Release 1	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Version 1.0.

AHCBER304	Carry out movement and security procedures
Application	<p>This unit of competency describes the skills and knowledge required to implement appropriate procedures to restrict the movement of vehicles, personnel, products, livestock and plant material when engaged in a response to an emergency disease or pest incursion .</p> <p>The unit applies to individuals who have been appointed or engaged to undertake a role within an emergency disease or pest incursion response. They work under broad direction and take responsibility for their own work including limited responsibility for the work of others. They provide and communicate solutions to a range of predictable problems.</p> <p>No licensing, legislative or certification requirements are known to apply to this unit at the time of publication.</p>
Prerequisite Unit	Nil
Unit Sector	Emergency Response (BER)

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Prepare to carry out movement and security procedures	1.1 Identify traffic and personnel movement and security procedures from work instructions 1.2 Select, prepare and use personal protective equipment required for planned work 1.3 Obtain documentation required to implement movement and security procedures 1.4 Obtain resources required to implement movement and security procedures
2. Carry out movement and security procedures	2.1 Establish a traffic control check point according to work instructions 2.2 Monitor movement of vehicles, personnel, products and resources through declared check points 2.3 Issue and check permits according to workplace procedures, standards and protocols 2.4 Respond to breaches in permitted entry according to movement and security procedures 2.5 Liaise with contracted security providers according to workplace procedures 2.6 Decontaminate resources according to workplace decontamination procedures
3. Check and adjust movement and security procedures	3.1 Review performance of movement and security procedures according to level of authority 3.2 Report inconsistencies with work instructions, standards and protocols to supervisor 3.3 Report underachievement of objectives to supervisor 3.4 Communicate recommendations for adjusting work instructions to supervisor for approval 3.5 Rectify inconsistencies and underachievement according to level of authority and workplace procedures 3.6 Communicate recommendations for adjusting movement and security procedures to supervisor

Foundation Skills	
<i>This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.</i>	
Skill	Description
Oral communication	<ul style="list-style-type: none"> Select and use common basic verbal strategies to establish and maintain spoken communication with supervisors and work team using appropriate collaborative and inclusive techniques including active listening, questioning and reading of verbal and non-verbal signals to convey and clarify information

TITLE	Assessment requirements for AHCBER304 Carry out movement and security procedures
--------------	---

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has on at least one occasion implemented procedures for controlling the movement of personnel and traffic for a biosecurity response and has:

- determined logistics and required documentation required to carry out movement and security operations
- selected, checked and used personal protective equipment (PPE)
- established and operated a traffic checkpoint and issued and permits
- responded to breaches in valid permitted access according to standards and protocols
- liaised with contracted security providers
- monitored, reviewed and reported on inconsistencies and underachievement of movement and security procedures within level of authority
- undertook remedial action within level of authority
- communicated recommendations on adjusting movement and security procedures to supervisor.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- movement and security procedures commonly associated with movement and security controls during a disease or plant pest incursion, including:
 - key objectives
 - importance of work instructions
- standards and legislative requirements for movement and security on an emergency response site including:
 - Australian Veterinary Emergency Plan (AUSVETPLAN)
 - Australian Emergency Plant Pest Response Plan (PLANTPLAN)
 - Nationally Agreed Standard Operating Procedures (NASOP)
 - permits and documentation associated with implementing movement and security procedures
 - action required for any vehicle without a valid permit
- biosecurity principles associated with movement and security procedures, including:
 - purpose and use of PPE gear
 - decontamination procedures
- safe work practices on work sites
- roles, responsibilities and scope of authority in implementing movement and security procedures
- reporting templates and reporting procedures to supervisor and authorities
- communication principles used in operating a traffic control point.

Assessment Conditions

Assessment of skills must take place under the following conditions:

- physical conditions:
 - skills must be demonstrated on a biosecurity site with traffic control point or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - barriers and traffic control equipment
 - decontamination equipment
- specifications:
 - use of specific workplace policies, procedures and processes for traffic control point
 - use of traffic movement permits
 - use of workplace instructions
- relationships:
 - personnel

Assessment Conditions	
<ul style="list-style-type: none">• supervisor <p>Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.</p>
