesting with production schedules along the supply chain can produce significant efficiencies and cost savings. For example, the product range, timing and volume of value-adding processing can be significantly affected by elements of the tree harvesting plan, including available timber, equipment and resource requirements, environmental and seasonal

weather factors, site preparation and landscape/habitat protection factors, labour and skill supply, and a plethora of operational issues.

Effective and efficient supply chain management by managers within and between enterprises will result from close collaboration around creative problem solving and idea generation. Improving productivity requires the opportunity to learn from expert insights and from those who have already been successful. It involves working together, participating in training and developing practical solutions to existing challenges.

Units of competency have been incorporated into Innovation Skill Sets and the Advanced Diploma of Forest Industry Sustainability. The Skill Sets have been designed to support leaders, managers and workers in the forest and wood products industry to improve innovative thinking, practice and development.

Working with the community

The ability to engage and work with local community groups is essential to the success of a project or business. In fact, *people* represent a key pillar for long-term sustainable operations. Community groups are represented by a diverse range of stakeholders, across a range of ages, cultures, religions, education levels and politics. Promotion programs can help achieve community buy-in by communicating the benefit of tree plantations as alternative land use and the use of timber products as an environmentally friendly alternative. Community engagement provides information on a range of matters relating to plantation management, including the benefits and opportunities for the local community. This engagement is through community events, media and promotional activities, and through community participation. Genuine engagement strategies are all about building relationships, to establish trust.

Other key work requirements include the ability to connect with numerous individuals and organisations in the supply chain, work in regional areas, and to have practical knowledge of the forest and wood products industry.

Regulatory and organisational requirements

Aside from a strong focus on skills development for safety and sustainability, delivery and assessment from Certificate I to IV centres on familiarisation with a wide range of topics that govern how work is performed. Key training needs include regulatory requirements around award and enterprise agreements, industrial relations, Australian Standards, confidentiality and privacy, equal opportunity, anti-discrimination, relevant industry codes of practice, duty of care, heritage and traditional landowner issues.

All job roles require work to be performed according to organisational requirements and these are reflected in the FWP units and qualifications. They include requirements for recording and reporting, quality and continuous improvement, equipment use and maintenance, environmental management, organisational procedures and site guidelines, operating procedures and ethical conduct.

Supervisors and managers need skills to develop implement, monitor and evaluate organisation policies and procedures, and these skill requirements are reflected in Certificates IV through to Advanced Diploma level.

Communication

Effective interpersonal and communication skills are essential to every job role and therefore a key training requirement for industry. They relate to many aspects of work including orientation to the organisation, performing operational processes, following procedures and instructions, interacting with workers and supervisors, quality assurance and troubleshooting, workplace health and safety, dealing with customers, taking part in meetings, undertaking training and training others on the job.

Employees at all levels need to communicate effectively with a range of individuals and groups including clients, contractors, land owners, builders, supervisors and managers, production and technical staff, designers, building certifiers and software providers.

Core interpersonal skills include verbal and non-verbal language, hand or other agreed signals, eye contact, active listening, questioning and use of electronic communication devices, such as two-way radios.

Key training for operators and support staff relates to reading and interpreting routine information, including procedures and work instructions, manuals, checklists, plans and diagrams, sketches and illustrations, signage and maps, and safety data sheets. Supervisors, managers and specialist technical staff need advanced skills to critically read, analyse and evaluate text.

Writing skills for operators and technicians including recording production and quality information on proformas, reporting faults and downtime. Higher-level written skills are needed by supervisors, managers and specialist technical staff, who are required to produce reports and a range of complex information for a variety of recipients.

A key training need for operators and technical staff relates to the identification of timber qualities, to ensure products meet required quality specifications. Skills include assessing timber characteristics and grades such as colour, density, texture and grain, as well as identification of damage and defects to timber including contamination, insect attack, surface finish, colour, loose surfaces, bubbles, holes, warp, wane, cupping, shakes, insect defects, knots, resin pockets, breakages and machine-caused defects.

Other factors impacting on training delivery and assessment

a) Regional training delivery

Forestry work is often based in specific geographic regions, such as the Green Triangle region of Victoria and South Australia, areas of Tasmania, the South West of Western Australia, far North Queensland and forest and plantations throughout New South Wales. Mills are often located close to the wood source to minimise transport costs and aid in production. The majority of training is undertaken by existing workers and is hands-on, utilising on-site materials, such as trees, logs and sawn timber, as well as resources, such as products, machines and human resources. Training therefore needs to occur on site or at facilities convenient to the workplace. The high investment cost of machinery and equipment also means that, to be economically viable, some training needs to be workplace based.

b) Just in time

Whilst training is often spread thinly across states and regions, there is a consistent demand for skilled personnel, from operators through to senior management. Demand occurs at all times of the year, so it is important that training takes place not only where it is needed, but also when it is needed. Public and private training providers often work with small groups of learners to fulfil a particular demand, such as chainsaw operation, saw technician, or harvesting machinery operation.

Future skill needs in the industry

Anticipating future skills needs in the forest and wood products industry is crucial to prepare for and meet the new demands for forest sustainability and timber product markets in Australia.

Each year, Skills Impact works on behalf of Industry Reference Committees (IRCs) to develop an *IRC Skills Forecast and Proposed Schedule of Work (IRC Skills Forecasts)*.

Through consultation with industry, *IRC Skills Forecasts* identify skills gaps, emerging skills needs and associated training needs for industry, and determine whether there is a need to change training packages. The *IRC Skills Forecasts* propose a plan for reviewing and developing the relevant units, skill sets and qualifications and they are submitted annually (usually in April) to the [Australian Industry Skills Committee](#) (AISC) for its consideration and approval.

The AISC draws on information from Skills Forecasts to prepare and update the *National Schedule*. The *National Schedule* provides details of all training package review and development work currently underway and work commissioned by the Australian Industry and Skills Committee (AISC).

The following IRCs are responsible for the *FWP Forest and Wood Products Training Package*.

IRC Skills Forecasts are available to view and download from the Skills Impact website <https://www.skillsimpact.com.au/irc-skills-forecasts/>.

The following table outlines the industry-specific priority skills identified in the 2020 Annual Update to Skills Forecast.

2020–2021 Project Details

Project 1: Assessment Materials

This project will develop assessment materials to support safer work practices in the Forest Harvesting Sector. Assessment materials for 40 units of competency have been identified on the basis that these units are used by industry in their compliance programs.

These assessment instruments will be developed with industry and all RTOs with the relevant units on scope. They will incorporate, moderate and validate content relating to a broad range of forest types and jurisdictional codes of practice. The outcomes of this project will include a validation plan according to NVR standard requirements to ensure the assessment instruments can be regularly reviewed. Responsibility for compliance with the standards will remain with the Registered Training Organisations using the instruments.

This project is proposed by the Forest Management and Harvesting Industry Reference Committee. It is supported by the Timber and Wood Processing, and Timber Building Solutions IRCs. The IRCs reiterated the need for these materials at meetings held in early April 2020.

Project 2: Review of lower level qualifications for entry into the industry

In Forestry regions around the country, school students should be able to access school based VET or apprenticeships that provide a career path into a range of Forestry roles. This project will work with industry and across State and Territory Governments to ensure that the Certificate II or Certificate III is able to be delivered in a school environment, whilst ensuring there are sufficient and relevant units of competency that provide an overview of the industry, basic technical skills to start working in the industry and basic employability skills.

This project will review two Certificate II qualifications and two Certificate III qualifications in the FWP Training Package to improve pathways into the industry for new entrants, through school based VET and apprenticeships (school based and otherwise).

It is possible that the project will determine that a number of Certificate II qualifications could be amalgamated into a single general Certificate II qualification with skill sets providing opportunities for specialisation, however this would require closer examination to ensure there are no unintended consequences. The project will also consider the need to retain the Certificate I in Forest and Forest Products, which presently has no uptake in industry.

Project 3: Review of high-level jobs in forestry

This project will examine the job roles of foresters and related occupations, and review and rationalise existing qualifications in the Forest and Wood Products Training Package.

Project 4: Safety Mindsets in remote operations

This project will develop a skill set and up to 2 new units of competency relating to shaping and sustaining safety culture and practices whilst working in remote high-risk operations.

The skill set and new units will be targeted at operators, rather than supervisors or managers, and will focus on how an individual can influence the safety culture of a small peer-group team. The units will be nominally aligned to AQF level 3.

Project 5: Responding to and assisting in bushfire situations

This project will undertake a job function analysis to determine any changes required to the FWP Training Package as a result of changes to the roles performed by forest operators resulting from their work in fire prevention, firefighting and fire recovery, in both native and plantation forestry.

The project will examine the roles played by forestry operators in bushfires in relation to machinery operations, tree felling, salvage operations and hazard reduction activities.

Implementation information

Industry sectors

The *FWP Forest and Wood Products Training Package* includes the following industry sectors:

Code	Unit Sector
COR	Core Forest Growing and Management Harvesting and Haulage Sawmilling and Processing Timber Manufactured Products Timber Merchandising Wood Panel Products Timber Truss and Frame Design and Manufacture
COT	Common Technical
FGM	Forest Growing and Management
HAR	Harvesting and Haulage
SAW	Sawmilling and Processing
TMM	Timber Manufactured Products Timber Merchandising
WPP	Wood Panel Products

Occupational outcomes of qualifications

The units of competency, skill sets and qualifications in the *FWP Forest and Wood Products Training Package* cover a diverse range of work activities within the industry.

The following table lists the qualifications and provides an overview of occupational outcomes for each qualification.

Qualification	Overview of occupational outcomes
Advanced Diploma <ul style="list-style-type: none"> FWP60116 Advanced Diploma of Forest Industry Sustainability 	<p>The purpose of the Advanced Diploma qualification type is to qualify managers and leaders to apply specialised knowledge in a range of contexts and undertake advanced skilled or paraprofessional work. The Advanced Diploma serves also as a pathway for further learning. The skills covered by the Advanced Diploma also form part of other, broader job roles at a strategic level within the industry. Typically, higher educated foresters with experience in the field would undertake the Advanced Diploma to gain skills in leadership and current sustainability initiatives.</p>
Diploma <ul style="list-style-type: none"> FWP50116 Diploma of Forest and Forest Products 	<p>The Diploma qualification reflects the role of individuals who apply integrated technical and theoretical concepts in a broad range of contexts and undertake skilled or paraprofessional work. The Diploma is suitable for supervisors, managers and specialist job roles. The Diploma serves also as a pathway for further learning.</p>
Certificate IV <ul style="list-style-type: none"> FWP40116 Certificate IV in Forest Operations FWP40216 Certificate IV in Timber Processing FWP40420 Certificate IV in Timber Systems Design 	<p>The Certificate IV qualification reflects the role of individuals to undertake work in varied contexts using a broad range of specialised knowledge and skills. Certificate IV is suitable for senior workers and technicians who supervise or lead teams. Certificate IV also serves as a pathway for further learning.</p>

Occupational outcomes (continued)

Qualification	Overview of occupational outcomes
Certificate III <ul style="list-style-type: none"> FWP30116 Certificate III in Forest Growing and Management FWP30216 Certificate III in Harvesting and Haulage FWP30316 Certificate III in Sawmilling and Processing FWP30416 Certificate III in Wood Panel Products FWP30516 Certificate III in Timber Manufactured Products FWP30620 Certificate III in Timber Building Products Supply FWP30920 Certificate III in Timber Frame and Truss Manufacture FWP31019 Certificate III in Saw Technology FWP31020 Certificate III in Timber Systems Design FWP31119 Certificate III in Wood Machining 	<p>The Certificate III qualification reflects the role of individuals required to apply a broad range of knowledge and skills in varied contexts and undertake skilled work. Certificate III is suitable for experienced operators, technicians and trades workers. Certificate III serves also as a pathway for further learning.</p>
Certificate II <ul style="list-style-type: none"> FWP20116 Certificate II in Forest Growing and Management FWP20216 Certificate II in Harvesting and Haulage FWP20316 Certificate II in Sawmilling and Processing FWP20416 Certificate II in Wood Panel Products FWP20516 Certificate II in Timber Manufactured Products 	<p>The Certificate II qualification reflects the role of individuals who undertake mainly routine work. Generally, Certificate II is used as an induction into the industry and is aligned to operator, production and assistant roles. Certificate II serves also to offer a pathway for further learning.</p>
Certificate I <ul style="list-style-type: none"> FWP10116 Certificate I in Forest and Forest Products 	<p>The purpose of Certificate I qualifications is to provide individuals with basic functional knowledge and skills to undertake work, further learning, and community involvement in the industry. Certificate I may be used as an induction into the industry.</p>

The table on the following page provides a summary of typical occupational outcomes of each AQF qualification in each industry sector.

Industry Sectors and Occupational Outcomes of Qualifications							
AQF Level	Forest Growing and Management	Harvesting and Haulage	Sawmilling and Processing		Engineered Wood Panel Production	Timber Manufactured Products	Timber Supply
II	<ul style="list-style-type: none"> Arboriculture Worker Farm Forestry Worker Forestry Worker Nursery Worker Plantation Establishment Worker Plantation Forest Officer Silviculturist 	<ul style="list-style-type: none"> Bulldozer Operator Chainsaw Operator Excavator Operator Forest Harvester Forwarder Operator Grader Harvesting Technician Mobile Equipment Operator Rigging Slinger Skidder Operator 	<ul style="list-style-type: none"> Kiln Worker Timber Grader Treatment Plant Worker Production Worker Sawmill Worker Wood Machinist Saw Technician 		<ul style="list-style-type: none"> Production Worker (Laminates) Production Worker (Engineered Wood Panel) Production Worker (Veneer) 	<ul style="list-style-type: none"> Grader Manufacturing Assistant (Timber Products) Saw Operator Timber Manufacturing Worker Engineered Wood Product Manufacturing Worker Timber Products Worker Timber Puller 	<ul style="list-style-type: none"> Customer Service / Sales Assistant (Retail or Wholesale)
III	<ul style="list-style-type: none"> Arboriculture Technician Farm Forestry Technician Forestry Technician Nursery Technician Supervisor (Forestry Operations) Tree Planter Silviculturist 	<ul style="list-style-type: none"> Bulldozer Operator Excavator Operator Feller Buncher Operator Forest Harvester Forwarder Operator Harvesting Technician In-field Chipper Operator Loader Operator Log truck driver Mobile Equipment Operator Skidder Operator 	<ul style="list-style-type: none"> Benchman Chipper Operator Head Rig Operator Kiln Operator Machine Operator (e.g. Finger Jointing, Moulding, Planning) Production Technician 	<ul style="list-style-type: none"> Timber Grader Timber Products Technician Treatment Plant Operator Saw Technician Optimisation Technician Wood Machinist Technician Sawyer 	<ul style="list-style-type: none"> Production Technician / Operator (Laminates) Production Technician / Operator (Engineered Wood Panel) Production Technician / Operator (Veneer) Timber Fabricator (Laminates) 	<ul style="list-style-type: none"> Press Operator Jig Setter Machine Operator (e.g. Finger Jointing, Moulding, Planning) Saw Operator Kiln Operator Timber Manufactured Products Technician Engineered Wood Products Technician Timber Fabricator (Truss & Frame) Timber Systems Designer / Estimator (Truss & Frame) 	<ul style="list-style-type: none"> Customer Service / Sales Assistant (Retail or Wholesale) Customer Service Officer Sales and Merchandising Team Leader Sales and Merchandising Team Leader (Timber Products) Timber Advisor

Key features of the training package and the industry that will impact on the selection of training pathways

A *pathway* is the route or course of action taken to get to a destination. A *training pathway* describes learning activities or experiences used to attain the competencies needed to achieve career goals.

AQF Qualifications Pathways Policy Requirements

The AQF Qualifications Pathways Policy,⁷ as part of the Australian Qualifications Framework, supports students' lifelong learning by aiming to:

- recognise the multiple pathways that students take to gain AQF qualifications and that learning can be formal and informal
- enhance student progression into and between AQF qualifications, both horizontally (across AQF qualifications at the same level) and vertically (between qualifications at different levels).
- support the development of clear pathways in the design of qualifications.

Multiple pathways to gain qualifications

In line with requirements of the *AQF Pathways Policy*, the *FWP Forest and Wood Products Training Package* allows for individuals to follow a training and assessment pathway, or recognition of prior learning (RPL) pathway (or combinations of each pathway) to complete the units of competency needed to be awarded a qualification. These pathways are shown in the following diagram.

⁷ The AQF Qualifications Pathways Policy is available to download from the Australian Qualifications Framework website: <<http://www.aqf.edu.au/aqf/in-detail/aqf-policies/>>

Training and assessment pathway

Training and assessment pathways usually incorporate a mix of formal, structured training and workplace experience to build skills and knowledge together with formative and summative assessment activities through which individuals can demonstrate their skills and knowledge.

Structured training and assessment courses may be conducted:

- face-to-face
- by distance or e-learning
- in the workplace
- by combining face-to-face, distance, e-learning and/or workplace delivery.

RPL pathway

RPL acknowledges that individuals may already have the skills and knowledge required for all or part of a qualification. Individuals can gain credit towards a qualification by providing evidence of their current competency, which may have been gained through formal or informal learning, work experience or general life experience.

VET for secondary students

Vocational Education and Training (VET) programs enable students to acquire workplace skills and knowledge while they are still at school. Successful completion of a VET program provides a student with a nationally recognised AQF qualification (or particular units of competency), usually as part of a senior secondary certificate. VET programs are packaged and delivered in various ways across Australia. The three main delivery arrangements used are:

- schools hold RTO status
- school sectoral bodies (such as Boards of Studies or regional offices) hold RTO status on behalf of a group of schools
- schools work in partnership with RTOs.

The following qualifications may be suitable for delivery to secondary students. Training package users are advised to contact the relevant STA/TTA for further advice.

- FWP10116 Certificate I in Forest and Forest Products
- FWP20116 Certificate II in Forest Growing and Management
- FWP20216 Certificate II in Harvesting and Haulage
- FWP20316 Certificate II in Sawmilling and Processing
- FWP20416 Certificate II in Wood Panel Products
- FWP20516 Certificate II in Timber Manufactured Products
- FWP30620 Certificate III in Timber Building Products Supply
- FWP31020 Certificate III in Timber Systems Design

Australian apprenticeships/traineeships

Apprenticeships and traineeships are legally binding training arrangements, between an employer and employee, which combine training with paid employment. Australian Apprenticeships are delivered through a cooperative arrangement between the Australian Government, state and territory governments, industry employers and RTOs. Each State or Territory Training Authority (STA/TTA) is responsible for apprenticeships and traineeships in its jurisdiction.⁸

The qualifications in the *FWP Forest and Wood Products Training Package* are available from AQF levels 1 through 6 and may be suitable to be undertaken as an Australian Apprenticeship:

- FWP10116 Certificate I in Forest and Forest Products
- FWP20116 Certificate II in Forest Growing and Management
- FWP20216 Certificate II in Harvesting and Haulage
- FWP20316 Certificate II in Sawmilling and Processing
- FWP20416 Certificate II in Wood Panel Products
- FWP20516 Certificate II in Timber Manufactured Products
- FWP30116 Certificate III in Forest Growing and Management
- FWP30216 Certificate III in Harvesting and Haulage
- FWP30316 Certificate III in Sawmilling and Processing
- FWP30416 Certificate III in Wood Panel Products
- FWP30516 Certificate III in Timber Manufactured Products
- FWP30620 Certificate III in Timber Building Products Supply
- FWP30920 Certificate III in Timber Frame or Truss Manufacture
- FWP31019 Certificate III in Saw Technology
- FWP31020 Certificate III in Timber Systems Design
- FWP31119 Certificate III in Wood Machining
- FWP40116 Certificate IV in Forest Operations
- FWP40216 Certificate IV in Timber Processing
- FWP40420 Certificate IV in Timber Systems Design
- FWP50116 Diploma of Forest and Forest Products
- FWP60116 Advanced Diploma of Forest Industry Sustainability.

Training package users are advised to contact the relevant STA/TTA for further advice.

⁸ The Australian Apprenticeships website has information about traineeships and apprenticeships. Visit <www.australianapprenticeships.gov.au> for more information. STA contact details are provided in the Links section of this Implementation Guide.

Progression between qualifications

Qualifications have been designed to allow learners to move upwards and across AQF levels and industry sectors. The diagram on the following page shows the various options for movement into and between current qualifications in the *FWP Forest and Wood Products Training Package*.

Examples of pathways into qualifications

FWP20316 Certificate II in Sawmilling and Processing

This qualification was updated in *FWP Forest and Wood Products Training Package Version 5.0* to include additional elective units of competency that can provide a pathway into trade qualifications of wood machining and saw technology.

This qualification may be offered as a pre-apprenticeship to candidates who would like to focus on developing - skills towards apprenticeship level qualifications such as FWP31119 Certificate III in Wood Machining and FWP31019 Certificate III in Saw Technology.

Examples of units of competency from the Certificate II in Sawmilling and Processing that may provide entry-level training and attract a credit transfer to the apprenticeship level qualifications include:

Entry points to FWP31119 Certificate III in Wood Machining

- FWPCOT2245 Operate and maintain a table saw
- FWPCOT2234 Dock material to length
- FWPCOT2244 Operate and maintain a thicknesser
- FWPCOT2215 Visually stress grade hardwood
- FWPCOT2216 Visually stress grade softwood
- FWPCOT3302 Access and provide timber and wood product information
- FWPCOT2257 Use hand-held tools

Entry points to FWP31019 Certificate III in Saw Technology

- FWPCOT3271 Hand sharpen knives and blades for commercial and domestic cutting services
- FWPCOT3276 Sharpen cutters using a straight knife grinder
- FWPSAW3247 Replace tungsten tips
- MEM05006 Perform brazing and/or silver soldering
- MEM11011 Undertake manual handling
- MEM13015 Work safely and effectively in manufacturing and engineering
- MEM16006 Organise and communicate information

FWP31019 Certificate III in Saw Technology

This qualification was updated in *FWP Forest and Wood Products Training Package Version 5.0* to provide additional pathways into a higher-level technical job roles.

The elective groups and units of competency within this qualification can provide saw technicians with two pathway options. Saw technicians can use the qualification to develop skills in performing general saw servicing operations or develop skills in saw maintenance engineering roles.

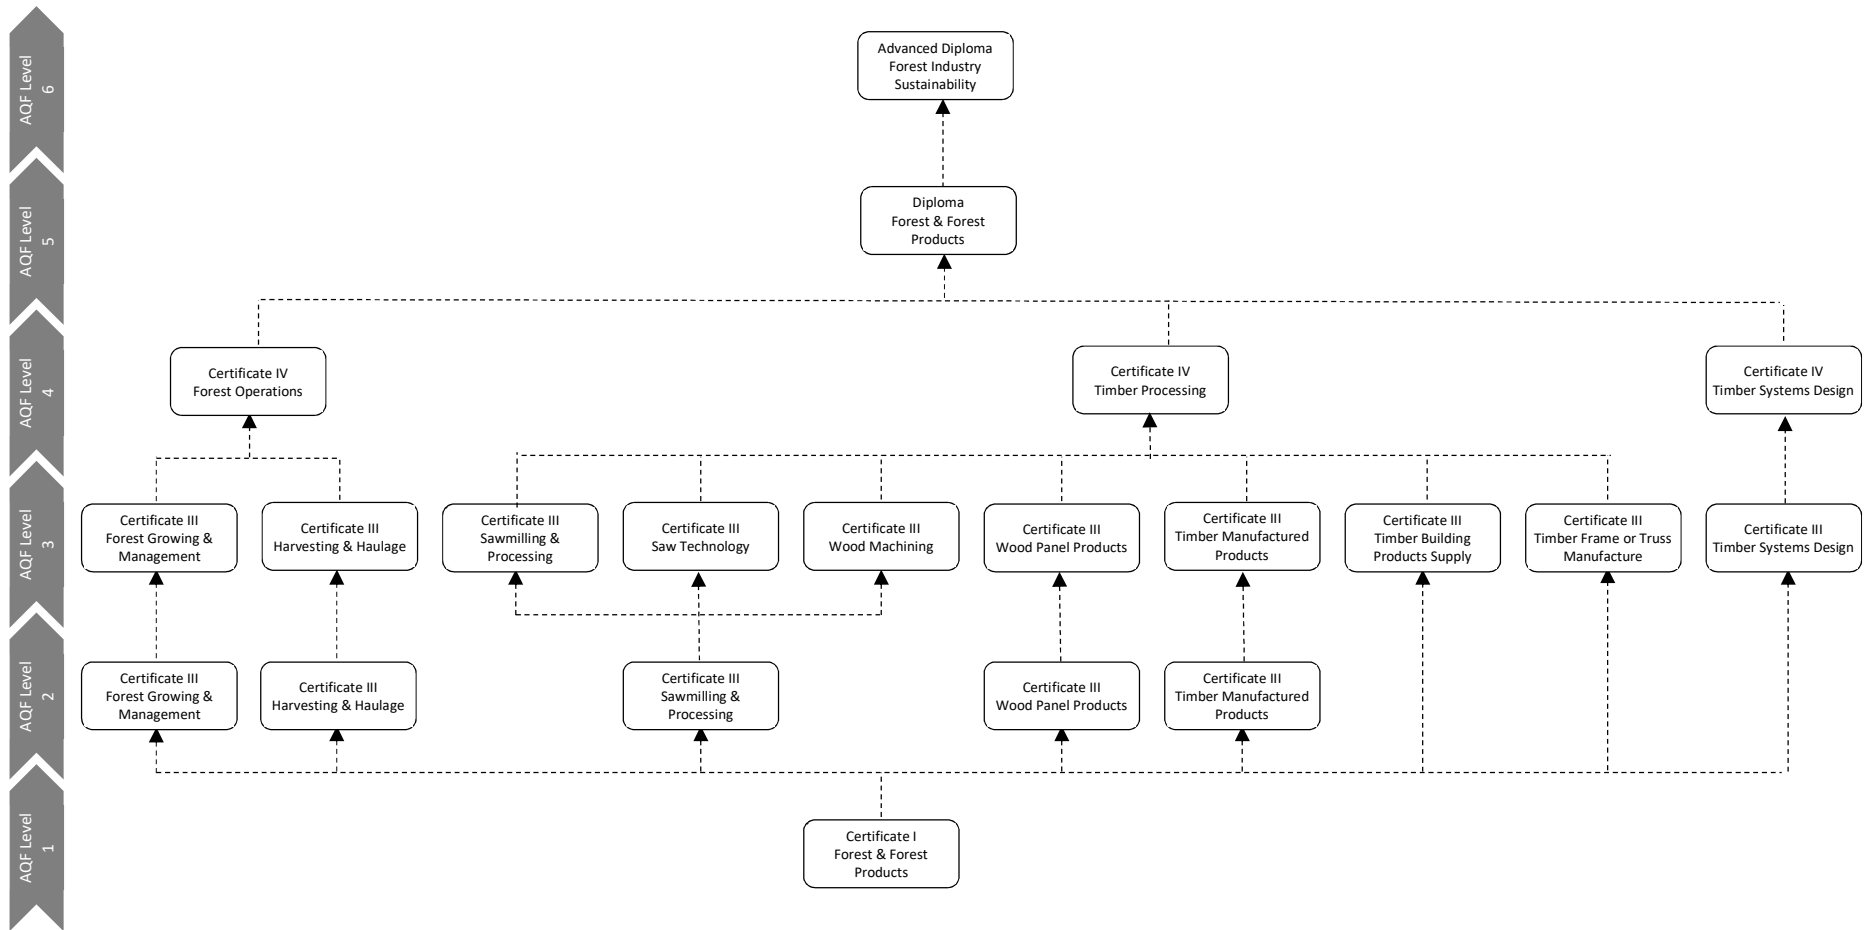

Saw Technicians who undertake FWP31019 Certificate III in Saw Technology and wish to pursue a higher-level technical job role in the timber industry can access skills in maintaining saws' hydraulic and pneumatic systems via the skill sets FWPSS00039 Skill set for hydraulic maintenance of saw technology and FWPSS00040 Skill set for pneumatic maintenance of saw technology.

Skill sets for timber frame and truss fabricators

Five (5) skill sets were developed to support employers and fabricators who wish to develop technical skills related to a job function as opposed to a complete end-to-end manufacturing process. Each skill set is a subset of, and will provide credits toward, the *FWP30920 Certificate III in Timber Frame or Truss Manufacture*. These skill sets are:

- *FWPSS00041 Cutting Timber to Length and Angle Skill Set*
- *FWPSS00042 Timber Wall Frame Manufacture Skill Set*
- *FWPSS00043 Timber Roof Truss Manufacture Skill Set*
- *FWPSS00044 Timber Floor Truss Manufacture Skill Set*
- *FWPSS00045 Stacking and Storing Timber Frames and Trusses Skill Set*

Forest and Wood Products Career Pathway

Entry requirements for qualifications

Any specific entry requirements for qualifications in the *FWP Forest and Wood Products Training Package* are described in each qualification. The entry requirements ensure an individual has the skills and knowledge required to undertake the qualification.

Qualification	Entry requirements
FWP10116 Certificate I in Forest and Forest Products	No entry requirements
FWP20116 Certificate II in Forest Growing and Management	No entry requirements
FWP20216 Certificate II in Harvesting and Haulage	No entry requirements
FWP20316 Certificate II in Sawmilling and Processing	No entry requirements
FWP20416 Certificate II in Wood Panel Products	No entry requirements
FWP20516 Certificate II in Timber Manufactured Products	No entry requirements
FWP30116 Certificate III in Forest Growing and Management	No entry requirements
FWP30216 Certificate III in Harvesting and Haulage	No entry requirements
FWP30316 Certificate III in Sawmilling and Processing	No entry requirements
FWP30416 Certificate III in Wood Panel Products	No entry requirements
FWP30516 Certificate III in Timber Manufactured Products	No entry requirements
FWP30620 Certificate III in Timber Building Products Supply	No entry requirements
FWP30920 Certificate III in Timber Frame or Truss Manufacture	No entry requirements
FWP31019 Certificate III in Saw Technology	No entry requirements
FWP31020 Certificate III in Timber Systems Design	No entry requirements
FWP31119 Certificate III in Wood Machining	No entry requirements
FWP40116 Certificate IV in Forest Operations	No entry requirements
FWP40216 Certificate IV in Timber Processing	No entry requirements
FWP40420 Certificate IV in Timber Systems Design	No entry requirements
FWP50116 Diploma of Forest and Forest Products	No entry requirements
FWP60116 Advanced Diploma of Forest Industry Sustainability	No entry requirements

Selecting electives to enable different occupational outcomes

Qualifications include elective units that should be selected according to the needs of the learner. The choice of elective units may be negotiated between the learner and/or employer, and the RTO conducting the training program.

Some qualifications allow electives to be selected from within the training package, and also from other training packages and accredited courses. Wherever they are selected from, elective units should provide a vocational focus for the qualification and be relevant to the:

- AQF qualification level
- job role
- work outcomes
- local industry needs
- area of specialisation (if required).

The qualification *FWP40216 Certificate IV in Timber Processing* was updated in FWP Forest and Wood Products Training Package Version 5.0 to provide pathways for Saw Technicians. As a result, the qualification contains units in the elective bank for skills in maintaining saws' hydraulic and pneumatic systems. Individuals and RTOs should select electives carefully taking into consideration all prerequisite requirements (or similar).

Training package delivery and assessment

RTOs must ensure that both training and assessment complies with the relevant standards⁹. In general terms, training and assessment must be conducted by individuals who:

- have the necessary training and assessment competencies
- have the relevant vocational competencies at least to the level being delivered or assessed
- can demonstrate current industry skills directly relevant to the training/assessment being delivered
- continue to develop their VET knowledge and skills, industry currency and trainer/assessor competence.

Assessors of some units of competency may have to meet requirements in addition to those of the *Standards for Registered Training Organisations (RTOs) 2015/AQTF* requirements for assessors.

Check the *Assessment Conditions* section (provided in the assessment requirements that accompany each unit of competency) for specific assessor requirements.

Some specific considerations in relation to the *FWP Forest and Wood Products Training Package* are included in the following section.

⁹ RTOs regulated by Australian Skills Quality Authority (ASQA) must comply with the Standards for Registered Training Organisations (RTOs) 2015. RTOs regulated by the Western Australian Training Accreditation Council (WA TAC) or the Victorian Registration and Qualifications Authority (VRQA) must check with their regulator for current requirements.

Amount of training and volume of learning

RTOs must create a training and assessment strategy for delivery of AQF qualifications that reflects the complexity required of that qualification. An essential consideration in the training and assessment strategy is to ensure the amount of training provided is sufficient so that the learner can:

- meet the requirements of each qualification
- gain the skills and knowledge specified in the units of competency.

The amount of training involves all the formal learning activities provided to a learner, for example, classes, tutorials, field-work, lectures, online or self-paced study, as well as workplace learning. Training should take into account the need to allow learners to reflect on and absorb the knowledge, to practise the skills in different contexts and to learn to apply the skills and knowledge in the varied environments that the 'real world' offers before being assessed.

AQF qualifications differ in terms of their complexity. The complexity of a qualification is defined by:

- the breadth and depth of the knowledge
- skills required
- application of knowledge and skills, and
- the AQF volume of learning.

The AQF volume of learning describes how long a learner, without any competencies identified in the qualification, would normally take to develop all the required skills and knowledge at that qualification level. The volume of learning includes all teaching, learning and assessment activities that are undertaken by the typical student to achieve the learning outcomes of the particular qualification.¹⁰

¹⁰ Information sourced from Australian Government, ASQA, *Fact Sheet: Determining the amount of training*, <https://www.asqa.gov.au/sites/g/files/net2166/f/FACT_SHEET_Amount_of_training.pdf> viewed June 2017:

Access and equity considerations

An RTO's training and assessment practices should minimise any barriers to training and assessment by considering the individual needs of learners. Some needs that could affect an individual's participation in training and assessment include:

- age
- gender
- cultural or ethnic background
- disability
- sexuality
- language, literacy or numeracy skills
- employment status
- geographical location.

While the design and content of this training package supports equitable access and progression for all learners, it is the responsibility of the RTO delivering and assessing qualifications to:

- ensure that training and assessment processes and methods do not disadvantage individuals
- determine the needs of individuals and provide access to any educational and support services necessary.

Some practical ways that access and equity issues could be addressed include:

- modifying assessment processes for learners located at a distance from a campus location
- checking that materials are culturally appropriate for learners and amending, as necessary
- making sure that activities and assessments are suitable for the language, literacy and numeracy skill levels of learners (while meeting the requirements of the unit of competency).

Reasonable adjustment for learners with disabilities

A legislative framework underpins and supports the delivery of vocational education and training across Australia. Under this framework, RTOs must take steps to provide enrolled learners with recognised disabilities access to same training as learners without disabilities.

In some cases, 'reasonable adjustments' are made to the training environment, training delivery, learning resources and/or assessment tasks to meet the needs of a learner with a disability. An adjustment is 'reasonable' if it can accommodate the learner's particular needs, while also taking into account factors such as:

- the views of the learner
- the potential effects of the adjustment on the learner and others
- the costs and benefits of making the adjustment to the RTO.

Adjustments must:

- be discussed and agreed to by the learner with a disability
- benefit the learner with a disability
- maintain the competency standards
- be reasonable to expect in a workplace.¹¹

¹¹ The *Disability Standards for Education, 2005* and accompanying guidance notes can be downloaded at <<http://education.gov.au/disability-standards-education>>.

Foundation skills in units of competency

Foundation skills are the 'non-technical skills' that individuals need so they can participate effectively in workplaces, in education and training, and in their communities.

Under the *Standards for Training Packages 2012*, training package developers must include foundation skills in units of competency, however, the method and format for doing this has not been prescribed.

In the *FWP Forest and Wood Products Training Package* (and all training packages developed by Skills Impact) the foundation skills are shown in a table format as shown in the following example.

Foundation Skills <i>This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.</i>	
Skill	Description
Learning	Understand main tasks, responsibilities and boundaries of own role
Reading	Read and understand production plans, site safety and environmental management plans in a forest harvesting environment Read and understand standard operating procedures and/or manufacturer's instructions for the operation of forest harvesting machinery
Writing	Record operation, production and machine maintenance on paper based or electronic media
Oral Communication	Interact verbally and non-verbally using agreed systems and processes to communicate with others on site to ensure safe and effective single grip harvester operations Use appropriate vocabulary including technical language directly relevant to role
Numeracy	Interpret gauges relevant to safe operation of harvesting machinery Determine construction of stable log stack

Frameworks used

The foundation skills are derived from the following national framework:

- The *Australian Core Skills Framework* (ACSF) is used to identify learning, language, literacy and numeracy (LLN) skills.

The ACSF can be downloaded at: <https://www.employment.gov.au/australian-core-skills-framework>

The five skills from the ACSF are identified separately with descriptions explaining how the skill underpins the performance criteria.

The foundation skills table in each unit:

- identifies applicable underpinning skills
- describes the application of each skill in the context of the performance criteria.

Only those foundation skills that **ARE NOT** explicit in the performance criteria appear in the foundation skills mapping table.

The foundation skills are an integrated part of the unit for training and assessment purposes. Therefore it is important that users look closely at both the foundation skills and the performance criteria, to make sure that **all** foundation skills are considered during delivery and assessment.

Key legislative implications for implementation

Regulatory or licensing requirements are identified in the *Application* field of units of competency and the *Qualification description* field in qualifications.

If there are no particular requirements, then the statement 'No licensing, legislative or certification requirements apply to this unit/qualification at the time of publication' will appear.

Health and safety requirements

Safety is a major driver for industry training. The activities of greatest concern in relation to safety are mainly within the forest growing and management and harvesting and haulage sectors, due to the high use of mobile machinery and the nature of the working environment. Within all six industry sectors, the following areas are of high risk or compliance:

- manual tree felling
- loading and unloading log trucks
- load restraints
- stacking timber
- cable logging
- fatigue management
- manual handling
- forklift in motion/ transporting goods
- chemical hazards
- other chainsaw or pole saw activities
- slips, trips, falls.

State and territory government workplace health and safety legislation is outlined in the following table.

Jurisdiction	Legislation
National	Work Health and Safety Act 2011
	Work Health and Safety Regulations 2011
NSW	Work Health and Safety Act 2011
	Work Health and Safety Regulation 2017
QLD	Work Health and Safety Act 2011
	Work Health and Safety Regulation 2011
SA	Work Health and Safety Act 2012
	Work Health and Safety Regulations 2012
TAS	Work Health and Safety Act 2012
	Work Health and Safety Regulations 2012
VIC	Occupational Health and Safety Act 2004 and Regulations 2007
	Occupational Health and Safety Regulations 2007
WA	Occupational Safety and Health Act 1984 and Regulations 1996
	Occupational Health and Safety Regulations 1996

Health and safety requirements (continued)

Workplace health and safety requirements must in line with applicable Commonwealth, State or Territory legislation and regulations, and organisational safety policies and procedures, which may include:

- personal protective equipment and clothing
- safety equipment
- first aid equipment
- firefighting equipment
- hazard and risk control
- fatigue management
- elimination of hazardous materials and substances
- safe forest practices, including required actions relating to forest fire
- manual handling including shifting, lifting and carrying.

In general, health and safety requirements are addressed in specific work health and safety units of competency or embedded in particular units of competency in the *FWP Forest and Wood Products Training Package*.

RTOs must make sure that delivery of health and safety content is contextualised to comply with the relevant legislation in the state/territory in which they are training. Details of state and territory regulators, together with some useful workplace health and safety organisations, have been included in the following tables.

State/Territory Regulators

State/Territory	Regulating Body	Website
Australian Capital Territory	WorkSafe ACT	http://www.worksafe.act.gov.au
New South Wales	SafeWork NSW	http://www.safework.nsw.gov.au
Northern Territory	NT WorkSafe	http://www.worksafe.nt.gov.au
Queensland	Workplace Health and Safety Queensland (WHSQ)	http://www.worksafe.qld.gov.au
South Australia	SafeWork SA	http://www.safework.sa.gov.au
Tasmania	WorkSafe Tasmania	http://worksafe.tas.gov.au
Victoria	WorkSafe Victoria	http://www.worksafe.vic.gov.au
Western Australia	WorkSafe WA	http://www.commerce.wa.gov.au/WorkSafe

National organisations

Name	Function	Website
Safe Work Australia	Leads the development of national policy to improve work health and safety and workers' compensation arrangements across Australia.	http://www.safeworkaustralia.gov.au
National Heavy Vehicle Regulator	Administers one set of laws for heavy vehicles under the Heavy Vehicle National Law (HVNL), delivering a comprehensive range of services under a consistent regulatory framework.	https://www.nhvr.gov.au/
Comcare	The Comcare scheme provides rehabilitation and workers' compensation and occupational health and safety arrangements for Australian Government employees and for the employees of organisations which self-insure under the scheme.	http://www.comcare.gov.au
National Industrial Chemicals Notification and Assessment Scheme (NICNAS)	<p>NICNAS is the Australian Government regulator of industrial chemicals. NICNAS is responsible for:</p> <ul style="list-style-type: none"> providing a national notification and assessment scheme to protect the health of the public, workers and the environment from the harmful effect of industrial chemicals, and assessing all chemicals new to Australia and those chemicals already used (existing chemicals) on a priority basis, in response to concerns about their safety on health and environmental grounds. 	http://www.nicnas.gov.au

Other legislative requirements

The Australian Forest and Wood Products industry operates under a range of acts, regulations and standards. Following is a summary of key requirements; however, users of this Implementation Guide are advised to check with the relevant regulatory authority as legislation is subject to change.

Environmental protection

Australia's public native forests, including those held in nature conservation reserves and those available for wood production, are governed and managed under national and state and territory regulatory frameworks and management plans (many of which are prescribed in legislation) relating to the conservation and sustainable management of forests.

There are three major pieces of legislation at the national level that support the conservation and sustainable management of forests. National legislation includes:

- Environmental Protection and Biodiversity Conservation Act 1999
- Regional Forest Agreement Act 2002
- Illegal Logging Prohibition Act 2012.

Management of forests on private land is also regulated under various native vegetation Acts.

Forestry legislation

State and territory government forestry legislation is outlined in the following table.

Jurisdiction	Legislation
NSW	Forestry Act 2012
QLD	Forestry Act 1959
SA	Forest Act 1950 South Australian Forestry Corporation Act 2000
TAS	Forest Management Act 2013 Forestry (Rebuilding the Forest Industry) Act 2014
VIC	Forest Act 1958 Victorian Plantations Corporation (Amendment) Act 1998
WA	Forests Act 1918

Heavy Vehicle National Law and Regulations

- Heavy Vehicle National Law (HVNL) Act 2012

HVNL Regulations

- Heavy Vehicle (Fatigue Management) National Regulation
- Heavy Vehicle (General) National Regulation
- Heavy Vehicle (Mass, Dimension and Loading) National Regulation
- Heavy Vehicle (Registration) National Regulation
- Heavy Vehicle (Vehicle Standards) National Regulation
- Heavy Vehicle National Law (HVNL)

Each state and territory covered by the HVNL has passed legislation that modifies some aspects of the HVNL for that state or territory.

Jurisdiction	Act	Regulation
ACT	Heavy Vehicle National Law (ACT) Act 2013	Heavy Vehicle National Law (ACT) (Transitional Provisions) Regulation 2014
NSW	Heavy Vehicle (Adoption of National Law) Act 2013	Heavy Vehicle (Adoption of National Law) Regulation 2013
QLD	Heavy Vehicle National Law Act 2012 (Qld)	Heavy Vehicle National Law Regulation 2014
SA	Heavy Vehicle National Law (South Australia) Act 2013	Heavy Vehicle National Law (South Australia) (Expiation Fees) Regulations 2013 Heavy Vehicle National Law (South Australia) (Fees) Regulation 2013
TAS	Heavy Vehicle National Law (Tasmania) Act 2013	Heavy Vehicle National Law (Tasmania) Regulations 2014
VIC	Heavy Vehicle National Law Application Act 2013	Heavy Vehicle National Law Application (Infringements) Regulations 2013

Environmental and heritage protection legislation

State and territory government environmental and heritage protection legislation includes:

Jurisdiction	Legislation
National	Environment Protection and Biodiversity Conservation Act 1999
	The Aboriginal and Torres Strait Islander Heritage Protection Act 1984 (Commonwealth)
QLD	Environmental Protection Act 1994
	Nature Conservation Act 1992
	Aboriginal Cultural Heritage Act 2003
	Conservation and Land Management Act 1984
NSW	Protection of the Environment Operations Act 1997
	Biodiversity Conservation Act 2016
SA	Environment Protection Act 1993
	Natural Resources Management Act 2004
	Aboriginal Heritage Act 1988
TAS	Environmental Management and Pollution Control Act 1994
	Aboriginal Heritage Act 1975
VIC	Environmental Protection Act 1970
	Catchment and Land Protection Act 1994
	Flora and Fauna Guarantee Act 1988
	Wildlife Act 1975
	Aboriginal Heritage Act 2006
WA	Environmental Protection Act 1986

Jurisdiction	Legislation
	Biodiversity Conservation Act 2016
	Conservation and Land Management Act 1984
	Aboriginal Heritage Act 1972

Sustainable forest management

The major non-legislative policies and strategies that influence the sustainable forest management of Australia's forest are listed in the following table by jurisdiction.

Jurisdiction	Policy	Department	Website
National	National Forestry Policy Statement 1992	Department of Agriculture and Water Resources	http://www.agriculture.gov.au/forestry/policies/forest-policy-statement
	Plantations for Australia: the 2020 Vision	Department of Agriculture and Water Resources	http://www.agriculture.gov.au/forestry/policies/2020vision
	National Indigenous Forestry Strategy 2005	Department of Agriculture and Water Resources	http://www.agriculture.gov.au/forestry/policies/nifs
	Australia's Biodiversity Conservation Strategy 2010-2030	Department of Environment and Energy	http://www.environment.gov.au/biodiversity/publications/australias-biodiversity-conservation-strategy
	Australia's strategy for the National Reserve System 2009-2030	Department of Environment and Energy	http://www.environment.gov.au/land/nrs/publications/strategy-national-reserve-system
	Farm Forestry National Action Statement 2005	Department of Agriculture and Water Resources	http://www.agriculture.gov.au/forestry/australias-forests/plantation-farm-forestry/publications/farm_forestry_national_action_statement

WA	Forest Products Commission Forest Management Policy	Forest Products Commission Western Australia	http://www.fpc.wa.gov.au/forest-management/policy-and-practice

Additional considerations

In addition, the industry operates under the guidance and implementation of codes of practice, guidance materials and standards for sustainable forest management of wood production forests. As exemplified below, the codes and other types of guidance documents cover a range of industry matters and vary in their legal status and jurisdiction coverage:

- forest planning
- forest access and roading
- operating heavy vehicles
- managing workplace health and safety risks in forest harvesting
- sawmilling and timber operations
- timber preservation
- conservation of non-wood values
- pest, weed and fire management
- harvesting of non-wood forest products.

National work and safety guidelines for managing risks in forestry operations, from Safe Work Australia include:

- Guide to growing and managing Forests (2013)
- Guide to managing risks of loading, transporting and unloading logs (2014)
- Guide to managing risks of in-field processing forest products (2014)
- Guide to managing risks of timber harvesting operations (2014)
- Guide to managing risk of plant and equipment for forestry operations (2014)
- Guide to managing risks of general hazards in forestry operations (2017)
- Guide to managing risks of log landing (2014)
- Guide to managing risks of log extraction (2014)
- Guide to managing risks of coupe and harvesting site access and preparation (2014)
- Guide to managing risks of tree trimming and removal work (2016)
- Forestry operations guidance material (2014)
- General guide for managing risks in forestry operations (2014).

International and national forest management standards include:

- Programme for Endorsement of Forest Certification (PEFC)
- Australian Forestry Standard (AS 4708)
- Chain of Custody Standard (AS 4707)
- Chain of Custody Certification Standard FSC-STD-40-004 (V3-0)
- FSC Controlled Wood Standard for Forest Management Enterprises (FSC-STD-30-010 V2-1)
- FSC Australia – Forest Stewardship Standard (AFSS) (Draft).

FOLS Skills Verification Program

In several states, forest operators may be required to hold a FOLS for a range of operations. For instance, in Tasmania, the significant industry employers require that anyone engaged in tree harvesting is to hold a FOLS. FOLS provides consistent operating standards for individuals in high risk activities, such as tree felling and tree harvesting and haulage, through uniform sets of measures for safety and the environment. It ensures workers are trained and current in their skills.

In addition, employers and managers are legally required to ensure personal safety of all workers. The evidence for demonstrating that workers can perform safely and effectively in harvesting operations, is 'holding' adequate FOLS endorsements to operate tree felling and harvesting equipment such as chainsaws, bulldozers and excavators, skid steer loaders, mobile chippers and splitters, and a range of trucks and vehicles.

The FOLS Skills Verification Program is the only industry-led system that supports the professionalism and safety of industry through a national electronic system of recording and verifying the training and currency of workers' skills. FOLS offers businesses a method of demonstrating that appropriate training has been provided to satisfy obligations and liabilities under national WHS Regulations. FOLS verification means that a worker has undertaken the required nationally recognised training and kept their skills current through regular practice of their listed endorsements.

Some of the skilled activities covered by FOLS are outlined in the following table.

Skilled activity	Corresponding unit of competency
Chainsaw Operator	FWPHAR2209 Trim and cut harvested trees, FWPHAR2207 or FPIHAR2207A
Tree Feller Basic	FWPCOT2253 Fell trees manually (basic), FWPCOT2236 or FPICOT2236
Tree Feller Intermediate	FWPHAR3205 Harvest trees manually (intermediate), FWPHAR3220 or FPIHAR3220
Tree Feller Advanced	FWPHAR3209, Harvest trees manually (advanced), FWPHAR3221 or FPIHAR3221 -
Wheel Tractor Operator	RIIMPO315E Conduct tractor operations, RIIMPO315D or RIIMPO315A -
Crawler Tractor Operator	FWPHAR3224 Operate crawler tractor, FWPHAR3216 or FPIHAR3216A
Skidder Operator	FWPHAR3230 Operate skidder, FWPHAR3217 or FPIHAR3217A
Loader Operator	FWPHAR3228 Operate loader, FWPHAR3218 or FPIHAR3218A
Forwarder Operator	FWPHAR3227 Operate forwarder, FWPHAR3206 or FPIHAR3206C

Mechanical Processor Operator	FWPHAR3210 Conduct mechanical processor operations or FPIHAR3210C
Excavator Operator	FWPHAR3225 Operate excavator with log grapple, FWPHAR3219 or FPIHAR3219A
Feller Buncher Operator	FWPHAR3226 Operate feller buncher, FWPHAR3207 or FPIHAR3207C
Truck Driver	FWPCOT3315 Transport forestry logs using trucks, FWPCOT3261 or FPICOT3261
Tree Climber (Basic)	AHCARB312 Use standard climbing techniques to access trees or AHCARB204A
Tree Climber (Advanced)	AHCARB307 Use advanced climbing techniques or AHCARB307A

Where units of competency contain regulatory information or align to licensing, RTOs, trainers and assessors must be suitably qualified to deliver the training. This usually means that trainers and assessors must have the relevant vocational competencies, at least to the level being delivered or assessed, and can demonstrate current industry skills directly relevant to the training/assessment being undertaken.

Licensing/registration requirements for particular job functions described in Units of Competency vary significantly. There are variations between States and Territories and between individual workplaces as to competencies required to undertake specific job roles.

Organisations delivering training must determine the applicable requirements associated with the equipment being used, and in the relevant States and Territories. To assist this process, units of competency will contain one of the following statements:

In the case of no licensing requirements:

No licensing, legislative or certification requirements apply to this unit at the time of publication.

In cases where a licence, certification or other regulatory/legislative compliance is required:

Licensing, legislative or certification requirements apply to this unit in some states and territories at the time of publication, and may differ according to jurisdiction.

Note that activities within some units of competency require the incidental use of load shifting equipment, such as forklifts or overhead cranes. In such cases, the relevant units of competency should also be accessed and are to be met concurrently or prior to the achievement of the unit.

Users of this Implementation Guide are advised to keep up-to-date with changes to legislative requirements by checking with the relevant regulatory authority.

Training and assessing environments

The Assessment Conditions section of the Assessment Requirements states whether assessment must take place in a real workplace or whether an environment that 'accurately represents workplace conditions' can be used.

An environment that accurately represents workplace conditions is one which offers real life working conditions with the actual characteristics of that working environment, including equipment, interactions with other people and completion of tasks within timeframes, if these are requirements of the working environment.

Sometimes conducting training and assessment in a real workplace is not possible or practical. If conducting training and assessment in a non-workplace environment, trainers and assessors must make sure that learners have opportunities to complete tasks:

- to the quality standards, and within the acceptable timeframes, required by the industry
- in a manner that meets the industry's safety standards.

Legal considerations for learners in the workplace/on placements

Legal requirements that apply to specific sectors covered by this Training Package vary across each state and territory and can change from time to time. Contact the relevant state or territory department/s to check. STA contact details are provided in the Links section of this Implementation Guide. The Fair Work Ombudsman has some general guidelines and fact sheets about unpaid work.¹²

Work placements should always involve the appropriate supervision and guidance from individuals in the workplace and trainers and assessors from the RTO and must adhere to required legislation that applies in the jurisdiction e.g. learners must be supplied with the appropriate personal protection equipment (PPE) and training on how to use the PPE effectively prior to undertaking tasks that include health and safety risks.

Resources and equipment lists

RTOs must make sure that all resources and equipment required to train and assess units of competency are available. Details of specific resources, including equipment and materials essential for assessment, are listed in the Assessment Conditions sections of Assessment Requirements documents. Where units of competency require assessment in the workplace, the workplace must include the full range of equipment required to do the task, as listed in the Assessment Conditions.

Equipment should be made available to the student by the RTO delivering the training. All equipment must meet Australian standards for safety and be well maintained.

Learning resources are available for certain units of competency within the Advanced Diploma of Forest Industry Sustainability. For further information about resources available, please see the Forestworks website <http://www.forestworks.com.au/services/learning-resources-and-tools/>.

Training Package developer's quality assurance process for Companion Volumes

Companion Volumes are developed in consultation with industry representatives, trainers and assessors, members of Industry Reference Committees (IRCs) and their representatives. These key stakeholders provide and review content to ensure that information is relevant and useful.

The Companion Volumes undergo continuous improvement in response to feedback lodged on the Skills Impact website ([http://www.skillsimpact.com.au/contact/.](http://www.skillsimpact.com.au/contact/))

Appendix 1: Training Package Components

Qualifications

<i>FWP Forest and Wood Products Training Package Version 6.0. Qualifications</i>	
Code	Title
FWP10116	Certificate I in Forest and Forest Products
FWP20116	Certificate II in Forest Growing and Management
FWP20216	Certificate II in Harvesting and Haulage
FWP20316	Certificate II in Sawmilling and Processing
FWP20416	Certificate II in Wood Panel Products
FWP20516	Certificate II in Timber Manufactured Products
FWP30116	Certificate III in Forest Growing and Management
FWP30216	Certificate III in Harvesting and Haulage
FWP30316	Certificate III in Sawmilling and Processing
FWP30416	Certificate III in Wood Panel Products
FWP30516	Certificate III in Timber Manufactured Products
FWP30620	Certificate III in Timber Building Products Supply
FWP30920	Certificate III in Timber Frame or Truss Manufacture
FWP31019	Certificate III in Saw Technology
FWP31020	Certificate III in Timber Systems Design
FWP31119	Certificate III in Wood Machining
FWP40116	Certificate IV in Forest Operations
FWP40216	Certificate IV in Timber Processing
FWP40420	Certificate IV in Timber Systems Design
FWP50116	Diploma of Forest and Forest Products
FWP60116	Advanced Diploma of Forest Industry Sustainability

Skill sets

<i>FWP Forest and Wood Products Training Package Version 6.0</i> Skill Sets	
Code	Title
FWPSS00001	Skill set for forest and wood product innovation for leaders
FWPSS00002	Skill set for forest and wood product innovation for managers
FWPSS00003	Skill set for supporting forest and wood products innovation
FWPSS00004	Skill set for managing change in the forest and wood products industry
FWPSS00005	Skill set for forest and wood products industry stakeholder engagement
FWPSS00006	Skill set for supporting workplace engagement in the forest and wood products industry
FWPSS00007	Skill set for leading business development in the forest and wood products industry
FWPSS00008	Skill set for managing business development in the forest and wood products industry
FWPSS00009	Skill set for supporting business development in the forest and wood products industry
FWPSS00014	Skill set for a heavy production mobile chipper operator
FWPSS00016	Skill set for a mechanical processor operator
FWPSS00017	Skill set for a native forest operator
FWPSS00018	Skill set for a plantation forest operator
FWPSS00022	Skill set for fire salvage operations
FWPSS00023	Skill set for off road four wheel drive operations
FWPSS00024	Skill set for soil and water protection (roading)
FWPSS00025	Skill set for carbon accounting
FWPSS00026	Skill set for a forestry log truck driver
FWPSS00027	Skill set for a forestry produce truck driver
FWPSS00028	Skill set for a finger jointing plant operator
FWPSS00029	Skill set for a finger jointing moulder operator
FWPSS00030	Skill set for a finger jointing grader operator
FWPSS00031	Skill set for a finger jointing quality control tester
FWPSS00032	Skill set for a crawler tractor operator
FWPSS00033	Skill set for a feller buncher operator
FWPSS00034	Skill set for a forwarder operator
FWPSS00035	Skill set for a loader operator
FWPSS00036	Skill set for a single grip harvester operator
FWPSS00037	Skill set for a skidder operator
FWPSS00038	Skill set for an excavator with log grapple operator
FWPSS00039	Skill set for hydraulic maintenance of saw technology

FWPSS00040	Skill set for pneumatic maintenance of saw technology
FWPSS00041	Cutting Timber to Length and Angle Skill Set
FWPSS00042	Timber Wall Frame Manufacture Skill Set
FWPSS00043	Timber Roof Truss Manufacture Skill Set
FWPSS00044	Timber Floor Truss Manufacture Skill Set
FWPSS00045	Stacking and Storing Timber Frames and Trusses Skill Set

Units of competency

<i>FWP Forest and Wood Products Training Package Version 6.0</i> Units of Competency	
Code	Title
FWPCOR2201	Work effectively in the forest and forest products industry
FWPCOR2202	Communicate and interact effectively in the workplace
FWPCOR2203	Follow environmental care procedures
FWPCOR2204	Follow fire prevention procedures
FWPCOR2205	Follow WHS policies and procedures
FWPCOR2207	Maintain quality and product care
FWPCOR3201	Implement safety, health and environment policies and procedures
FWPCOR3202	Conduct quality and product care procedures
FWPCOR3203	Evaluate fire potential and prevention
FWPCOR3204	Visually assess materials
FWPCOR4201	Monitor safety, health and environment policies and procedures
FWPCOR4202	Monitor and review forestry operations
FWPCOR4203	Monitor quality and product care procedures
FWPCOR6201	Manage sustainability in the workplace
FWPCOR6202	Implement practices to maximise value from wood residues
FWPCOT2202	Rack material
FWPCOT2203	Finish and pack products
FWPCOT2206	Stack and bind material
FWPCOT2209	Produce finger jointed timber
FWPCOT2211	Produce pointed timber products
FWPCOT2220	Select trees for tending operations
FWPCOT2222	Produce laminated beams
FWPCOT2225	Chip or flake wood
FWPCOT2226	Debark logs mechanically
FWPCOT2231	Pack products
FWPCOT2233	Navigate in forest areas

<i>FWP Forest and Wood Products Training Package Version 6.0</i> Units of Competency	
Code	Title
FWPCOT2234	Dock material to length
FWPCOT2240	Cut material with a pole saw
FWPCOT2242	Segregate and sort logs
FWPCOT2243	Tail out timber product and waste material
FWPCOT2244	Operate and maintain a thicknesser
FWPCOT2245	Operate and maintain a table saw
FWPCOT2246	Appearance grade hardwood sawn and milled products
FWPCOT2247	Appearance grade softwood sawn and milled products
FWPCOT2248	Appearance grade cypress sawn and milled products
FWPCOT2249	Visually stress grade hardwood
FWPCOT2250	Visually stress grade softwood
FWPCOT2251	Visually stress grade cypress
FWPCOT2252	Band edges of panels
FWPCOT2253	Fell trees manually (basic)
FWPCOT2254	Maintain chainsaws
FWPCOT2255	Store materials
FWPCOT2256	Trim and cut felled trees
FWPCOT2257	Use hand-held tools
FWPCOT2258	Assemble products
FWPCOT2259	Cut materials with a hand-held chainsaw
FWPCOT2260	Tally material
FWPCOT2261	Process orders and prepare for despatch
FWPCOT2262	Cut material to shape using a saw
FWPCOT2263	Cross cut materials with a fixed saw
FWPCOT3202	Navigate in remote or trackless areas
FWPCOT3203	Weigh loads
FWPCOT3208	Test strength of joints
FWPCOT3219	Produce standard truss or frame plans and details using computers
FWPCOT3222	Present forestry information and interpretations programs
FWPCOT3224	Plan and monitor equipment maintenance
FWPCOT3226	Assess timber for manufacturing potential
FWPCOT3227	Receive and measure logs
FWPCOT3231	Operate steam boiler
FWPCOT3232	Operate heat plant
FWPCOT3234	Cut material using CNC sizing machines

<i>FWP Forest and Wood Products Training Package Version 6.0</i> Units of Competency	
Code	Title
FWPCOT3235	Machine material using CNC machining and processing centres
FWPCOT3240	Grade heavy structural/engineered products
FWPCOT3246	Test heavy structural/engineered products
FWPCOT3248	Dry timber in solar assisted kilns
FWPCOT3249	Select timber preservation techniques
FWPCOT3253	Convert timber residue into products for further use
FWPCOT3255	Apply silvicultural principles
FWPCOT3257	Follow cultural heritage requirements
FWPCOT3259	Operate a four wheel drive on unsealed roads
FWPCOT3260	Recover four wheel drive vehicles
FWPCOT3263	Maintain and contribute to energy efficiency
FWPCOT3267	Mechanically stress-grade engineered wood panels
FWPCOT3268	Plane and sand engineered wood products
FWPCOT3270	Grade and mark logs
FWPCOT3271	Hand sharpen knives and blades for commercial and domestic cutting services
FWPCOT3272	Set up and run multi-head moulder/planer to produce simple profiles
FWPCOT3273	Set up and run multi-head moulder to produce complex profiles
FWPCOT3274	Cut timber products using high-speed optimiser
FWPCOT3275	Set up, operate and maintain end matching machines
FWPCOT3276	Sharpen cutters using a straight knife grinder
FWPCOT3277	Sharpen cutters in head using a profile knife grinder
FWPCOT3278	Sharpen cutters in head using a straight knife grinder
FWPCOT3279	Assess and maintain saw technology tools
FWPCOT3280	Replace saw blades, knives and guides
FWPCOT3281	Manufacture profile cutters
FWPCOT3282	Assess and maintain saw blade and sawing machine performance
FWPCOT3283	Sharpen and position blades or knives in chipper, canter and reducer
FWPCOT3284	Grade, sort and mark timber materials
FWPCOT3285	Apply knowledge of wood technology principles to end use applications
FWPCOT3286	Identify levelling and tensioning requirements for saw blades
FWPCOT3287	Operate CNC equipment for grinding, tensioning and levelling saw blades
FWPCOT3288	Set up, operate and maintain finger jointing machines
FWPCOT3289	Load and prove operating program for CNC machine
FWPCOT3290	Apply knowledge of timber properties, sawmill operations and sawmilling equipment

<i>FWP Forest and Wood Products Training Package Version 6.0</i> Units of Competency	
Code	Title
FWPCOT3291	Apply principles of timber and process optimisation in sawmill operations
FWPCOT3292	Calibrate and maintain scanning equipment used in sawmilling operations
FWPCOT3293	Use scanning equipment for timber grading
FWPCOT3294	Swage and shape saw blades
FWPCOT3295	Assess and maintain cutter performance
FWPCOT3296	Mechanically stress grade timber
FWPCOT3297	Operate automated stacking equipment
FWPCOT3298	Produce templates
FWPCOT3299	Cut timber or engineered wood product to profile
FWPCOT3301	Trim trees using a pole saw
FWPCOT3302	Access and provide timber and wood product information
FWPCOT3303	Prepare sketches and drawings
FWPCOT3304	Take off material quantities
FWPCOT3305	Interpret and quote from manufactured timber product plans
FWPCOT3306	Rehabilitate tracks, quarries and landings
FWPCOT3307	Create drawings using computer aided design software
FWPCOT3308	Assemble timber wall frames
FWPCOT3309	Assemble timber roof trusses
FWPCOT3310	Prepare timber or related products to meet import/export compliance requirements
FWPCOT3311	Use environmental care procedures to undertake fire salvage operations
FWPCOT3312	Implement environmentally sustainable work practices in the work area/work site
FWPCOT3313	Apply biodiversity protection principles
FWPCOT3314	Comply with soil and water protection
FWPCOT3315	Transport forestry logs using trucks
FWPCOT3316	Transport forestry produce using trucks
FWPCOT3317	Use chainsaw within a tree
FWPCOT3318	Access, capture and communicate forestry field data using mobile devices
FWPCOT3319	Read and interpret digital maps and forest operation plans
FWPCOT3320	Build and maintain timber stacks
FWPCOT4201	Produce complex truss and frame plans and details using computers
FWPCOT4203	Plan and coordinate product assembly
FWPCOT4204	Schedule and coordinate load shifting
FWPCOT4205	Coordinate log debarking operations
FWPCOT4206	Plan and coordinate boiler operations

<i>FWP Forest and Wood Products Training Package Version 6.0</i> Units of Competency	
Code	Title
FWPCOT4207	Plan and coordinate heat plant operations
FWPCOT4208	Implement workplace sustainability practices
FWPCOT4209	Design timber structures
FWPCOT4210	Provide specialised timber product solutions
FWPCOT4211	Monitor stock control procedures
FWPCOT5201	Implement sustainable forestry practices
FWPCOT5202	Manage forestry information and interpretations programs
FWPCOT5203	Manage installation and commissioning of equipment
FWPCOT5204	Organise enterprise maintenance programs
FWPCOT5205	Develop biohazard contingency plans
FWPCOT5206	Implement forestry chain of custody certification system
FWPCOT5207	Implement sustainability in the workplace
FWPCOT5208	Build and maintain community relationships
FWPCOT5209	Manage tree harvesting to minimise environmental impact
FWPCOT6201	Manage community engagement
FWPCOT6202	Develop and manage a forestry chain of custody certification process
FWPCOT6204	Use carbon accounting to estimate emissions
FWPCOT6205	Prepare an enterprise carbon management report
FWPCOT6207	Develop forest management systems and processes
FWPCOT6208	Manage innovative thinking and practice in the forest and wood products industry
FWPCOT6209	Manage forest and wood products industry research
FWPCOT6210	Develop engineered wood products to meet energy efficient building design needs
FWPCOT8101	Lead forest and wood products industry innovative thinking and practice
FWPCOT8102	Initiate and lead a forest and wood products industry innovation
FWPFGM2201	Collect seed
FWPFGM2202	Prepare seedbed
FWPFGM2203	Plant trees by hand
FWPFGM2204	Plant trees mechanically
FWPFGM2205	Prune trees
FWPFGM2206	Collect data or samples for assessment
FWPFGM2207	Undertake brushcutting operations
FWPFGM2209	Cut, sort and set cuttings
FWPFGM2211	Detect fires
FWPFGM2212	Graft cuttings

<i>FWP Forest and Wood Products Training Package Version 6.0</i> Units of Competency	
Code	Title
FWPFGM2213	Process seed
FWPFGM2214	Maintain visitor sites
FWPFGM2215	Measure trees
FWPFGM3201	Manage seed collection
FWPFGM3202	Extract seed
FWPFGM3203	Conduct an instrument survey
FWPFGM3206	Plan and implement non-commercial thinning operations
FWPFGM3207	Coordinate stem improvement
FWPFGM3208	Construct and maintain forest roads and tracks
FWPFGM3210	Patrol forest
FWPFGM3211	Manage coppice stems
FWPFGM3214	Operate a four wheel drive in a towing situation
FWPFGM3215	Perform complex 4x4 operations
FWPFGM3216	Fell trees manually (intermediate)
FWPFGM3217	Fell trees manually (advanced)
FWPFGM4201	Implement a forest establishment plan
FWPFGM4202	Manage stand health
FWPFGM4203	Design plantations
FWPFGM4204	Conduct a pests and diseases assessment
FWPFGM4205	Monitor regeneration rates
FWPFGM4206	Conduct a wood volume and yield assessment
FWPFGM4207	Conduct a forest site assessment
FWPFGM4208	Plan a quarry
FWPFGM4209	Interpret and use aerial photographs for forest management
FWPFGM4210	Prepare a tender
FWPFGM5201	Plan and manage an inventory program
FWPFGM5208	Manage road construction and maintenance
FWPFGM5210	Manage tending operations in a native forest
FWPFGM5211	Coordinate stand nutrition
FWPFGM5212	Manage genetic resources
FWPFGM5213	Coordinate plantation tending operations
FWPFGM5214	Develop a native forest regeneration plan
FWPFGM5215	Breed Trees
FWPFGM5216	Manage coupe planning
FWPFGM5217	Promote plantations as a sustainable form of land use

<i>FWP Forest and Wood Products Training Package Version 6.0</i> Units of Competency	
Code	Title
FWPFGM5219	Undertake carbon stock sampling of forests and plantations
FWPFGM6201	Plan a biochar storage system for carbon capture and storage
FWPFGM6203	Manage sustainable tree inventory
FWPHAR2201	Hook up felled trees (choker)
FWPHAR2202	Perform landing duties (chaser)
FWPHAR2205	Conduct mobile splitting operations
FWPHAR2208	Operate a mobile chipper/mulcher
FWPHAR2209	Trim and cut harvested trees
FWPHAR3202	Monitor log recovery (rigging slinger)
FWPHAR3203	Operate a heavy production mobile chipper
FWPHAR3204	Operate split flail and wood chipper fed by mobile machine
FWPHAR3205	Harvest trees manually (intermediate)
FWPHAR3209	Harvest trees manually (advanced)
FWPHAR3210	Conduct mechanical processor operations
FWPHAR3212	Operate yarder
FWPHAR3213	Conduct mechanically assisted tree falling operations
FWPHAR3222	Use on-board computer systems for forwarder
FWPHAR3223	Use on-board computer systems for single grip harvester
FWPHAR3224	Operate crawler tractor
FWPHAR3225	Operate excavator with log grapple
FWPHAR3226	Operate feller buncher
FWPHAR3227	Operate forwarder
FWPHAR3228	Operate loader
FWPHAR3229	Operate single grip harvester
FWPHAR3230	Operate skidder
FWPHAR3232	Operate harvesting machine with winch-assist system
FWPHAR3233	Use mechanised equipment for forestry site preparation on steep slopes
FWPHAR4201	Apply tree jacking techniques
FWPHAR4202	Coordinate log recovery (hook tender)
FWPHAR4203	Design log landings and snig tracks
FWPHAR4204	Plan and coordinate fire salvage operations
FWPHAR4205	Implement harvesting plans
FWPHAR5201	Design harvesting plans
FWPSAW2201	Grade round poles and debarked logs
FWPSAW2202	Sort boards manually

<i>FWP Forest and Wood Products Training Package Version 6.0</i> Units of Competency	
Code	Title
FWPSAW2203	Sort boards mechanically
FWPSAW2204	Dock boards with mechanical feed
FWPSAW2206	De-stack seasoning racks
FWPSAW2208	Split wood products
FWPSAW2209	Dismantle, transport and assemble hand portable sawmill
FWPSAW2210	Prepare for timber treatment operations
FWPSAW2211	Round softwood logs
FWPSAW2212	Assemble materials using nail plates
FWPSAW3205	Dry hardwood
FWPSAW3206	Dry softwood
FWPSAW3215	Screen wood chips
FWPSAW3216	Transfer wood chips
FWPSAW3223	Assess wood chips
FWPSAW3224	Coordinate and monitor the wood chip stockpile
FWPSAW3229	Operate a portable sawmill
FWPSAW3230	Perform primary log breakdown
FWPSAW3231	Perform secondary log breakdown
FWPSAW3232	Sharpen band saw blades
FWPSAW3233	Sharpen circular saw blades
FWPSAW3234	File and set saw blades for hand saws and circular saws
FWPSAW3235	Recondition saw guides
FWPSAW3236	Sharpen tipped circular saw blades
FWPSAW3237	Level and tension circular saw blades
FWPSAW3238	Replace Stellite tips
FWPSAW3239	Assess and maintain wide band saw blades
FWPSAW3240	Assess and maintain band saw wheels
FWPSAW3241	Set up and operate production saws used in sawmill operations
FWPSAW3242	Treat timber
FWPSAW3243	Produce sawn green boards
FWPSAW3244	Align sawing production systems
FWPSAW3245	Join band saw blades
FWPSAW3246	Hard face saw teeth
FWPSAW3247	Replace tungsten tips
FWPSAW3248	Profile saw blanks
FWPSAW3249	Saw logs using CNC optimising systems

<i>FWP Forest and Wood Products Training Package Version 6.0</i> Units of Competency	
Code	Title
FWPSAW3250	Select and saw logs in multi-species operations
FWPSAW3251	Apply principles of blade design to sawing procedures
FWPSAW4201	Plan and monitor timber treatment plant operations
FWPSAW4202	Plan and monitor saw log operations
FWPSAW4203	Coordinate timber drying operations
FWPSAW4205	Plan and monitor timber conversion
FWPSAW4206	Monitor output timber for optimum volume and value recovery
FWPSAW4207	Optimise timber production for volume and value recovery
FWPTMM2204	Machine material
FWPTMM2205	Cut material to length and angles
FWPTMM3208	Apply critical workplace processes in the manufacture of prefabricated timber building systems
FWPTMM3209	Install prefabricated timber building systems on-site
FWPTMM3210	Convert timber
FWPTMM3211	Manufacture using joinery machines
FWPTMM3212	Estimate and cost job
FWPTMM3213	Read and interpret timber truss, floor and/or frame fabrication plans
FWPTMM3214	Assemble timber floor trusses
FWPTMM3215	Work effectively in the timber systems design industry
FWPTMM4203	Install and commission CNC software
FWPTMM4204	Sample and test products to specifications
FWPTMM4208	Construct prototypes and samples for timber structures
FWPTMM4209	Interpret details of timber roof trusses to inform design of plans and production documents
FWPTMM4210	Interpret details of timber floor systems to inform design of plans and production documents
FWPTMM4211	Interpret details of timber wall frames to inform design of plans and production documents
FWPTMM4212	Calculate production costs
FWPTMM5202	Develop, trial and evaluate prototypes
FWPTMM5203	Generate and transfer complex computer-aided drawings and specifications
FWPTMM5205	Optimise CNC operations
FWPTMM5206	Plan production
FWPTMM5207	Assess timber product designs for feasibility
FWPTMM5208	Manage timber product design
FWPTMM5209	Determine prefabricated timber building systems designs for compliance, manufacture and installation

<i>FWP Forest and Wood Products Training Package Version 6.0</i> Units of Competency	
Code	Title
FWPTMM5210	Verify compliance and conformance of prefabricated timber building systems during manufacture
FWPWPP2202	Surface treat raw board
FWPWPP2203	Repair veneer and ply
FWPWPP2204	Repair veneer mechanically
FWPWPP2205	Prepare chip or fibre blends
FWPWPP2206	Prepare veneer for ply
FWPWPP2207	Scarf edges of veneer
FWPWPP2208	Cut veneer
FWPWPP2209	Saw products from continuous ply
FWPWPP2211	Move material by transfer equipment
FWPWPP2212	Cut panels to profile
FWPWPP2213	Cut panels
FWPWPP3201	Produce veneer from debarked logs
FWPWPP3202	Paint panels
FWPWPP3203	Produce fibre from chips
FWPWPP3204	Form board
FWPWPP3205	Match and join veneer
FWPWPP3207	Clip veneer
FWPWPP3208	Punch peg holes in panels
FWPWPP3209	Prepare resin and additives
FWPWPP3211	Maintain caul plates and screens
FWPWPP3212	Dry material
FWPWPP3213	Heat treat material
FWPWPP3214	Treat paper
FWPWPP3215	Cut paper
FWPWPP3216	Press material using the daylight process
FWPWPP3217	Process production effluent
FWPWPP3218	Plan and coordinate machining of panels
FWPWPP3219	Blend and test binding mixes
FWPWPP3220	Plan and coordinate panel painting
FWPWPP3222	Press laminated ply
FWPWPP3223	Immunise veneer
FWPWPP3224	Profile sand products
FWPWPP3225	Produce profile sanding shoes and wheels

<i>FWP Forest and Wood Products Training Package Version 6.0</i> Units of Competency	
Code	Title
FWPWPP3227	Vacuum paint
FWPWPP3228	Dry Wood Flakes
FWPWPP3229	Classify flake
FWPWPP3230	Produce decorative veneers
FWPWPP3231	Produce veneer from prepared flitches
FWPWPP3232	Operate a heat roll bonding machine to laminate or veneer engineered wood panel surfaces
FWPWPP3233	Operate a laminating press for engineered wood panels
FWPWPP3234	Operate a continuous press for the production of engineered wood panels
FWPWPP3235	Trim new engineered wood panels to size
FWPWPP4202	Perform laboratory testing
FWPWPP4203	Plan and coordinate engineered wood panel production

Imported units of competency

FWP Forest and Wood Products Training Package Version 6.0 Imported Units of Competency		
Code	Title	Source Training Package
AHCARB206	Operate and maintain stump grinding machines	AHC Agriculture, Horticulture and Conservation and Land Management
AHCARB307	Use advanced climbing techniques	AHC Agriculture, Horticulture and Conservation and Land Management
AHCARB312	Use standard climbing techniques to access trees	AHC Agriculture, Horticulture and Conservation and Land Management
AHCBUS502	Market products and services	AHC Agriculture, Horticulture and Conservation and Land Management
AHCCHM201	Apply chemicals under supervision	AHC Agriculture, Horticulture and Conservation and Land Management
AHCCHM303	Prepare and apply chemicals	AHC Agriculture, Horticulture and Conservation and Land Management
AHCCHM304	Transport and store chemicals	AHC Agriculture, Horticulture and Conservation and Land Management
AHCCHM307	Prepare and apply chemicals to control pest, weeds and diseases	AHC Agriculture, Horticulture and Conservation and Land Management
AHCCHM401	Develop procedures to minimise risks in the use of chemicals	AHC Agriculture, Horticulture and Conservation and Land Management
AHCCHM402A	Plan and implement a chemical use program	AHC Agriculture, Horticulture and Conservation and Land Management 10
AHCFIR201	Assist with prescribed burning	AHC Agriculture, Horticulture and Conservation and Land Management
AHCILM201	Maintain cultural places	AHC Agriculture, Horticulture and Conservation and Land Management
AHCILM201A	Maintain cultural places	AHC Agriculture, Horticulture and Conservation and Land Management
AHCILM401A	Protect places of cultural significance	AHC Agriculture, Horticulture and Conservation and Land Management 10
AHCINF202	Install, maintain and repair farm fencing	AHC Agriculture, Horticulture and Conservation and Land Management

FWP Forest and Wood Products Training Package Version 6.0 Imported Units of Competency		
AHCINF203	Maintain properties and structures	AHC Agriculture, Horticulture and Conservation and Land Management
AHCINF303	Plan and construct conventional fencing	AHC Agriculture, Horticulture and Conservation and Land Management
AHCIRG338	Troubleshoot irrigation systems	AHC Agriculture, Horticulture and Conservation and Land Management
AHCIRG345	Install, maintain and repair farm fencing	AHC Agriculture, Horticulture and Conservation and Land Management
AHCIRG347	Maintain pressurised irrigation systems	AHC Agriculture, Horticulture and Conservation and Land Management
AHCIRG406A	Plan on-site irrigation system installation and construction work	AHC Agriculture, Horticulture and Conservation and Land Management 10
AHCIRG503	Design irrigation, drainage and water treatment systems	AHC Agriculture, Horticulture and Conservation and Land Management
AHCLSC302	Construct landscape features using concrete	AHC Agriculture, Horticulture and Conservation and Land Management
AHCLSC304	Erect timber structures and features	AHC Agriculture, Horticulture and Conservation and Land Management
AHCMOM207	Conduct front-end loader operations	AHC Agriculture, Horticulture and Conservation and Land Management
AHCMOM301	Coordinate machinery and equipment maintenance and repair	AHC Agriculture, Horticulture and Conservation and Land Management
AHCMOM402	Supervise maintenance of property, machinery and equipment	AHC Agriculture, Horticulture and Conservation and Land Management
AHCMOM402A	Supervise maintenance of property machinery and equipment	AHC Agriculture, Horticulture and Conservation and Land Management 10
AHCNAR303	Implement revegetation works	AHC Agriculture, Horticulture and Conservation and Land Management
AHCNAR402A	Plan the implementation of revegetation works	AHC Agriculture, Horticulture and Conservation and Land Management 10
AHCNSY201	Pot up plants	AHC Agriculture, Horticulture and Conservation and Land Management

<i>FWP Forest and Wood Products Training Package Version 6.0</i> Imported Units of Competency		
AHCNSY202	Care for nursery plants	AHC Agriculture, Horticulture and Conservation and Land Management
AHCNSY203	Undertake propagation activities	AHC Agriculture, Horticulture and Conservation and Land Management
AHCNSY301	Maintain nursery plants	AHC Agriculture, Horticulture and Conservation and Land Management
AHCNSY302	Receive and dispatch nursery products	AHC Agriculture, Horticulture and Conservation and Land Management
AHCNSY306	Implement a propagation plan	AHC Agriculture, Horticulture and Conservation and Land Management
AHCNSY401	Plan a growing-on program	AHC Agriculture, Horticulture and Conservation and Land Management
AHCNSY402	Plan a propagation program	AHC Agriculture, Horticulture and Conservation and Land Management
AHCNSY402A	Plan a propagation program	AHC Agriculture, Horticulture and Conservation and Land Management
AHCPGD402	Plan a plant establishment program	AHC Agriculture, Horticulture and Conservation and Land Management
AHCPHT503	Manage a controlled growing environment	AHC Agriculture, Horticulture and Conservation and Land Management
AHCPMG201	Treat weeds	AHC Agriculture, Horticulture and Conservation and Land Management
AHCPMG202	Treat plant pests, diseases and disorders	AHC Agriculture, Horticulture and Conservation and Land Management
AHCPMG301	Control weeds	AHC Agriculture, Horticulture and Conservation and Land Management
AHCPMG302	Control plant pests, diseases and disorders	AHC Agriculture, Horticulture and Conservation and Land Management
AHCPMG309	Apply pest animal control techniques	AHC Agriculture, Horticulture and Conservation and Land Management
AHCPMG402A	Develop a pest management action plan within a local area	AHC Agriculture, Horticulture and Conservation and Land Management 10

FWP Forest and Wood Products Training Package Version 6.0 Imported Units of Competency		
AHCPMG507	Develop a regional pest management plan	AHC Agriculture, Horticulture and Conservation and Land Management
AHCSAW201	Conduct erosion and sediment control activities	AHC Agriculture, Horticulture and Conservation and Land Management
AHCSAW302	Implement erosion and sediment control measures	AHC Agriculture, Horticulture and Conservation and Land Management
AHCSAW302A	Implement erosion and sediment control measures	AHC Agriculture, Horticulture and Conservation and Land Management
AHCWAT502	Manage water systems	AHC Agriculture, Horticulture and Conservation and Land Management
AHCWRK201	Observe and report on weather	AHC Agriculture, Horticulture and Conservation and Land Management
AHCWRK203	Operate in isolated and remote situations	AHC Agriculture, Horticulture and Conservation and Land Management
AHCWRK302	Monitor weather conditions	AHC Agriculture, Horticulture and Conservation and Land Management
AHCWRK304	Respond to rescue incidents	AHC Agriculture, Horticulture and Conservation and Land Management
AHCWRK312	Operate in isolated and remote situations	AHC Agriculture, Horticulture and Conservation and Land Management
AHCWRK505	Manage trial and research material	AHC Agriculture, Horticulture and Conservation and Land Management
ACHWRK509	Provide specialist advice to clients	AHC Agriculture, Horticulture and Conservation and Land Management
AURTGA001	Drive and manoeuvre trailers	AUR Automotive Retail, Service and Repair Training Package
BSBADM311	Maintain business resources	BSB Business Services Training Package
BSBAUD501	Initiate a quality audit	BSB Business Services Training Package
BSBCMM301	Process customer complaints	BSB Business Services Training Package
BSBCMM401	Make a presentation	BSB Business Services Training Package

<i>FWP Forest and Wood Products Training Package Version 6.0</i> Imported Units of Competency		
BSBCMM402	Implement effective communication strategies	BSB Business Services Training Package
BSBCRT402	Collaborate in a creative process	BSB Business Services Training Package
BSBCUE203	Conduct customer engagement	BSB Business Services Training Package
BSBCUE301	Use multiple information systems	BSB Business Services Training Package
BSBCUE305	Process credit applications	BSB Business Services Training Package
BSBCUE306	Process complex accounts	BSB Business Services Training Package
BSBCUE307	Work effectively in customer engagement	BSB Business Services Training Package
BSBCUE309	Develop product and service knowledge for customer engagement operation	BSB Business Services Training Package
BSBCUS301	Deliver and monitor a service to customers	BSB Business Services Training Package
BSBCUS401	Coordinate implementation of customer service strategies	BSB Business Services Training Package
BSBCUS402	Address customer needs	BSB Business Services Training Package
BSBCUS501	Manage quality customer service	BSB Business Services Training Package
BSBFIA301	Maintain financial records	BSB Business Services Training Package
BSBFIM501	Manage budgets and financial plans	BSB Business Services Training Package
BSBFIM801	Manage financial resources	BSB Business Services Training Package
BSBFLM303	Contribute to effective workplace relationships	BSB Business Services Training Package
BSBFLM305	Support operational plan	BSB Business Services Training Package
BSBFLM312	Contribute to team effectiveness	BSB Business Services Training Package
BSBINM201	Process and maintain workplace information	BSB Business Services Training Package
BSBINM301	Organise workplace information	BSB Business Services Training Package
BSBINM401	Implement workplace information system	BSB Business Services Training Package
BSBINM501	Manage an information or knowledge management system	BSB Business Services Training Package

<i>FWP Forest and Wood Products Training Package Version 6.0</i> Imported Units of Competency		
BSBINN201	Contribute to workplace innovation	BSB Business Services Training Package
BSBINN501	Establish systems that support innovation	BSB Business Services Training Package
BSBINN502	Build and sustain an innovative work environment	BSB Business Services Training Package
BSBINN601	Lead and manage organisational change	BSB Business Services Training Package
BSBITS401	Maintain business technology	BSB Business Services Training Package
BSBITS411	Maintain and implement digital technology	BSB Business Services Training Package
BSBITU211	Produce digital text documents	BSB Business Services Training Package
BSBITU306	Design and produce business documents	BSB Business Services Training Package
BSBLDR402	Lead effective workplace relationships	BSB Business Services Training Package
BSBLDR403	Lead team effectiveness	BSB Business Services Training Package
BSBLDR803	Develop and cultivate collaborative partnerships and relationships	BSB Business Services Training Package
BSBLED401	Develop teams and individuals	BSB Business Services Training Package
BSBLED501	Develop a workplace learning environment	BSB Business Services Training Package
BSBMGT402	Implement operational plan	BSB Business Services Training Package
BSBMGT403	Implement continuous improvement	BSB Business Services Training Package
BSBMGT502	Manage people performance	BSB Business Services Training Package
BSBMGT516	Facilitate continuous improvement	BSB Business Services Training Package
BSBMGT517	Manage operational plan	BSB Business Services Training Package
BSBMGT616	Develop and implement strategic plans	BSB Business Services Training Package
BSBMKG501	Identify and evaluate marketing opportunities	BSB Business Services Training Package
BSBPMG415	Apply project risk management techniques	BSB Business Services Training Package
BSBPMG416	Apply project procurement procedures	BSB Business Services Training Package

<i>FWP Forest and Wood Products Training Package Version 6.0</i> Imported Units of Competency		
BSBPMG522	Undertake project work	BSB Business Services Training Package
BSBRES401	Analyse and present research information	BSB Business Services Training Package
BSBRES411	Analyse and present research information	BSB Business Services Training Package
BSBRES801	Initiate and lead applied research	BSB Business Services Training Package
BSBRSK401	Identify risk and apply risk management processes	BSB Business Services Training Package
BSBRSK501	Manage risk	BSB Business Services Training Package
BSBSMB404	Undertake small business planning	BSB Business Services Training Package
BSBSMB421	Manage small business finances	BSB Business Services Training Package
BSBSUS501	Develop workplace policy and procedures for sustainability	BSB Business Services Training Package
BSBWHS503	Contribute to the systematic management of WHS risk	BSB Business Services Training Package
BSBWOR204	Use business technology	BSB Business Services Training Package
BSBWOR301	Organise personal work priorities and development	BSB Business Services Training Package
BSBWOR501	Manage personal work priorities and professional development	BSB Business Services Training Package
BSBWOR502	Lead and manage team effectiveness	BSB Business Services Training Package
BSBWRK506A	Coordinate research and analysis	BSB Business Services Training Package
BSBWRT401	Write complex documents	BSB Business Services Training Package
BSBXTW301	Work in a team	BSB Business Services Training Package
CPCCBBC4001A	Apply building codes and standards to the construction process for low rise building projects	CPC08 Construction, Plumbing and Services Training Package
CPCCBBC4004A	Identify and produce estimated costs for building and construction projects	CPC08 Construction, Plumbing and Services Training Package
CPCCBBC4005A	Produce labour and material schedules for ordering	CPC08 Construction, Plumbing and Services Training Package

<i>FWP Forest and Wood Products Training Package Version 6.0</i> Imported Units of Competency		
CPCCBBC4014A	Prepare simple building sketches and drawings	CPC08 Construction, Plumbing and Services Training Package
CPCCBBC4024A	Resolve business disputes	CPC08 Construction, Plumbing and Services Training Package
CPCCCA2011A	Handle carpentry materials	CPC08 Construction, Plumbing and Services Training Package
CPCCCA3006B	Erect roof trusses	CPC08 Construction, Plumbing and Services Training Package
CPCCCM1015	Carry out measurements and calculations	CPC Construction, Plumbing and Services Training Package
CPCCCM2001	Read and interpret plans and specifications	CPC Construction, Plumbing and Services Training Package
CPCCLDG3001A	Licence to perform dogging	CPC08 Construction, Plumbing and Services Training Package
CPCCOHS2001A	Apply OHS requirements, policies and procedures in the construction industry	CPC08 Construction, Plumbing and Services Training Package
CPCCSV5010A	Interact with clients in a regulated environment	CPC08 Construction, Plumbing and Services Training Package
CPCCSV5011A	Apply building codes and standards to residential buildings	CPC08 Construction, Plumbing and Services Training Package
CPCCSV5012A	Assess timber-framed designs for one and two storey buildings	CPC08 Construction, Plumbing and Services Training Package
CPCCSV5015A	Assess structural requirements for domestic scale buildings	CPC08 Construction, Plumbing and Services Training Package
CPCSUS4001A	Implement and monitor environmentally sustainable work practices	CPC08 Construction, Plumbing and Services Training Package
CPPCMN4008	Read plans, drawings and specifications for residential buildings	CPP Property Services Training Package
CPPBDN5001A	Research construction materials and methods for small-scale residential building design	CPP07 Property Services Training Package
CPPSEC1002A	Apply retail security procedures	CPP07 Property Services Training Package

FWP Forest and Wood Products Training Package Version 6.0 Imported Units of Competency		
CPPSEC3102	Maintain operational safety and security of work environment	CPP07 Property Services Training Package
CUADES403	Research and apply techniques in spatial design	CUA Creative Arts and Culture Training Package
FSKLRG011	Use routine strategies for work-related learning	FSK Foundation Skills Training Package
HLTAID003	Provide first aid	HLT Health
HLTAID005	Provide first aid in remote situations	HLT Health
HLTAID006	Provide advanced first aid	HLT Health
HLTAID008	Manage first aid services and resources	HLT Health
ICTICT308	Use advanced features of computer applications	ICT Information and Communications Technology
ICTSUS804	Use ICT to improve sustainability outcomes	ICT Information and Communications Technology
LGACOM401A	Administer contracts	LGA04 Local Government Training Package
LGACOM409A	Prepare tender documentation	LGA04 Local Government Training Package
LGACOM502B	Devise and conduct community consultations	LGA04 Local Government Training Package
LGAPLEM404A	Prepare and present geographic information systems data	LGA04 Local Government Training Package
LGAPLEM612B	Protect heritage and cultural assets	LGA04 Local Government Training Package
LGAWORK212A	Perform field support duties in a roadwork environment	LGA04 Local Government Training Package
MEM05006	Perform brazing and/or silver soldering	MEM Manufacturing and Engineering Training Package
MEM05049	Perform routine gas tungsten arc welding	MEM Manufacturing and Engineering Training Package
MEM05050	Perform routine gas metal arc welding	MEM Manufacturing and Engineering Training Package
MEM09002	Interpret technical drawing	MEM Manufacturing and Engineering Training Package
MEM11011	Undertake manual handling	MEM Manufacturing and Engineering Training Package
MEM12023	Perform engineering measurements	MEM Manufacturing and Engineering Training Package

<i>FWP Forest and Wood Products Training Package Version 6.0</i> Imported Units of Competency		
MEM12024	Perform computations	MEM Manufacturing and Engineering Training Package
MEM13003	Work safely with industrial chemicals and materials	MEM Manufacturing and Engineering Training Package
MEM13015	Work safely and effectively in manufacturing and engineering	MEM Manufacturing and Engineering Training Package
MEM14006	Plan work activities	MEM Manufacturing and Engineering Training Package
MEM16006	Organise and communicate information	MEM Manufacturing and Engineering Training Package
MEM18001	Use hand tools	MEM Manufacturing and Engineering Training Package
MEM18002	Use power tools/hand held operations	MEM Manufacturing and Engineering Training Package
MEM18003	Use tools for precision work	MEM Manufacturing and Engineering Training Package
MEM18006	Perform precision fitting of engineering components	MEM Manufacturing and Engineering Training Package
MEM18011	Shut down and isolate machines/equipment	MEM Manufacturing and Engineering Training Package
MEM18018	Maintain pneumatic system components	MEM Manufacturing and Engineering Training Package
MEM18019	Maintain pneumatic systems	MEM Manufacturing and Engineering Training Package
MEM18020	Maintain hydraulic system components	MEM Manufacturing and Engineering Training Package
MEM18021	Maintain hydraulic systems	MEM Manufacturing and Engineering Training Package
MEM18055	Dismantle, replace and assemble engineering components	MEM Manufacturing and Engineering Training Package
MEM18071	Connect and disconnect fluid conveying system components	MEM Manufacturing and Engineering Training Package

<i>FWP Forest and Wood Products Training Package Version 6.0</i> Imported Units of Competency		
MEM30021A	Prepare a simple production schedule	MEM05 Metal and Engineering Training Package
MSFFM3012	Set up, operate and maintain sawing machines	MSF Furnishing Training Package
MSFFM3017	Set up, operate and maintain routing and shaping machine	MSF Furnishing Training Package
MSFGG2011	Glaze and reglaze residential windows and doors	MSF Furnishing Training Package
MSMENV672	Develop workplace policy and procedures for environmental sustainability	MSM Manufacturing Training Package
MSMPCI102	Apply effective workplace practices	MSM Manufacturing Training Package
MSMSUP200	Achieve work outcomes	MSM Manufacturing Training Package
MSMSUP390	Use structured problem-solving tools	MSM Manufacturing Training Package
MSMSUP404	Coordinate maintenance	MSM Manufacturing Training Package
MSS015002A	Develop strategies for more sustainable use of resources	MSS Sustainability Training Package
MSS015011	Conduct a sustainability energy audit	MSS Sustainability Training Package
MSS015011A	Conduct a sustainability energy audit	MSS Sustainability Training Package
MSS015022	Develop strategies for more sustainable use of resources	MSS Sustainability Training Package
MSS015023	Design sustainable product or process	MSS Sustainability Training Package
MSS402001	Apply competitive systems and practices	MSS Sustainability Training Package
MSS402001A	Apply competitive systems and practices	MSS Sustainability Training Package
MSS402040	Apply 5S procedures	MSS Sustainability Training Package
MSS402050	Monitor process capability	MSS Sustainability Training Package
MSS402051A	Apply quality standards	MSS Sustainability Training Package
MSS402082	Apply cost factors to work practices	MSS Sustainability Training Package
MSS402083	Use planning software systems in operations	MSS Sustainability Training Package

<i>FWP Forest and Wood Products Training Package Version 6.0</i> Imported Units of Competency		
MSS403001	Review competitive systems and practices	MSS Sustainability Training Package
MSS403010	Facilitate change in an organisation implementing competitive systems and practices	MSS Sustainability Training Package
MSS403032	Analyse manual handling processes	MSS Sustainability Training Package
MSS403087	Mistake proof an operational process	MSS Sustainability Training Package
MSS404054	Apply statistics to operational processes	MSS Sustainability Training Package
MSS404060	Facilitate the use of planning software systems in a work area or team	MSS Sustainability Training Package
MSS404082	Assist in implementing a proactive maintenance strategy	MSS Sustainability Training Package
MSS404084	Undertake process capability improvements	MSS Sustainability Training Package
MSS405001	Develop competitive systems and practices for an organisation	MSS Sustainability Training Package
MSS405004	Develop business plans in an organisation implementing competitive systems and practices	MSS Sustainability Training Package
MSS405030	Optimise cost of a product or service	MSS Sustainability Training Package
MSS405031	Undertake value analysis of product or process costs in terms of customer requirements	MSS Sustainability Training Package
MSS405070A	Develop and manage sustainable energy practices	MSS Sustainability Training Package
MSS405075	Facilitate the development of a new product	MSS Sustainability Training Package
MSS405085	Develop a documentation control strategy for an organisation	MSS Sustainability Training Package
MSS405086	Develop sustainable energy practices	MSS Sustainability Training Package
PSPGEN062	Collect statistical data	PSP Public Sector Training Package
PSPGOV521A	Collect statistical data	PSP Public Sector Training Package
PSPPCY010	Manage policy implementation	PSP Public Sector Training Package
PSPREG029	Manage and lead inspection and monitoring programs	PSP Public Sector Training Package
PUACOM012B	Liaise with media at a local level	PUA12 Public Safety Training Package

<i>FWP Forest and Wood Products Training Package Version 6.0</i> Imported Units of Competency		
PUAEQU001	Prepare, maintain and test response equipment	PUA Public Safety Training Package
PUAFIR204	Respond to wildfire	PUA Public Safety Training Package
PUAFIR209	Work safely around aircraft	PUA Public Safety Training Package
PUAFIR215	Prevent injury	PUA Public Safety Training Package
PUAFIR303	Suppress wildfire	PUA Public Safety Training Package
PUAFIR309	Operate pumps	PUA Public Safety Training Package
PUAFIR402	Conduct simple prescribed burns	PUA Public Safety Training Package
PUAFIR406	Develop simple prescribed burn plans	PUA12 Public Safety Training Package
PUAFIR501B	Conduct fire investigation and analysis activities	PUA12 Public Safety Training Package
PUAFIR509B	Implement prevention strategies	PUA12 Public Safety Training Package
PUAFIR506	Conduct complex prescribed burns	PUA12 Public Safety Training Package
PUAFIR515	Develop complex prescribed burn plans	PUA12 Public Safety Training Package
PUALAW001	Protect and preserve incident scene	PUA Public Safety Training Package
PUALAW001B	Protect and preserve incident scene	PUA12 Public Safety Training Package
PUALAW002	Conduct initial investigation at incident scene	PUA Public Safety Training Package
PUAOKS002	Maintain safety at an incident scene	PUA12 Public Safety Training Package
PUAOPE007B	Command agency personnel within a multi-agency emergency response	PUA12 Public Safety Training Package
PUAOPE013	Operate communications systems and equipment	PUA Public Safety Training Package
PUAOPE016A	Manage a multi-team sector	PUA12 Public Safety Training Package
PUATEA001	Work in a team	PUA Public Safety Training Package
PUATEA001B	Work in a team	PUA12 Public Safety Training Package
PUATEA002	Work autonomously	PUA Public Safety Training Package

FWP Forest and Wood Products Training Package Version 6.0 Imported Units of Competency		
RIIHAN308F	Load and unload plant	RII Resources and Infrastructure Industry Training Package
RIIMPO315E	Conduct tractor operations	RII Resources and Infrastructure Industry Training Package
RIIMPO317F	Conduct roller operations	RII Resources and Infrastructure Industry Training Package
RIIMPO318F	Conduct civil construction skid steer loader operations	RII Resources and Infrastructure Industry Training Package
RIIMPO319F	Conduct backhoe/loader operations	RII Resources and Infrastructure Industry Training Package
RIIMPO320F	Conduct civil construction excavator operations	RII Resources and Infrastructure Industry Training Package
RIIMPO321F	Conduct civil construction wheeled front end loader operations	RII Resources and Infrastructure Industry Training Package
RIIMPO321E	Conduct civil construction wheeled front end loader operations	RII Resources and Infrastructure Industry Training Package
RIIMPO322E	Conduct civil construction tracked front end loader operations	RII Resources and Infrastructure Industry Training Package
RIIMPO323D	Conduct civil construction dozer operations	RII Resources and Infrastructure Industry Training Package
RIIMPO324F	Conduct civil construction grader operations	RII Resources and Infrastructure Industry Training Package
RIIVEH304E	Conduct tip truck operations	RII Resources and Infrastructure Industry Training Package
RIIWH3205E	Control traffic with stop-slow bat	RII Resources and Infrastructure Industry Training Package
SIRRINV002	Control stock	SIR Retail Services Training Package
SIRRMER003	Coordinate visual merchandising activities	SIR Retail Services Training Package
SIRRRPK214	Recommend specialised products and services	SIR Retail Services Training Package
SIRRRTF001	Balance and secure point-of-sale terminal	SIR Retail Services Training Package

<i>FWP Forest and Wood Products Training Package Version 6.0</i> Imported Units of Competency		
SIRWINV302	Monitor inventory capacity to meet demand	SIR Retail Services Training Package
SIRWSLS301	Process product and service data	SIR Retail Services Training Package
SIRWSLS301	Build sales relationships	SIR Retail Services Training Package
SIRXADM001A	Apply retail office procedures	SIR Retail Services Training Package
SIRXCCS201	Apply point-of-sale handling procedures	SIR Retail Services Training Package
SIRXCCS202	Interact with customers	SIR Retail Services Training Package
SIRXCEG001	Engage the customer	SIR Retail Services Training Package
SIRXCEG003	Build customer relationships and loyalty	SIR Retail Services Training Package
SIRXCEG005	Maintain business to business relationships	SIR Retail Services Training Package
SIRXFIN002A	Perform retail finance duties	SIR Retail Services Training Package
SIRXFIN003A	Produce financial reports	SIR Retail Services Training Package
SIRXFIN201	Balance and secure point-of-sale terminal	SIR Retail Services Training Package
SIRXICT001A	Operate retail technology	SIR Retail Services Training Package
SIRXICT303	Operate retail information technology systems	SIR Retail Services Training Package
SIRXINV001	Receive and handle retail stock	SIR Retail Services Training Package
SIRXMER201	Merchandise products	SIR Retail Services Training Package
SIRXMER202	Plan, create and maintain displays	SIR Retail Services Training Package
SIRXMER303	Coordinate merchandise presentation	SIR Retail Services Training Package
SIRXMER406	Monitor in-store visual merchandising display	SIR Retail Services Training Package
SIRXQUA001A	Develop innovative ideas at work	SIR Retail Services Training Package
SIRXRSK001	Identify and respond to security risks	SIR Retail Services Training Package
SIRXSLS001	Sell to the retail customer	SIR Retail Services Training Package

<i>FWP Forest and Wood Products Training Package Version 6.0</i> Imported Units of Competency		
SIRXSLS002	Follow point-of-sale procedures	SIR Retail Services Training Package
SIRXSLS003	Achieve sales results	SIR Retail Services Training Package
SIRXSLS201	Sell products and services	SIR Retail Services Training Package
SIRXSLS303	Build relationships with customers	SIR Retail Services Training Package
SITTPPD402	Develop interpretive activities	SIT12 Tourism, Travel and Hospitality Training Package
SITXCCS008	Develop and manage quality customer service practices	SIT Tourism, Travel and Hospitality Training Package
TAEASS401	Plan assessment activities and processes	TAE Training and Education Training Package
TAEASS402	Assess competence	TAE Training and Education Training Package
TAEASS403	Participate in assessment validation	TAE Training and Education Training Package
TAEDEL301	Provide work skill instruction	TAE Training and Education Training Package
TAEDEL401	Plan, organise and deliver group-based learning	TAE Training and Education Training Package
TAEDEL402	Plan, organise and facilitate learning in the workplace	TAE Training and Education Training Package
TAEDES401	Design and develop learning programs	TAE Training and Education Training Package
TAEDES402	Use training packages and accredited courses to meet client needs	TAE Training and Education Training Package
TLIA2012	Pick and process orders	TLI Transport and Logistics Training Package
TLIA3015	Complete receipt/despatch documentation	TLI Transport and Logistics Training Package
TLIA3016	Use inventory systems to organise stock control	TLI Transport and Logistics Training Package
TLIA3018	Organise despatch operations	TLI Transport and Logistics Training Package
TLIA2020	Replenish stock	TLI Transport and Logistics Training Package
TLIA2021	Despatch stock	
TLIA3038	Control and order stock	TLI Transport and Logistics Training Package
TLIA3039	Receive and store stock	TLI Transport and Logistics Training Package

<i>FWP Forest and Wood Products Training Package Version 6.0</i> Imported Units of Competency		
TLILIC0002	Licence to operate a vehicle loading crane (capacity 10 metre tonnes and above)	TLI Transport and Logistics Training Package
TLICLIC0003	Licence to operate a forklift truck	TLI Transport and Logistics Training Package
TLILIC2014	Licence to drive a light rigid vehicle	TLI Transport and Logistics Training Package
TLILIC2015	Licence to drive a medium rigid vehicle	TLI Transport and Logistics Training Package
TLIC2002	Drive light rigid vehicle	TLI Transport and Logistics Training Package
TLIC3003	Drive medium rigid vehicle	TLI Transport and Logistics Training Package
TLIC3004	Drive heavy rigid vehicle	TLI Transport and Logistics Training Package
TLIC3005	Drive heavy combination vehicle	TLI Transport and Logistics Training Package
TLIC3063	Operate vehicle carrying special loads	TLI Transport and Logistics Training Package
TLIC4006	Drive multi-combination vehicle	TLI Transport and Logistics Training Package
TLID0001	Load and unload vehicles carrying special loads	TLI Transport and Logistics Training Package
TLID1001	Shift materials safely using manual handling methods	TLI Transport and Logistics Training Package
TLID2004	Load and unload goods/cargo	TLI Transport and Logistics Training Package
TLID2010	Operate a forklift	TLI Transport and Logistics Training Package
TLID2012	Operate specialised load shifting equipment	TLI Transport and Logistics Training Package
TLID2013	Move materials mechanically using automated equipment	TLI Transport and Logistics Training Package
TLID2047	Prepare cargo for transfer with slings	TLI Transport and Logistics Training Package
TLID3011	Conduct specialised forklift operations	TLI Transport and Logistics Training Package
TLID0001	Load and unload vehicles carrying special loads	TLI Transport and Logistics Training Package
TLID3033	Operate a vehicle-mounted loading crane	TLI Transport and Logistics Training Package
TLID3035	Operate a boom type elevating work platform	TLI Transport and Logistics Training Package
TLID3036	Lift and move load using a mobile crane	TLI Transport and Logistics Training Package

<i>FWP Forest and Wood Products Training Package Version 6.0</i> Imported Units of Competency		
TLID3043	Shift loads using gantry equipment	TLI Transport and Logistics Training Package
TLID4032	Plan and conduct specialised lift	TLI Transport and Logistics Training Package
TLIE3002	Estimate/calculate mass, area and quantify dimensions	TLI Transport and Logistics Training Package
TLIE4006	Collect, analyse and present workplace data and information	TLI Transport and Logistics Training Package
TLIF0001	Apply chain of responsibility legislation, regulations and workplace procedures	TLI Transport and Logistics Training Package
TLIF1002	Conduct housekeeping activities	TLI Transport and Logistics Training Package
TLIF2010	Apply fatigue management strategies	TLI Transport and Logistics Training Package
TLIF4007	Implement and coordinate accident-emergency procedures	TLI Transport and Logistics Training Package
TLIH2001	Interpret road maps and navigate pre-determined routes	TLI Transport and Logistics Training Package
TLIJ3002	Apply quality system	TLI Transport and Logistics Training Package
TLILIC0003	Licence to operate a forklift truck	TLI Transport and Logistics Training Package
TLILIC2001	Licence to operate a forklift truck	TLI Transport and Logistics Training Package
TLILIC2002	Licence to operate an order picking forklift truck	TLI Transport and Logistics Training Package
TLIR4002	Source goods/services and evaluate contractors	TLI Transport and Logistics Training Package
TLIX9998X	Maintain stock control and receivals	TLI Transport and Logistics Training Package
TLIX999X	Administer inventory systems	TLI Transport and Logistics Training Package

Appendix 2: Mapping information

FWP Forest and Wood Products Training Package Version 6.0 to Version 5.0

Qualifications

Mapping of qualifications from FWP Forest and Wood Products Training Package Version 6.0 to Version 5.0

Code and title (Version 5.0)	Code and title (Version 6.0)	Comments	Equivalence statement
FWP20116 Certificate II in Forest Growing and Management Release 2	FWP20116 Certificate II in Forest Growing and Management Release 3	Updated to include revised units and superseded and deleted imported units	Equivalent
FWP20216 Certificate II in Harvesting and Haulage Release 2	FWP20216 Certificate II in Harvesting and Haulage Release 3	Updated to include revised units and superseded and deleted imported units	Equivalent
FWP20316 Certificate II in Sawmilling and Processing Release 3	FWP20316 Certificate II in Sawmilling and Processing Release 4	Updated to include revised FWP elective units	Equivalent
FWP20416 Certificate II in Wood Panel Products Release 3	FWP20416 Certificate II in Wood Panel Products Release 4	Updated to include revised FWP elective units	Equivalent
FWP20516 Certificate II in Timber Manufactured Products Release 3	FWP20516 Certificate II in Timber Manufactured Products Release 4	Updated to include revised FWP elective units	Equivalent
FWP20616 Certificate II in Timber Merchandising			Deleted
FWP20716 Certificate II in Timber Truss and Frame Design and Manufacture			Deleted
FWP30116 Certificate III in Forest Growing and Management Release 2	FWP30116 Certificate III in Forest Growing and Management Release 3	Updated to include revised units and superseded imported units	Equivalent

Code and title (Version 5.0)	Code and title (Version 6.0)	Comments	Equivalence statement
FWP30216 Certificate III in Harvesting and Haulage Release 2	FWP30216 Certificate III in Harvesting and Haulage Release 3	Updated to include revised and new units as well as superseded imported units	Equivalent
FWP30316 Certificate III in Sawmilling and Processing Release 2	FWP30316 Certificate III in Sawmilling and Processing Release 3	Updated to include revised FWP elective units	Equivalent
FWP30516 Certificate III in Timber Manufactured Products Release 3	FWP30516 Certificate III in Timber Manufactured Products Release 4	Updated to include revised FWP elective units New elective units added	Equivalent
FWP30616 Certificate III in Timber Merchandising	FWP30620 Certificate III in Timber Building Products Supply	Titled changed to reflect industry focus. Number of units, core and elective units changed.	Not Equivalent
FWP30916 Certificate III in Timber Truss and Frame Design and Manufacture	FWP30920 Certificate III in Timber Frame or Truss Manufacture	Titled changed to reflect manufacturing focus. Number of units, core and elective units changed.	Not Equivalent
FWP30916 Certificate III in Timber Truss and Frame Design and Manufacture	FWP31020 Certificate III in Timber Systems Design	Title change to reflect specific outcome of timber system design. Changes to core and listed elective units.	Not Equivalent
FWP31019 Certificate III in Saw Technology Release 1	FWP31019 Certificate III in Saw Technology Release 2	Updated to include revised elective unit	Equivalent
FWP31119 Certificate III in Wood Machining Release 1	FWP31119 Certificate III in Wood Machining Release 2	Updated to include FWP revised elective units	Equivalent
FWP40116 Certificate IV in Forest Operations Release 1	FWP40116 Certificate IV in Forest Operations Release 2	Updated to include revised units and amend superseded and deleted imported units	Equivalent
FWP40216 Certificate IV in Timber Processing Release 3	FWP40216 Certificate IV in Timber Processing Release 4	Updated to include revised units Additional electives added	Equivalent
FWP40316 Certificate IV in			Deleted

Code and title (Version 5.0)	Code and title (Version 6.0)	Comments	Equivalence statement
Timber Truss and Frame Manufacture			
FWP40416 Certificate IV in Timber Truss and Frame Design	FWP40420 Certificate IV in Timber Systems Design	Retitled Removal of entry requirements. Change to number of units for qualification outcome and core and elective units.	Not Equivalent
FWP50216 Diploma of Timber Truss and Frame Manufacture			Deleted
FWP50316 Diploma of Timber Truss and Frame Design			Deleted

Skill sets

Mapping of skill sets from FWP Forest and Wood Products Training Package Version 6.0 to Version 5.0

Code and title (Version 5.0)	Code and title (Version 6.0)	Comments	Equivalence statement
FWPSS00030 (Release 2)	FWPSS00030 (Release 3)	Updated skill set to replace superseded unit FWPCOT2210 Tally material with FWPCOT2260 Tally material	Equivalent
Not applicable	FWPSS00041 Cutting Timber to Length and Angle Skill Set	This skill set has been created to address a specific job task required by industry	Newly created
Not applicable	FWPSS00042 Timber Wall Frame Manufacture Skill Set	This skill set has been created to address a specific job task required by industry	Newly created
Not applicable	FWPSS00043 Timber Roof Truss Manufacture Skill Set	This skill set has been created to address a specific job task required by industry	Newly created
Not applicable	FWPSS00044 Timber Floor Truss Manufacture Skill Set	This skill set has been created to address a specific job task required by industry	Newly created
Not applicable	FWPSS00045 Stacking and Storing Timber Frames and Trusses Skill Set	This skill set has been created to address a specific job task required by industry	Newly created

Units of competency

Mapping of units of competency from FWP Forest and Wood Products Training Package Version 6.0 to Version 5.0

Code and title (Version 5.0)	Code and title (Version 6.0)	Comments	Equivalence statement
Not applicable	FWPCOT3317 Use chainsaw within a tree	This unit has been created to address an emerging skill or task required by industry	Newly created
Not applicable	FWPCOT3318 Access, capture and communicate forestry field data using mobile devices	This unit has been created to address an emerging skill or task required by industry	Newly created
Not applicable	FWPCOT3319 Read and interpret digital maps and forest operation plans	This unit has been created to address an emerging skill or task required by industry	Newly created
Not applicable	FWPHAR3232 Operate harvesting machine with winch-assist system	This unit has been created to address an emerging skill or task required by industry	Newly created
Not applicable	FWPHAR3233 Use mechanised equipment for forestry site preparation on steep slopes	This unit has been created to address an emerging skill or task required by industry	Newly created
Not applicable	FWPTMM3215 Work effectively in the timber systems design industry	This unit has been created to address an emerging skill or task required by industry	Newly created
FWPCOT2201 Stack and bind material	FWPCOT2206 Stack and bind material	Application clarified Performance Criteria re-sequenced and strengthened Foundation Skills and Assessment Requirements updated	Equivalent
FWPCOT2210 Tally material	FWPCOT2260 Tally material	Minor grammatical and editorial changes to Application and Performance Criteria Foundation Skills reviewed Assessment Requirements reviewed and updated	Equivalent
FWPCOT2218 Cross cut materials with a fixed saw	FWPCOT2263 Cross cut materials with a fixed saw	Application and Knowledge Evidence minor changes Element and Performance Criteria updated and sequenced Foundation Skills, Performance Evidence and Assessment Conditions updated	Equivalent
FWPCOT2219 Use hand-held tools	FWPCOT2257 Use hand-held tools	Application wording clarified Element added Performance Criteria,	Equivalent

Code and title (Version 5.0)	Code and title (Version 6.0)	Comments	Equivalence statement
		Foundation Skills and Assessment Requirements reviewed and updated	
FWPCOT2227 Process orders and despatch products	FWPCOT2261 Process orders and prepare for despatch	Retitled Application wording updated Elements and Performance Criteria reworded Foundation Skills, Performance Evidence and Knowledge Evidence updated Assessment Conditions reviewed and updated	Not Equivalent
FWPCOT2228 Store materials	FWPCOT2255 Store materials	Application wording clarified Element added and Performance Criteria re-sequenced Foundation Skills and Assessment Requirements updated	Equivalent
FWPCOT2229 Dock material to length	FWPCOT2234 Dock material to length	Application clarified Performance Criteria, Foundation Skills and Assessment Requirements updated	Equivalent
FWPCOT2230 Assemble products	FWPCOT2258 Assemble projects	Application and Foundation Skills updated and reworded Performance Criteria update and re-sequenced Performance Evidence and Knowledge Evidence updated and reworded Assessment Conditions updated	Equivalent
FWPCOT2232 Cut material to shape using a saw	FWPCOT2262 Cut material to shape using a saw	Rewording of Application and Performance Criteria. Changes to Foundation Skills. Addition of frequency, volume and saw use in Performance Evidence. Addition of Knowledge Evidence to align to Performance Criteria	Equivalent
FWPCOT2235 Assess timber for manufacturing potential	FWPCOT3226 Assess timber for manufacturing potential	Level of skill complexity revised Application clarified Performance Criteria re-sequenced Foundation Skills and Assessment Requirements updated	Equivalent
FWPCOT2236 Fall trees manually (basic)	FWPCOT2253 Fell trees manually (basic)	Changes to Application Updated and added new Performance Criteria	Equivalent

Code and title (Version 5.0)	Code and title (Version 6.0)	Comments	Equivalence statement
		Reworded Elements Updated Foundation Skills, Performance Evidence Knowledge Evidence and Assessment Conditions	
FWPCOT2237 Maintain chainsaws	FWPCOT2254 Maintain chainsaws	Clarified Application Updated and added new Performance Criteria Added new knowledge items Updated Foundation Skills, Performance Evidence and Assessment Conditions	Equivalent
FWPCOT2238 Cut materials with a hand-held chainsaw	FWPCOT2259 Cut materials with a hand-held chainsaw	Application wording updated Element reworded and Performance Criteria reviewed, updated and re- sequenced Foundation Skills and Assessment Requirements reviewed and updated	Equivalent
FWPCOT2239 Trim and cut felled trees	FWPCOT2256 Trim and cut felled trees	Minor changes to Application, Performance Criteria and Knowledge Evidence Added new Performance Criteria Updated Foundation Skills, Performance Evidence and Assessment Conditions	Equivalent
FWPCOT3278 Sharpen cutters in head using a straight knife grinder Release 1	FWPCOT3278 Sharpen cutters in head using a straight knife grinder Release 2	Minor edit to Application	Equivalent
FWPCOT2241 Apply wood and timber product knowledge	FWPCOT3302 Access and provide timber and wood product information	Title amended Clarified Application Reworded Elements and Performance Criteria Updated Knowledge Evidence, Foundation Skills, Performance Evidence and Assessment Conditions	Equivalent
FWPCOT3204 Prepare and interpret sketches and drawings	FWPCOT3303 Prepare sketches and drawings	Retitled Application updated Elements reworded Performance Criteria re- sequenced Assessment Requirements rewritten to specify volume Performance Evidence Knowledge Evidence updated	Equivalent
FWPCOT3214 Take off material quantities	FWPCOT3304 Take off material quantities	Application updated	Equivalent

Code and title (Version 5.0)	Code and title (Version 6.0)	Comments	Equivalence statement
		Elements and Performance Criteria reworded and re-sequenced Assessment Requirements updated	
FWPCOT3218 Quote and interpret from manufactured timber product plans	FWPCOT3305 Interpret and quote from manufactured timber product plans	Retitled Redesigned unit using content from FWPCOT3218 Quote and interpret from manufactured timber product plans and FWPCOT3220 Quote and interpret from computerised timber manufactured product plans	Not Equivalent
FWPCOT3220 Quote and interpret from computerised timber manufactured product plans	FWPCOT3305 Interpret and quote from manufactured timber product plans	Retitled Redesigned unit using content from FWPCOT3218 Quote and interpret from manufactured timber product plans and FWPCOT3220 Quote and interpret from computerised timber manufactured product plans	Not Equivalent
FWPCOT3221 Rehabilitate tracks, quarries and landings	FWPCOT3306 Rehabilitate tracks, quarries and landings	Updated and added new Performance Criteria Added new knowledge item Reworded Foundation Skills, Performance Evidence and Assessment Conditions	Equivalent
FWPCOT3236 Coordinate stock control procedures	FWPCOT4211 Monitor stock control procedures	Re-titled Level of skill complexity revised Minor grammatical changes to Application, Elements and Performance Criteria Updated Foundation Skills and Assessment Requirements	Equivalent
FWPCOT3238 Operate a pole saw	FWPCOT3301 Trim trees using a pole saw	Re-titled Minor updates to Application, Performance Criteria and Knowledge Evidence Added new Performance Criteria Updated Foundation Skills, Performance Evidence and Assessment Conditions	Equivalent

Code and title (Version 5.0)	Code and title (Version 6.0)	Comments	Equivalence statement
FWPCOT3239 Create drawings using computer aided design systems	FWPCOT3307 Create drawings using computer aided design software	Retitled Application clarified Elements and Performance Criteria reworded Foundation Skills and Assessment Requirements updated	Equivalent
FWPCOT3241 Assemble timber wall frames	FWPCOT3308 Assemble timber wall frames	Application clarified Elements renamed Performance Criteria re- sequenced Foundation Skills and Assessment Requirements updated	Equivalent
FWPCOT3242 Lay up timber roof trusses	FWPCOT3309 Assemble timber roof trusses	Redesigned unit using content from FWPCOT3242 Lay up timber roof trusses and FWPCOT3243 Operate a truss press Re-titled Elements and Performance Criteria reviewed and updated Assessment Requirements reworded and updated	Not Equivalent
FWPCOT3243 Operate a truss press	FWPCOT3309 Assemble timber roof trusses	Redesigned unit using content from FWPCOT3242 Lay up timber roof trusses and FWPCOT3243 Operate a truss press Re-titled Elements and Performance Criteria reviewed and updated Assessment Requirements reworded and updated	Not Equivalent
FWPCOT3250 Prepare timber to meet import/export compliance requirements	FWPCOT3310 Prepare timber or related products to meet import/export compliance requirements	Title amended Minor changes to Application Reworded Elements and Performance Criteria Updated Foundation Skills, Performance Evidence and Assessment Conditions	Equivalent
FWPCOT3251 Promote the carbon benefits of wood products	Not applicable	Not applicable	Deleted
FWPCOT3252 Use environmental care procedures to undertake fire salvage operations	FWPCOT3311 Use environmental care procedures to undertake fire salvage operations	Merged Elements Minor updates to Knowledge Evidence Updated Foundation Skills, Performance Evidence and Assessment Conditions	Equivalent

Code and title (Version 5.0)	Code and title (Version 6.0)	Comments	Equivalence statement
FWPCOT3254 Implement environmentally sustainable work practices in the work area/work site	FWPCOT3312 Implement environmentally sustainable work practices in the work area/work site	Updated Application Reworded Elements Minor changes to Performance Criteria Added new knowledge item Updated Foundation Skills, Performance Evidence and Assessment Conditions	Equivalent
FWPCOT3256 Apply biodiversity protection principles	FWPCOT3313 Apply biodiversity protection principles	Clarified Application Updated and added new Performance Criteria Updated Foundation Skills, Performance Evidence and Assessment Conditions	Equivalent
FWPCOT3258 Comply with soil and water protection	FWPCOT3314 Comply with soil and water protection	Clarified Application Updated and added new Performance Criteria Deleted Element and incorporated its Performance Criteria Updated Foundation Skills, Performance Evidence and Assessment Conditions	Equivalent
FWPCOT3261 Transport forestry logs using trucks	FWPCOT3315 Transport forestry logs using trucks	Unit updated to match skill and knowledge requirements outlined in the industry Code of Practice Clarified Application Deleted and added a new Performance Criteria Updated Knowledge Evidence, Foundation Skills, Performance Evidence and Assessment Conditions	Not Equivalent
FWPCOT3262 Transport forestry produce using trucks	FWPCOT3316 Transport forestry produce using trucks	Clarified Application Added new Performance Criteria Updated Foundation Skills, Performance Evidence and Assessment Conditions	Equivalent
FWPCOT3264 Build and maintain timber stacks	FWPCOT3320 Build and maintain timber stacks	Wording of Application and Performance Criteria updated Foundation Skills updated Volume added to Performance Evidence and wording updated and restructured Assessment Conditions updated	Equivalent
FWPCOT3269 Provide specialised timber product solutions	FWPCOT4210 Provide specialised timber product solutions	Clarified Application Reworded Elements and Performance Criteria	Equivalent

Code and title (Version 5.0)	Code and title (Version 6.0)	Comments	Equivalence statement
		Updated Foundation Skills, Performance Evidence and Assessment Conditions	
FWPCOT4202 Design timber structures	FWPCOT4209 Design timber structures	Application clarified Elements renamed Performance Criteria, Foundation Skills and Assessment Requirements updated	Equivalent
FWPFGM2210 Implement animal pest control procedures	Not applicable	Not applicable	Deleted
FWPFGM3209 Construct and maintain forest roads and tracks	FWPFGM3208 Construct and maintain forest roads and tracks	Minor updates to to Application, Performance Criteria and Knowledge Evidence Added a new Element Updated Foundation Skills, Performance Evidence and Assessment Conditions	Equivalent
FWPFGM3212 Fall trees manually (intermediate)	FWPFGM3216 Fell trees manually (intermediate)	Updated Application Reworded and added new Performance Criteria Added a new Element Updated Foundation Skills, Performance Evidence, Knowledge Evidence and Assessment Conditions	Equivalent
FWPFGM3213 Fall trees manually (advanced)	FWPFGM3217 Fell trees manually (advanced)	Updated Application Reworded and added new Performance Criteria Added a new Element Updated Foundation Skills, Performance Evidence, Knowledge Evidence and Assessment Conditions	Equivalent
FWPHAR2203 Hook up felled logs using cables (choker)	FWPHAR2201 Hook up felled trees (choker)	Title amended Minor update to Application, Elements and Knowledge Evidence Added new Performance Criteria Updated Foundation Skills, Performance Evidence and Assessment Conditions	Equivalent
FWPHAR2204 Perform landing duties (chaser)	FWPHAR2202 Perform landing duties (chaser)	Minor updates to Application, Performance Criteria and Knowledge Evidence Added new Performance Criteria Merged two Elements Updated Foundation Skills, Performance Evidence and Assessment Conditions	Equivalent

Code and title (Version 5.0)	Code and title (Version 6.0)	Comments	Equivalence statement
FWPHAR2206 Operate a mobile chipper/mulcher	FWPHAR2208 Operate a mobile chipper/mulcher	Clarified Application Updated and added new Performance Criteria Re-titled Element Added new knowledge items Updated Foundation Skills, Performance Evidence and Assessment Conditions	Equivalent
FWPHAR2207 Trim and cut harvested trees	FWPHAR2209 Trim and cut harvested trees	Minor updates to Application and Knowledge Evidence Re-titled Element Added new Performance Criteria Updated Foundation Skills, Performance Evidence and Assessment Conditions	Equivalent
FWPHAR3201 Monitor log recovery (rigging slinger)	FWPHAR3202 Monitor log recovery (rigging slinger)	Minor updates to Application, Performance Criteria and Knowledge Evidence Updated Foundation Skills, Performance Evidence and Assessment Conditions	Equivalent
FWPHAR3215 Operate a heavy production mobile chipper	FWPHAR3203 Operate integrated or split flail and wood chipper with crane	Redesigned unit using content from FWPHAR3215 Operate a heavy production mobile chipper to provide specific skills for specialised in-field wood chipping equipment	Not Equivalent
FWPHAR3215 Operate a heavy production mobile chipper	FWPHAR3204 Operate split flail and wood chipper fed by mobile machine	Redesigned unit using content from FWPHAR3215 Operate a heavy production mobile chipper to provide specific skills for specialised in-field wood chipping equipment	Not Equivalent
FWPHAR3220 Harvest trees manually (intermediate)	FWPHAR3205 Harvest trees manually (intermediate)	Clarified Application Deleted and added new Element Updated and added new Performance Criteria Updated Foundation Skills, Performance Evidence, Knowledge Evidence and Assessment Conditions	Equivalent
FWPHAR3221 Harvest trees manually (advanced)	FWPHAR3209 Harvest trees manually (advanced)	Clarified Application Updated and added new Performance Criteria Updated Foundation Skills, Performance Evidence, Knowledge Evidence and Assessment Conditions	Equivalent

Code and title (Version 5.0)	Code and title (Version 6.0)	Comments	Equivalence statement
FWPHAR3231 Operate yarder	FWPHAR3212 Operate yarder	Minor changes to Application and Knowledge Evidence Added new Performance Criteria Updated Foundation Skills, Performance Evidence and Assessment Conditions	Equivalent
FWPSAW2205 Assemble materials using nail plates	FWPSAW2212 Assemble materials using nail plates	Application and Performance Criteria reworded Updated Foundation Skills and Assessment Requirements	Equivalent
FWPTMM2201 Cut material to length and angles	FWPTMM2205 Cut material to length and angles	Application clarified Performance Criteria, Foundation Skills and Assessment Requirements updated	Equivalent
FWPTMM2203 Read and interpret timber truss, floor and/or frame fabrication plans	FWPTMM3213 Read and interpret timber truss or wall frame fabrication plans	Re-titled Indicative AQF unit level revised Application clarified Performance Criteria re- sequenced Foundation Skills and Assessment Requirements updated	Not Equivalent
FWPTMM3204 Interpret designs to prepare timber roof truss drawings and documents using computers	FWPTMM4209 Interpret details of timber roof trusses to inform design of plans and production documents	Redesigned unit using content from FWPTMM4205 Prepare and advise on a broad range of timber roof truss details using computers FWPTMM3204 Interpret designs to prepare timber roof truss drawings and documents using computers Re-titled	Not Equivalent
FWPTMM3205 Interpret designs to prepare timber floor system drawings and documents using computers	FWPTMM4210 Interpret details of timber floor systems to inform design of plans and production documents	Redesigned unit using content from FWPTMM4206 Prepare and advise on a broad range of timber floor system details using computers and FWPTMM3205 Interpret designs to prepare timber floor system drawings and documents using computers	Not Equivalent
FWPTMM3206 Interpret designs to prepare timber wall frame drawings and	FWPTMM4211 Interpret details of timber wall frames to inform design of	Redesigned unit using content from FWPTMM4207 Prepare and advise on a broad range of timber wall frame	Not Equivalent

Code and title (Version 5.0)	Code and title (Version 6.0)	Comments	Equivalence statement
documents using computers	plans and production documents	details using computers and FWPTMM3206 Interpret designs to prepare timber wall frame drawings and documents using computers Re-titled	
FWPTMM3207 Set up timber floor trusses	FWPTMM3214 Assemble timber floor trusses	Redesigned unit using content from FWPTMM3207 Set up timber floor trusses and FWPCOT3243 Operate a truss press Re-titled	Not Equivalent
FWPTMM4202 Diagnose and calculate production costs	FWPTMM4212 Calculate production costs	Re-titled Minor wording and grammatical changes in Application and Performance Criteria Foundation Skills updated Assessment Requirements updated for clarity	Equivalent
FWPTMM4205 Prepare and advise on a broad range of timber roof truss details using computers	FWPTMM4209 Interpret details of timber roof trusses to inform design of plans and production documents	Redesigned unit using content from FWPTMM4205 Prepare and advise on a broad range of timber roof truss details using computers FWPTMM3204 Interpret designs to prepare timber roof truss drawings and documents using computers Re-titled	Not Equivalent
FWPTMM4206 Prepare and advise on a broad range of timber floor system details using computers	FWPTMM4210 Interpret details of timber floor systems to inform design of plans and production documents	Redesigned unit using content from FWPTMM4206 Prepare and advise on a broad range of timber floor system details using computers and FWPTMM3205 Interpret designs to prepare timber floor system drawings and documents using computers Re-titled	Not Equivalent
FWPTMM4207 Prepare and advise on a broad range of timber wall frame details using computers	FWPTMM4211 Interpret details of timber wall frames to inform design of plans and production documents	Redesigned unit using content from FWPTMM4207 Prepare and advise on a broad range of timber wall frame details using computers and FWPTMM3206 Interpret designs to prepare timber wall frame	Not Equivalent

Code and title (Version 5.0)	Code and title (Version 6.0)	Comments	Equivalence statement
		drawings and documents using computers Re-titled	
FWPWPP2201 Cut panels	FWPWPP2213 Cut panels	Application and Performance Criteria updated and reworded Assessment Requirements clarified	Equivalent

FWP Forest and Wood Products Training Package Version 5.0 to Version 4.0

Qualifications

Mapping of qualifications from FWP Forest and Wood Products Training Package Version 5.0 to Version 4.0

Code and title (Version 4.0)	Code and title (Version 5.0)	Comments	Equivalence statement
FWP20316 Certificate II in Sawmilling and Processing Release 2	FWP20316 Certificate II in Sawmilling and Processing Release 3	Updated to include revised units, new and revised imported units, and all prerequisites as electives	Equivalent qualification
FWP20416 Certificate II in Wood Panel Products Release 2	FWP20416 Certificate II in Wood Panel Products Release 3	Updated to include revised units, new and revised imported units, and all prerequisites as electives	Equivalent qualification
FWP20516 Certificate II in Timber Manufactured Products Release 1	FWP20516 Certificate II in Timber Manufactured Products Release 2	Updated to include revised units and new and revised imported units	Equivalent qualification
FWP30316 Certificate III in Sawmilling and Processing Release 2	FWP30316 Certificate III in Sawmilling and Processing Release 3	Updated to include revised units, new, superseded and deleted imported units, and all prerequisites as electives	Equivalent qualification
FWP30416 Certificate III in Wood Panel Products Release 2	FWP30416 Certificate III in Wood Panel Products Release 3	Updated to include revised units, new and revised imported units, and all prerequisites as electives	Equivalent qualification
FWP30516 Certificate III in Timber Manufactured Products Release 2	FWP30516 Certificate III in Timber Manufactured Products Release 3	Updated to include revised units and new and revised imported units	Equivalent qualification
FWP30716 Certificate III in Sawdoctoring Release 1	FWP31019 Certificate III in Saw Technology Release 1	Qualification updated to reflect new name, additional units added to the core, units removed, and additional imported units.	No equivalent qualification
FWP30816 Certificate III in Woodmachining Release 2	FWP31119 Certificate III in Wood Machining Release 1	Qualification updated to reflect additional units added to the core, units removed, and additional imported units. Grammatical update to title.	No equivalent qualification
FWP40216 Certificate IV in Timber Processing Release 2	FWP40216 Certificate IV in Timber Processing Release 3	Updated to include revised units and superseded and deleted imported units; imported an additional unit as elective.	Equivalent qualification

Skill sets

Mapping of skill sets from FWP Forest and Wood Products Training Package Version 5.0 to Version 4.0

Code and title (Version 4.0)	Code and title (Version 5.0)	Comments	Equivalence statement
FWPSS00028 Skill set for a finger jointing plant operator Release 2	FWPSS00028 Skill set for a finger jointing plant operator Release 1	Updated to include revised units and new codes for imported units; added prerequisite requirements as electives	Equivalent skill set
FWPSS00029 Skill set for a finger jointing moulder operator Release 3	FWPSS00029 Skill set for a finger jointing moulder operator Release 2	Updated to include revised units	Equivalent skill set
FWPSS00030 Skill set for a finger jointing grader operator Release 2	FWPSS00030 Skill set for a finger jointing grader operator Release 1	Updated to include revised unit	Equivalent skill set
Not applicable	FWPSS00039 Skill set for hydraulic maintenance of saw technology	New skill set	No equivalent skill set
Not applicable	FWPSS00040 Skill set for pneumatic maintenance of saw technology	New skill set	No equivalent skill set

Units of competency

Mapping of units of competency from FWP Forest and Wood Products Training Package Version 5.0 to Version 4.0

FWP Forest and Wood Products Training Package Version 5.0 Mapping of units of competency			
Code and title (Version 4)	Code and title (Version 5)	Comments	Equivalence statement
Not applicable	FWPCOT3286 Identify levelling and tensioning requirements for saw blades	New Unit	No equivalent unit
Not applicable	FWPCOT3287 Operate CNC equipment for grinding, tensioning and levelling saw blades	New Unit	No equivalent unit

FWP Forest and Wood Products Training Package Version 5.0 Mapping of units of competency			
Code and title (Version 4)	Code and title (Version 5)	Comments	Equivalence statement
Not applicable	FWPCOT3289 Load and prove operating program for CNC machine	New Unit	No equivalent unit
Not applicable	FWPCOT3290 Apply knowledge of timber properties, sawmill operations and sawmilling equipment	New Unit	No equivalent unit
Not applicable	FWPCOT3291 Apply principles of timber and process optimisation in sawmill operations	New Unit	No equivalent unit
Not applicable	FWPCOT3292 Calibrate and maintain scanning equipment used in sawmilling operations	New Unit	No equivalent unit
Not applicable	FWPCOT3293 Use scanning equipment for timber grading	New Unit	No equivalent unit
Not applicable	FWPSAW3241 Set up and operate production saws used in sawmill operations	New Unit	No equivalent unit
Not applicable	FWPSAW4206 Monitor output timber for optimum volume and value recovery	New Unit	No equivalent unit
Not applicable	FWPSAW4207 Optimise timber production for volume and value recovery	New Unit	No equivalent unit
FWPCOT2205 Tail out materials	FWPCOT2243 Tail out timber product and waste material	Updated unit code and title for clarity and compliance; edited machines required under assessment conditions.	Equivalent unit
FWPCOT2207 Dress boards and timber	FWPCOT2244 Operate and maintain a thicknesser	Revised application statement; modified element 2 sequence; updated unit code and title for clarity and compliance.	Equivalent unit
FWPCOT2208 Resaw boards and timber	FWPCOT2245 Operate and maintain a table saw	Reworded application statement for clarity; revised performance criteria; changed unit code and title for consistency and compliance.	Equivalent unit

FWP Forest and Wood Products Training Package Version 5.0 Mapping of units of competency			
Code and title (Version 4)	Code and title (Version 5)	Comments	Equivalence statement
FWPCOT2212 Grade hardwood sawn and milled products	FWPCOT2246 Appearance grade hardwood sawn and milled products	Revised performance evidence and knowledge evidence for mapping and clarity; updated unit code and title to reflect changes and for compliance.	Equivalent unit
FWPCOT2213 Grade softwood sawn and milled products	FWPCOT2247 Appearance grade softwood sawn and milled products	Revised performance evidence and knowledge evidence for mapping and clarity; updated unit code and title to reflect changes and for compliance.	Equivalent unit
FWPCOT2214 Grade cypress sawn and milled products	FWPCOT2248 Appearance grade cypress sawn and milled products	Revised performance evidence and knowledge evidence for mapping and clarity; updated unit code and title to reflect changes and for compliance.	Equivalent unit
FWPCOT2215 Visually stress grade hardwood	FWPCOT2249 Visually stress grade hardwood	Updated performance criteria to reflect environmental and workplace health and safety requirements; updated foundation skills; added performance evidence and knowledge evidence to map to performance criteria; updated unit code to reflect changes and meet compliance.	Equivalent unit
FWPCOT2216 Visually stress grade softwood	FWPCOT2250 Visually stress grade softwood	Reworded application statement; updated performance criteria to reflect environmental and workplace health and safety requirements; updated foundation skills; added performance evidence and knowledge evidence to map to performance criteria; updated unit code to reflect changes and meet compliance.	Equivalent unit
FWPCOT2217 Visually stress grade cypress	FWPCOT2251 Visually stress grade cypress	Reworded application statement; updated performance criteria to reflect environmental and workplace health and safety requirements; updated foundation skills; added performance evidence and knowledge evidence to map to performance criteria; updated unit code to reflect changes and meet compliance.	Equivalent unit
FWPCOT2224 Band edges of panels	FWPCOT2252 Band edges of panels	Reworded application statement; updated	Equivalent unit

FWP Forest and Wood Products Training Package Version 5.0 Mapping of units of competency			
Code and title (Version 4)	Code and title (Version 5)	Comments	Equivalence statement
		performance criteria to reflect environmental and workplace health and safety requirements; updated foundation skills; added performance evidence to map to performance criteria; updated unit code to reflect changes and meet compliance.	
FWPCOT2239 Trim and cut felled trees Release 3	FWPCOT2239 Trim and cut felled trees Release 2	Minor edits to achieve consistency with wording in another FWPHAR unit; and enable flexibility of the unit application.	Equivalent unit
FWPCOT3201 Hand sharpen knives and blades	FWPCOT3271 Hand sharpen knives and blades for commercial and domestic cutting services	Updated application statement; revised knowledge evidence; updated unit code and title to reflect changes and for compliance.	Equivalent unit
FWPCOT3206 Cut material using high speed optimiser	FWPCOT3274 Cut timber products using high-speed optimiser	Updated application statement; updated performance criteria to reflect environmental and workplace health and safety requirements; updated foundation skills; added performance evidence to map to performance criteria; updated unit title and code to reflect changes.	Equivalent unit
FWPCOT3207 Set up, operate and maintain finger jointing operations	FWPCOT3288 Set up, operate and maintain finger jointing machines	Reworded application statement; reorganised performance evidence into new elements; updated environmental and workplace health and safety requirements; updated foundation skills; added performance evidence to map to performance criteria; updated unit code and title for clarity and compliance.	Equivalent unit
FWPCOT3209 Set up, operate and maintain end matching operations	FWPCOT3275 Set up, operate and maintain end matching machines	Updated workplace health and safety requirements; renamed element 1; split element 2; revised performance evidence to map to performance criteria; updated unit code and title for clarity and compliance.	Equivalent unit

FWP Forest and Wood Products Training Package Version 5.0

Mapping of units of competency

Code and title (Version 4)	Code and title (Version 5)	Comments	Equivalence statement
FWPCOT3210 Sharpen cutting tools	FWPCOT3276 Sharpen cutters using a straight knife grinder	The original unit has been replaced by three units including this unit to define specific skills required of operators for using different methods and equipment for sharpening different types of cutters to produce timber with simple and complex profiles.	No equivalent unit
FWPCOT3210 Sharpen cutting tools	FWPCOT3277 Sharpen cutters in head using a profile knife grinder	The original unit has been replaced by three units including this unit to define specific skills required of operators for using different methods and equipment for sharpening different types of cutters to produce timber with simple and complex profiles.	No equivalent unit
FWPCOT3210 Sharpen cutting tools	FWPCOT3278 Sharpen cutters in head using a straight knife grinder	The original unit has been replaced by three units including this unit to define specific skills required of operators for using different methods and equipment for sharpening different types of cutters to produce timber with simple and complex profiles.	No equivalent unit
FWPCOT3211 Maintain sawdoctoring tools	FWPCOT3279 Assess and maintain saw technology tools	Added new elements; redrafted performance evidence; expanded knowledge evidence and assessment conditions to include additional tools; changed title and unit code to reflect updates and for compliance.	No equivalent unit
FWPCOT3212 Replace saws, blades and guides	FWPCOT3280 Replace saw blades, knives and guides	Reworded application statement for clarity; updated unit code and title for clarity and compliance.	Equivalent unit
FWPCOT3213 Manufacture cutting tools	FWPCOT3281 Manufacture profile cutters	Updated application for clarity; reworded element 1; revised knowledge evidence; updated unit code and title for clarity and compliance.	Equivalent unit
FWPCOT3215 Swage and shape saw blades	FWPCOT3294 Swage and shape saw blades	Updated environmental and workplace health and safety requirements; separated performance criteria into a new element; updated foundation	Equivalent unit

FWP Forest and Wood Products Training Package Version 5.0 Mapping of units of competency			
Code and title (Version 4)	Code and title (Version 5)	Comments	Equivalence statement
		skills; updated performance evidence to map to performance criteria; updated unit code to reflect changes and meet compliance.	
FWPCOT3216 Assess and maintain saw performance	FWPCOT3282 Assess and maintain saw blade and sawing machine performance	Reworded application; revised performance criteria and evidence for mapping; renamed elements for clarity; updated unit code and title to reflect changes and for compliance.	Equivalent unit
FWPCOT3217 Assess and maintain cutter performance	FWPCOT3295 Assess and maintain cutter performance	Updated application; revised elements and performance criteria for clarity; revised list of relevant machines; reworded performance evidence. Vocational outcomes have not changed.	Equivalent unit
FWPCOT3225 Mechanically stress grade timber	FWPCOT3296 Mechanically stress grade timber	Updated performance criteria to match knowledge evidence regarding workplace health and safety requirements; updated foundation skills.	Equivalent unit
FWPCOT3230 Operate automated stacking equipment	FWPCOT3297 Operate automated stacking equipment	Updated workplace health and safety requirements to match across sections; updated foundation skills.	Equivalent unit
FWPCOT3233 Sharpen and align blades and knives	FWPCOT3283 Sharpen and position blades or knives in chipper, canter and reducer	Split element 5; reworded elements; revised performance criteria, performance evidence, knowledge evidence and assessment conditions; updated unit code and title to reflect changes and for compliance.	Equivalent unit
FWPCOT3237 Produce templates	FWPCOT3298 Produce templates	Updated performance criteria to reflect environmental and workplace health and safety requirements; separated performance criteria into a new element and reworded the other elements; updated foundation skills; updated performance evidence to map to performance criteria; updated unit code to reflect changes and meet compliance.	Equivalent unit

<i>FWP Forest and Wood Products Training Package Version 5.0</i> Mapping of units of competency			
Code and title (Version 4)	Code and title (Version 5)	Comments	Equivalence statement
FWPCOT3245 Grade, sort and mark materials	FWPCOT3284 Grade, sort and mark timber materials	Updated application statement; updated performance criteria to reflect environmental and workplace health and safety requirements; updated foundation skills; added performance evidence to map to performance criteria; updated unit title and code to reflect changes.	Equivalent unit
FWPCOT3247 Select timber for forestry operations	FWPCOT3285 Apply knowledge of wood technology principles to end use applications	Updated unit code and title to clarify task and for compliance.	Equivalent unit
FWPCOT3265 Cut timber or engineered wood product to profile	FWPCOT3299 Cut timber or engineered wood product to profile	Reworded performance evidence for clarity.	Equivalent unit
FWPCOT3266 Dress timber using multi-headed machines	FWPCOT3272 Set up and run multi-head moulder/planer to produce simple profiles	This unit and FWPCOT3273 have replaced FWPCOT3266 for creating specific skills required of operators using multi-head moulder/planer to produce timber with a simple profiles.	No equivalent unit
FWPCOT3266 Dress timber using multi-headed machines	FWPCOT3273 Set up and run multi-head moulder to produce complex profiles	This unit and FWPCOT3272 have replaced FWPCOT3266 for creating specific skills required of operators using multi-head moulder/planer to produce timber with complex profiles.	No equivalent unit
FWPHAR2203 Hook up felled trees (choker) Release 2	FWPHAR2203 Hook up felled trees (choker) Release 1	Minor edits to achieve consistency with wording in another FWPHAR unit; enable flexibility of the unit application; and provide clarification.	Equivalent unit
FWPHAR2204 Perform landing duties (chaser) Release 2	FWPHAR2204 Perform landing duties (chaser) Release 1	Minor edits to achieve consistency with wording in another FWPHAR unit; enable flexibility of the unit application; and provide clarification.	Equivalent unit
FWPHAR2207 Trim and cut harvested trees Release 2	FWPHAR2207 Trim and cut harvested trees Release 1	Minor edits to achieve consistency with wording in another FWPHAR unit; and enable flexibility of the unit application.	Equivalent unit

Mapping of units of competency

Code and title (Version 4)	Code and title (Version 5)	Comments	Equivalence statement
FWPSAW3207 Sharpen band saws	FWPSAW3232 Sharpen band saw blades	Revised and split element 2; clarified performance evidence; minor edits to knowledge evidence; updated unit code and title for clarity and compliance.	Equivalent unit
FWPSAW3208 Sharpen circular saws	FWPSAW3233 Sharpen circular saw blades	Revised performance criteria and performance evidence to clarify tasks; minor updates to knowledge evidence; updated unit code and title for clarity and compliance.	Equivalent unit
FWPSAW3209 Align sawing production systems	FWPSAW3244 Align sawing production systems	Reworded application statement; updated element 3 and further specified tasks in element 4; updated performance criteria, knowledge evidence and assessment conditions for mapping.	Equivalent unit
FWPSAW3210 File and set saws	FWPSAW3234 File and set saw blades for hand saws and circular saws	Clarified the type of sawing equipment for which saw blades are filed and set; updated unit code and title to reflect application and for compliance.	Equivalent unit
FWPSAW3211 Recondition guides	FWPSAW3235 Recondition saw guides	Revised element 2 and performance criteria for clarity; updated performance evidence for mapping; updated unit code and title for clarity and compliance.	Equivalent unit
FWPSAW3212 Sharpen tipped circular saws	FWPSAW3236 Sharpen tipped circular saw blades	Split element 2; minor updates to the knowledge evidence; updated unit code and title for clarity and compliance.	Equivalent unit
FWPSAW3213 Level and tension circular saws	FWPSAW3237 Level and tension circular saw blades	Updated performance criteria to reflect environmental and workplace health and safety requirements; updated foundation skills;; updated unit code and title for clarity and compliance.	Equivalent unit
FWPSAW3214 Join band saw blades	FWPSAW3245 Join band saw blades	Reworded application statement; updated workplace health and safety requirements; removed performance criteria regarding removing blade from machine;	Equivalent unit

FWP Forest and Wood Products Training Package Version 5.0 Mapping of units of competency			
Code and title (Version 4)	Code and title (Version 5)	Comments	Equivalence statement
		added performance criteria to clarify process; split element 2; specified the types of band saw blades in performance evidence.	
FWPSAW3217 Hard face saw teeth	FWPSAW3246 Hard face saw teeth	Reworded application; added performance criteria relating to workplace health and safety; revised performance evidence for mapping; updated foundation skills.	Equivalent unit
FWPSAW3218 Replace tungsten tips	FWPSAW3247 Replace tungsten tips	Renamed element; updated performance criteria; revised performance evidence for clarity; updated knowledge evidence.	Equivalent unit
FWPSAW3219 Replace stellite tips	FWPSAW3238 Replace Stellite tips	Revised performance criteria of element 3; clarified performance evidence; minor edits to knowledge evidence; corrected typographical error in the title and changed unit code for compliance.	Equivalent unit
FWPSAW3220 Maintain wide band saw blades	FWPSAW3239 Assess and maintain wide band saw blades	Reworded application statement for clarity; revised performance criteria of element 3; updated performance evidence for mapping; updated knowledge evidence and assessment conditions for clarity and mapping; updated unit code and title to reflect changes and for compliance.	Equivalent unit
FWPSAW3221 Profile saw blanks	FWPSAW3248 Profile saw blanks	Reworded application; added performance criteria relating to workplace health and safety; revised performance evidence for mapping; updated foundation skills.	Equivalent unit
FWPSAW3222 Recondition band mill wheels	FWPSAW3240 Assess and maintain band saw wheels	Updated unit code and title for clarity and compliance; revised workplace health and safety requirements; revised performance evidence for clarity and mapping.	Equivalent unit
FWPSAW3225 Maintain frame saw blades Release 1	Not applicable	Deleted unit. This unit has been deleted as it is no longer required.	Not applicable

FWP Forest and Wood Products Training Package Version 5.0 Mapping of units of competency			
Code and title (Version 4)	Code and title (Version 5)	Comments	Equivalence statement
FWPSAW3226 Saw logs using CNC optimising systems	FWPSAW3249 Saw logs using CNC optimising systems	Reworded application; added performance criteria relating to workplace health and safety; revised performance evidence for mapping; updated foundation skills.	Equivalent unit
FWPSAW3227 Select and saw logs in multi-species operations	FWPSAW3250 Select and saw logs in multi-species operations	Reworded Application statement for clarity; updated workplace health and safety requirements in Performance Criteria and Performance Evidence; added new Performance Criteria (PC 1.6, 1.7 and 1.8) to match Knowledge Evidence; updated Foundation Skills.	Equivalent unit
FWPSAW3228 Apply principles of blade design to sawing procedures	FWPSAW3251 Apply principles of blade design to sawing procedures	Updated performance criteria, performance evidence and knowledge evidence to reflect environmental and workplace health and safety requirements; updated foundation skills; updated unit code to reflect changes and meet compliance.	Equivalent unit
FWPTMM2202 Machine material	FWPTMM2204 Machine material	Reworded application; revised performance criteria and evidence for mapping; updated foundation skills; minor edits/updates to knowledge evidence.	Equivalent unit
FWPTMM3201 Convert timber	FWPTMM3210 Convert timber	Reworded application; added performance criteria relating to workplace health and safety; revised performance evidence for mapping; updated foundation skills.	Equivalent unit
FWPTMM3202 Manufacture using joinery machines	FWPTMM3211 Manufacture using joinery machines	Reworded application; added performance criteria relating to workplace health and safety; revised performance evidence for mapping; updated foundation skills	Equivalent unit
FWPTMM3203 Estimate and cost job	FWPTMM3212 Estimate and cost job	Updated industry terminology, workplace health and safety requirements and foundation skills; clarified intent of unit and assessment requirements.	Equivalent unit

Units of competency

Mapping of units of competency from FWP Forest and Wood Products Training Package Version 3.0 to Version 4.0

Code and title (Version 3)	Code and title (Version 4)	Comments	Equivalence statement
FWPCOR3204 Visually assess materials Release 2	FWPCOR3204 Visually assess materials Release 3	Rectified error in Foundation Skills	Equivalent
FWPCOT2230 Assemble products Release 1	FWPCOT2230 Assemble products Release 2	Updated workplace health and safety requirements in performance criteria; clarified intent of unit and assessment requirements; updated foundation skills; updated frequency and volume of the performance evidence.	Equivalent
FWPCOT3205 Dress boards using multi- headed machines	FWPCOT3266 Dress timber using multi- headed machines	Updated industry terminology, workplace health and safety requirements and foundation skills; clarified intent of the unit and assessment requirements; changed unit title and code for compliance and consistency with the updates	Equivalent
FWPCOT3228 Plane/sand panels	FWPCOT3268 Plane and sand engineered wood products	Updated industry terminology, workplace health and safety requirements and foundation skills; clarified intent of the unit and assessment requirements; changed unit title and code for compliance and consistency with the updates	Equivalent
FWPCOT3229 Mechanically stress grade panels	FWPCOT3267 Mechanically stress- grade engineered wood panels	Updated industry terminology, workplace health and safety requirements and foundation skills; clarified intent of the unit and assessment requirements; changed unit title and code for compliance and consistency with the updates	Equivalent
FWPCOT3230 Operate automated stacking equipment Release 1	FWPCOT3230 Operate automated stacking equipment Release 2	Updated workplace health and safety requirements and foundation skills; and clarified intent of unit and assessment requirements	Equivalent
FWPCOT3234 Cut material using CNC sizing machines Release 1	FWPCOT3234 Cut material using CNC sizing machines Release 2	Updated workplace health and safety requirements and foundation skills; clarified intent of unit and assessment requirements	Equivalent

Code and title (Version 3)	Code and title (Version 4)	Comments	Equivalence statement
FWPCOT3235 Machine material using CNC machining and processing centres Release 2	FWPCOT3235 Machine material using CNC machining and processing centres Release 3	Updated workplace health and safety requirements and foundation skills; clarified intent of unit and assessment requirements	Equivalent
FWPCOT3244 Cut material to profile	FWPCOT3265 Cut timber or engineered wood product to profile	Updated industry terminology, workplace health and safety requirements and foundation skills; clarified intent of the unit and assessment requirements; changed unit title and code for compliance and consistency with the updates	Equivalent
FWPCOT4203 Plan and coordinate product assembly Release 1	FWPCOT4203 Plan and coordinate product assembly Release 2	Updated workplace health and safety requirements, clarified intent of unit in application and updated foundation skills	Equivalent
FWPCOT6203 Develop engineered timber products to meet energy efficient building design needs	FWPCOT6210 Develop engineered wood products to meet energy efficient building design needs	Updated industry terminology, range of products in performance evidence and foundation skills; clarified intent of the unit and assessment requirements; changed unit title and code for compliance and consistency with the updates	Equivalent
FWPHAR3224 Operate crawler tractor Release 1	FWPHAR3224 Operate crawler tractor Release 2	Amended typographical error in Application	Equivalent
FWPSAW3216 Transfer wood chips Release 1	FWPSAW3216 Transfer wood chips Release 2	Metadata mapping corrected	Equivalent
FWPSAW4204 Plan and monitor board conversion	FWPSAW4205 Plan and monitor timber conversion	Updated industry terminology, workplace health and safety requirements and foundation skills; clarified intent of the unit and assessment requirements; changed unit title and code for compliance and consistency with the updates	Equivalent
Not applicable	FWPTMM3208 Apply critical workplace processes in the manufacture of prefabricated timber building systems	New unit	Not applicable
Not applicable	FWPTMM3209 Install prefabricated timber	New unit	Not applicable

Code and title (Version 3)	Code and title (Version 4)	Comments	Equivalence statement
	building systems on-site		
FWPTMM4201 Construct prototypes and samples	FWPTMM4208 Construct prototypes and samples for timber structures	Updated workplace health and safety requirements and foundation skills; clarified intent of the unit and assessment requirements; changed unit title and code for compliance and consistency with the updates	Equivalent
FWPTMM5201 Assess product feasibility of designs	FWPTMM5207 Assess timber product designs for feasibility	Updated range of products in performance evidence and foundation skills; clarified intent of unit; updated frequency and volume of the performance evidence; changed unit title and code for consistency with the updates and compliance	Equivalent
FWPTMM5203 Generate and transfer complex computer-aided drawings and specifications Release 1	FWPTMM5203 Generate and transfer complex computer-aided drawings and specifications Release 2	Clarified intent of unit in application, updated foundation skills	Equivalent
FWPTMM5204 Manage product design	FWPTMM5208 Manage timber product design	Clarified intent of unit; updated foundation skills; changed unit title and code for consistency with the updates and compliance	Equivalent
FWPTMM5205 Optimise CNC operations Release 1	FWPTMM5205 Optimise CNC operations Release 2	Updated workplace health and safety requirements and foundation skills; clarified intent of unit and assessment requirements	Equivalent
FWPTMM5206 Plan production Release 1	FWPTMM5206 Plan production Release 2	Clarified intent of unit in application; updated foundations skills	Equivalent
Not applicable	FWPTMM5209 Determine prefabricated timber building systems designs for compliance, manufacture and installation	New unit	Not applicable
Not applicable	FWPTMM5210 Verify compliance and conformance of prefabricated timber	New unit	Not applicable

Code and title (Version 3)	Code and title (Version 4)	Comments	Equivalence statement
	building systems during manufacture		
FWPWPP3206 Laminate and veneer board surfaces	FWPWPP3232 Operate a heat roll bonding machine to laminate or veneer engineered wood panel surfaces	Updated industry terminology, workplace health and safety requirements and foundation skills; clarified intent of the unit and assessment requirements; changed unit title and code for compliance and consistency with the updates	Equivalent
FWPWPP3209 Prepare resin and additives Release 1	FWPWPP3209 Prepare resin and additives Release 2	Updated industry terminology, workplace health and safety requirements and foundation skills; clarified intent of the unit and assessment requirements	Equivalent
FWPWPP3210 Laminate board	FWPWPP3233 Operate a laminating press for engineered wood panels	Updated industry terminology, workplace health and safety requirements and foundation skills; clarified intent of the unit and assessment requirements; changed unit title and code for compliance and consistency with the updates	Equivalent
FWPWPP3212 Dry material Release 1	FWPWPP3212 Dry material Release 2	Rectified error in Assessment Conditions	Equivalent
FWPWPP3219 Blend and test binding mixes Release 1	FWPWPP3219 Blend and test binding mixes Release 2	Updated industry terminology, workplace health and safety requirements and foundation skills; clarified intent of the unit and assessment requirements	Equivalent
FWPWPP3221 Trim new panels to size	FWPWPP3235 Trim new engineered wood panels to size	Updated industry terminology, workplace health and safety requirements and foundation skills; clarified intent of the unit and assessment requirements; changed unit title and code for compliance and consistency with the updates	Equivalent
FWPWPP3226 Operate a continuous press	FWPWPP3234 Operate a continuous press for the production of engineered wood panels	Updated industry terminology, workplace health and safety requirements and foundation skills; clarified intent of the unit and assessment requirements; changed unit title and code for compliance and consistency with the updates	Equivalent
FWPWPP4201 Plan and coordinate panel production	FWPWPP4203 Plan and coordinate engineered wood panel production	Updated industry terminology, workplace health and safety requirements and foundation skills; clarified intent of the unit	Equivalent

FWPCOR3204 Visually assess materials Release 1	FWPCOR3204 Visually assess materials Release 2	Minor typographical errors corrected	Equivalent unit
FWPCOT2203 Finish products Release 1	FWPCOT2203 Finish products Release 1	Minor typographical errors corrected	Equivalent unit
FWPCOT2226 Debark logs mechanically Release 1	FWPCOT2226 Debark logs mechanically Release 2	One new PC1.5 added and PC1.4 edited to align with existing KE. Minor additions to the foundation skills.	Equivalent unit
FWPCOT2228 Store materials Release 1	FWPCOT2228 Store materials Release 2	Assessment conditions updated	Equivalent unit
FWPCOT2239 Trim and cut felled trees Release 1	FWPCOT2239 Trim and cut felled trees Release 2	Minor typographical errors corrected	Equivalent unit
FWPCOT2223 Segregate and sort logs	FWPCOT2242 Segregate and sort logs	Significant changes to reflect industry requirements for a safe and appropriate operation. New PCs were added, most PCs were edited and PE and KE increased in content to map against the revised PCs. Additional foundation skills identified. Code change to reflect outcomes of unit.	No equivalent unit
FWPCOT3202 Navigate in remote or trackless areas Release 1	FWPCOT3202 Navigate in remote or trackless areas Release 2	Minor typographical errors corrected	Equivalent unit
FWPCOT3209 Set up, operate and maintain end matching operations Release 1	FWPCOT3209 Set up, operate and maintain end matching operations Release 2	Minor formatting errors corrected.	Equivalent unit
FWPCOT3219 Produce standard truss or frame plans and details using computers Release 1	FWPCOT3219 Produce standard truss or frame plans and details using computers Release 2	Updated unit sector information	Equivalent unit

Code and title (Version 2.0)	Code and title (Version 3.0)	Comments	Equivalence statement
FWPCOT3223 Grade and mark logs	FWPCOT3270 Grade and mark logs	Significant changes to reflect industry requirements for a safe and appropriate operation. New PCs were added, most PCs were edited and PE and KE increased in content to map against the revised PCs. Additional foundation skills identified. Code change to reflect outcomes of unit.	No equivalent unit
FWPCOT3235 Machine material using CNC machining and processing centres Release 1	FWPCOT3235 Machine material using CNC machining and processing centres Release 2	Minor typographical errors corrected	Equivalent unit
FWPCOT3238 Operate a pole saw Release 1	FWPCOT3238 Operate a pole saw Release 2	Minor typographical errors corrected.	Equivalent unit
FWPCOT3241 Assemble timber wall frames Release 1	FWPCOT3241 Assemble timber wall frames Release 2	Minor typographical errors corrected.	Equivalent unit
FPICOT3245 Grade, sort and mark material Release 1	FWPCOT3245 Grade, sort and mark material Release 2	Updated unit sector information and corrected typographical errors	Equivalent unit
FWPCOT3252 Use environmental care procedures to undertake fire salvage operations Release 1	FWPCOT3252 Use environmental care procedures to undertake fire salvage operations Release 2	Minor typographical errors corrected.	Equivalent unit
FWPCOT3255 Apply silvicultural principles Release 1	FWPCOT3255 Apply silvicultural principles Release 2	Minor typographical errors corrected	Equivalent unit
FWPCOT3263 Maintain and contribute to energy efficiency Release 1	FWPCOT3263 Maintain and contribute to energy efficiency Release 2	Minor typographical errors corrected	Equivalent unit
FWPCOT4202 Design timber structures Release 1	FWPCOT4202 Design timber structures Release 2	Minor typographical errors corrected	Equivalent unit
FWPCOT5206 Implement forestry chain of custody certification system Release 1	FWPCOT5206 Implement forestry chain of custody certification system Release 2	Minor typographical errors corrected	Equivalent unit

Code and title (Version 2.0)	Code and title (Version 3.0)	Comments	Equivalence statement
FWPFGM2214 Maintain visitor sites Release 1	FWPFGM2214 Maintain visitor sites Release 2	Minor typographical errors corrected	Equivalent unit
FWPFGM3211 Manage coppice stems Release 2	FWPFGM3211 Manage coppice stems Release 2	Application section and minor typographical errors corrected	Equivalent unit
FWPFGM5213 Coordinate plantation tending operations Release 1	FWPFGM5213 Coordinate plantation tending operations Release 2	Minor typographical errors corrected	Equivalent unit
FWPHAR3208 Conduct boom delimber operations	Not applicable	Deleted as the technology is no longer used in Australia	Not applicable
FWPHAR3210 Conduct mechanical processor operations Release 1	FWPHAR3210 Conduct mechanical processor operations Release 2	Minor additions to the foundation skills, with no other changes.	Equivalent unit
FWPHAR3221 Harvest trees manually (advanced) Release 1	FWPHAR3221 Harvest trees manually (advanced) Release 2	Minor typographical errors corrected	Equivalent unit
FWPHAR3222 Use on-board computer systems for forwarder	FWPHAR3222 Use on-board computer systems for forwarder	New unit	No equivalent unit
FWPHAR3223 Use on-board computer systems for single grip harvester	FWPHAR3223 Use on-board computer systems for single grip harvester	New unit	No equivalent unit
FWPHAR3216 Conduct forestry operations using crawler tractor	FWPHAR3224 Operate crawler tractor	Significant changes to reflect industry requirements for a safe, appropriate and efficient operation, including product quality. New PCs were added, some PCs were edited and PE and KE increased in content to map against the revised PCs. Additional foundation skills identified. Code and title change for consistency with other machine operation units.	No equivalent unit
FWPHAR3219 Conduct excavator operations with grabs	FWPHAR3225 Operate excavator with log grapple	Significant changes to reflect industry requirements for a safe, appropriate and efficient operation, including product quality. A new element and new PCs were added, most PCs	No equivalent unit

Code and title (Version 2.0)	Code and title (Version 3.0)	Comments	Equivalence statement
		<p>were edited and PE and KE increased in content to map against the revised PCs.</p> <p>Additional foundation skills identified.</p> <p>Code and title change for consistency with industry terminology and other machine operation units.</p>	
FWPHAR3207 Conduct feller buncher operations	FWPHAR3226 Operate feller buncher	<p>Significant changes to reflect industry requirements for a safe appropriate and efficient operation, including value recovery and product quality. A new element and new PCs were added, most PCs were edited and PE and KE increased in content to map against the revised PCs.</p> <p>Additional foundation skills identified.</p> <p>Code and title change for consistency with other machine operation units.</p>	No equivalent unit
FWPHAR3206 Conduct forwarder operations	FWPHAR3227 Operate forwarder	<p>Significant changes to reflect industry requirements for a safe, appropriate and efficient operation, including product quality. A new element and new PCs were added, most PCs were edited and PE and KE increased in content to map against the revised PCs.</p> <p>Additional foundation skills identified.</p> <p>Code and title change to reflect outcomes of unit and consistency with other machine operation units.</p>	No equivalent unit
FWPHAR3218 Conduct loader operations	FWPHAR3228 Operate loader	<p>Significant changes to reflect industry requirements for a safe, appropriate and efficient operation, including product quality. A new element and new PCs were added, most PCs were edited and PE and KE increased in content to map against the revised PCs.</p> <p>Additional foundation skills identified.</p> <p>Code and title change for consistency with other machine operation units.</p>	No equivalent unit

Code and title (Version 2.0)	Code and title (Version 3.0)	Comments	Equivalence statement
FWPHAR3217 Conduct skidder operations	FWPHAR3230 Operate skidder	Significant changes to reflect industry requirements for a safe, appropriate and efficient operation, including product quality. New PCs were added, some PCs were edited and PE and KE increased in content to map against the revised PCs. Additional foundation skills identified. Code and title change for consistency with other machine operation units.	No equivalent unit
FWPHAR3211 Operate yarder	FWPHAR3231 Operate yarder	Significant changes to reflect industry requirements for a safe, appropriate and efficient operation, including product quality. New PCs were added, some PCs were edited and PE and KE increased in content to map against the revised PCs. Additional foundation skills identified. Code change.	No equivalent unit
FWPHAR3214 Operate a single grip harvester	FWPHAR3229 Operate single grip harvester	Significant changes to reflect industry requirements for a safe appropriate and efficient operation, including value recovery and product quality. A new element and new PCs were added, most PCs were edited and PE and KE increased in content to map against the revised PCs. Additional foundation skills identified. Code and title change for consistency with other machine operation units.	No equivalent unit
FWPSAW2208 Split wood products Release 1	FWPSAW2208 Split wood products Release 2	Minor typographical errors corrected.	Equivalent unit
FWPSAW3204 Saw flitches and cants Release 1	FWPSAW3204 Saw flitches and cants Release 2	Minor typographical errors corrected.	Equivalent unit
FWPSAW3210 File and set saws Release 1	FWPSAW3210 File and set saws Release 2	Minor typographical errors corrected.	Equivalent unit
FWPSAW3212 Sharpen tipped circular saws Release 1	FWPSAW3212 Sharpen tipped circular saws Release 2	Minor typographical errors corrected.	Equivalent unit

Code and title (Version 2.0)	Code and title (Version 3.0)	Comments	Equivalence statement
FWPSAW3213 Level and tension circular saws	FWPSAW3213 Level and tension circular saws	Minor typographical errors corrected.	Equivalent unit
FWPSAW3214 Join band saw blades Release 1	FWPSAW3214 Join band saw blades Release 2	Minor typographical errors corrected.	Equivalent unit
FWPSAW3217 Hard face saw teeth Release 1	FWPSAW3217 Hard face saw teeth Release 2	Minor typographical errors corrected.	Equivalent unit
FWPSAW3218 Replace tungsten tips Release 1	FWPSAW3218 Replace tungsten tips Release 2	Minor typographical errors corrected.	Equivalent unit
FPISAW3220 Maintain wide band saw blades Release 1	FPISAW3220 Maintain wide band saw blades Release 2	Minor typographical and formatting errors corrected	Equivalent unit
FWPSAW3221 Profile saw blanks Release 1	FWPSAW3221 Profile saw blanks Release 2	Minor typographical errors corrected.	Equivalent unit
FWPSAW3228 Apply principles of blade design to sawing procedures Release 1	FWPSAW3228 Apply principles of blade design to sawing procedures Release 2	Minor typographical errors corrected.	Equivalent unit
FWPTMM5202 Develop, trial and evaluate prototypes Release 1	FWPTMM5202 Develop, trial and evaluate prototypes Release 2	Minor typographical errors corrected.	Equivalent unit

FPISS00023 Skill set for fire salvage operations	FWPSS00023 Skill set for fire salvage operations	Equivalent
FPISS00024 Skill set for off road four wheel drive operations	FWPSS00024 Skill set for off road four wheel drive operations	Equivalent
FPISS00025 Skill set for soil and water protection (roading)	FWPSS00025 Skill set for soil and water protection (roading)	Equivalent
FPISS00026 Skill set for carbon accounting	FWPSS00026 Skill set for carbon accounting	Equivalent
FPISS00027 Skill set for a forestry log truck driver	FWPSS00027 Skill set for a forestry log truck driver	Equivalent
FPISS00028 Skill set for a forestry produce truck driver	FWPSS00028 Skill set for a forestry produce truck driver	Equivalent
FPISS00029 Skill set for a finger jointing plant operator	FWPSS00029 Skill set for a finger jointing plant operator	Equivalent
FPISS00030 Skill set for a finger jointing moulder operator	FWPSS00030 Skill set for a finger jointing moulder operator	Equivalent
FPISS00031 Skill set for a finger jointing grader operator	FWPSS00031 Skill set for a finger jointing grader operator	Equivalent
FPISS00032 Skill set for a finger jointing quality control tester	FWPSS00032 Skill set for a finger jointing quality control tester	Equivalent

Units of competency

<i>FWP Forest and Wood Products Training Package Version 2.0</i> Mapping of units of competency		
Code and title (FWP Version 1.0)	Code and title (FWP Version 2.0)	Equivalence
FWPCOR6201 Manage sustainability in the workplace	FWPCOR6201 Manage sustainability in the workplace	Equivalent
FWPCOR6202 Implement practices to maximise value from wood residues	FWPCOR6202 Implement practices to maximise value from wood residues	Equivalent
FWPCOT4208 Implement workplace sustainability practices	FWPCOT4208 Implement workplace sustainability practices	Equivalent
FWPCOT5201 Implement sustainable forestry practices	FWPCOT5201 Implement sustainable forest practices	Equivalent
FWPCOT5202 Manage forestry information and interpretations programs	FWPCOT5202 Manage forestry information and interpretations programs	Equivalent
FWPCOT5205 Develop biohazard contingency plans	FWPCOT5205 Develop biohazard contingency plans	Equivalent
FWPCOT5206 Implement forestry chain of custody certification system	FWPCOT5206 Implement forestry chain of custody certification system	Equivalent
FWPCOT5207 Implement sustainability in the workplace	FWPCOT5207 Implement sustainability in the workplace	Equivalent
FWPCOT5208 Build and maintain community relationships	FWPCOT5208 Build and maintain community relationships	Equivalent
FWPCOT5209 Manage tree harvesting to minimise environmental impact	FWPCOT5209 Manage tree harvesting to minimise environmental impact	Equivalent
FWPCOT6201 Manage community engagement	FWPCOT6201 Manage community engagement	Equivalent
FWPCOT6202 Develop and manage a forestry chain of custody certification process for the workplace	FWPCOT6202 Develop and manage a forestry chain of custody certification process for the workplace	Equivalent
FWPCOT6203 Develop engineered timber products to meet energy efficient building design needs	FWPCOT6203 Develop engineered timber products to meet energy efficient building design needs	Equivalent
FWPCOT6204 Use carbon accounting to estimate emissions in the workplace	FWPCOT6204 Use carbon accounting to estimate emissions	Equivalent
FWPCOT6205 Prepare an enterprise carbon management report	FWPCOT6205 Prepare an enterprise carbon management report	Equivalent
FWPCOT6207 Develop forest management systems and processes	FWPCOT6207 Develop forest management systems and processes	Equivalent

<i>FWP Forest and Wood Products Training Package Version 2.0</i> Mapping of units of competency		
Code and title (FWP Version 1.0)	Code and title (FWP Version 2.0)	Equivalence
FWPCOT6208 Manage innovative thinking and practice in the forest and wood products industry	FWPCOT6208 Manage innovative thinking and practice in the forest and wood products industry	Equivalent
FWPCOT6209 Manage forest and wood products industry research	FWPCOT6209 Manage forest and wood products industry research	Equivalent
FWPCOT8101 Lead forest and wood products industry innovative thinking and practice	FWPCOT8101 Lead forest and wood products industry innovative thinking and practice	Equivalent
FWPCOT8102 Initiate and lead a forest and wood products industry innovation	FWPCOT8102 Initiate and lead a forest and wood products industry innovation	Equivalent
FWPFGM5217 Promote plantations as a sustainable form of land use	FWPFGM5217 Promote plantations as a sustainable form of land use	Equivalent
FWPFGM5219 Undertake carbon stock sampling of forests and plantations	FWPFGM5219 Undertake carbon stock sampling of forests and plantations	Equivalent
FWPFGM6201 Plan a bio-char storage system for carbon capture and storage	FWPFGM6201 Plan a bio-char storage system for carbon capture and storage	Equivalent
FWPFGM6203 Manage sustainable tree inventory	FWPFGM6203 Manage sustainable tree inventory	Equivalent

<i>FWP Forest and Wood Products Training Package Version 2.0</i> Mapping of units of competency		
Unit code and title (FPI11 Version 2.3)	Unit code and title (FWP Version 2.0)	Equivalence
FPICOR2201B Work effectively in the forest and forest products industry	FWPCOR2201 Work effectively in the forest and forest products industry	Equivalent
FPICOR2202B Communicate and interact effectively in the workplace	FWPCOR2202 Communicate and interact effectively in the workplace	Equivalent
FPICOR2203B Follow environmental care procedures	FWPCOR2203 Follow environmental care procedures	Equivalent
FPICOR2204B Follow fire prevention procedures	FWPCOR2204 Follow fire prevention procedures	Equivalent
FPICOR2205B Follow WHS policies and procedures	FWPCOR2205 Follow WHS policies and procedures	Equivalent
FPICOR2207B Maintain quality and product care	FWPCOR2207 Maintain quality and product care	Equivalent
FPICOR3201B Implement safety, health and environment policies and procedures	FWPCOR3201 Implement safety, health and environment policies and procedures	Equivalent

<i>FWP Forest and Wood Products Training Package Version 2.0</i> Mapping of units of competency		
Unit code and title (FPI11 Version 2.3)	Unit code and title (FWP Version 2.0)	Equivalence
FPICOR3202B Conduct quality and product care procedures	FWPCOR3202 Conduct quality and product care procedures	Equivalent
FPICOR3203B Evaluate fire potential and prevention	FWPCOR3203 Evaluate fire potential and prevention	Equivalent
FPICOR3204B Visually assess materials	FWPCOR3204 Visually assess materials	Equivalent
FPICOR4201B Monitor safety, health and environment policies and procedures	FWPCOR4201 Monitor safety, health and environment policies and procedures	Equivalent
