| FBPOPR2XX2 | Carry out manual handling tasks |
|--------------------------|---|
| Application | <p>This unit of competency describes the skills and knowledge required to identify manual handling requirements of a work function, use manual handling aids to lift or move items and identify and assess manual handling risks.</p> <p>This unit applies to individuals who work under supervision in most situations and exercise limited autonomy.</p> <p>No occupational licensing, legislative or certification requirements apply to this unit at the time of publication.</p> |
| Prerequisite Unit | Nil |
| Unit Sector | Operational (OPR) |

| Elements | Performance Criteria |
|--|--|
| <i>Elements describe the essential outcomes.</i> | <i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i> |
| 1. Participate in processes to identify and assess manual handling | 1.1 Identify the manual handling components of a work task 1.2 Identify manual handling risks to self and others within level of responsibility and inform supervisor |
| 2. Contribute to manual handling risk minimisation | 2.1 Determine approximate weight of item to be handled 2.2 Identify whether manual handling equipment is required and if so, select appropriate equipment 2.3 Check that manual handling equipment is available and ready for use 2.4 Ensure that personal protective equipment, including clothing and footwear, is fit for use 2.5 Follow safe work procedures |
| 3. Plan and conduct manual handling | 3.1 Identify hazards involved with manual handling task 3.2 Use appropriate personal protective clothing and equipment and ensure correct fit 3.2 Modify workplace layout and environment within area of control to minimise manual handling risk 3.3 Modify work tasks within area of control to minimise the risk of injury 3.4 Use manual handling aids according to workplace procedures 3.5 Use movement and postures to minimise the risk of injury within the limits of the work environment and the demands of the task |

| Foundation Skills | |
|--|--|
| <i>This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.</i> | |
| Skill | Description |
| Numeracy | <ul style="list-style-type: none"> Estimate weights of items to be handled to assist with determining safe lifting/handling methods |

| | |
|--|---|
| TITLE | Assessment requirements for FBPOPR2XX2 Carry out manual handling tasks |
| Performance Evidence | |
| <p>An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.</p> <p>There must be evidence that the individual has safely and effectively carried out a minimum of three, different manual handling tasks, including:</p> <ul style="list-style-type: none"> • identifying the risks associated with each manual handling task (to self and others) • eliminating risks, including through movement, posture and effectively using equipment provided • modifying work to eliminate or minimise risk • applying safe work procedures. | |

| | |
|---|--|
| Knowledge Evidence | |
| <p>An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:</p> <ul style="list-style-type: none"> • different types of manual handling activities, including lifting, reaching, pushing, pulling, holding, restraining, throwing and carrying • types of injuries that can result from manual handling • aspects of manual handling that may be risks (hazard identification), including: <ul style="list-style-type: none"> • repetitive or sustained application of force • repetitive or sustained awkward posture • repetitive or sustained movement • application of high force • manual handling of unstable or unbalanced loads, such as liquids or animals • workplace procedures and responsibilities for identifying and reporting manual handling hazards • factors to be considered when assessing manual handling risks relevant to work role (refer to workplace risk assessment sheets and code of practice advice where available), including: <ul style="list-style-type: none"> • postures • movements • force required • duration and frequency of manual handling activity • environmental conditions, such as hot and cold work environments • procedures and responsibilities for conducting risk assessments of manual handling tasks • typical options for eliminating or controlling manual handling risks associated with work functions, including principles of hierarchy of control and the advantages and disadvantages of different options • types of equipment and/or techniques used to eliminate or reduce manual handling risks in the workplace, including when and how to use each type of technique/equipment relevant to manual handling tasks in work role • level of authority to address health and safety issues related to manual handling and related workplace arrangements for managing safety issues • sources of advice on manual handling relevant to work function • equipment available to assist manual handling, related inspections required to identify faulty equipment and related reporting procedures • personal protective equipment checks including: <ul style="list-style-type: none"> • check for correct fit • appropriate for task • undamaged • movement and postures that increase the risk of injury, and movements and postures to minimise the force in the body as applied to specific tasks in the workplace. | |

| | |
|--|--|
| Assessment Conditions | |
| <p>Assessment of skills must take place under the following conditions:</p> <ul style="list-style-type: none"> • physical conditions: <ul style="list-style-type: none"> • a workplace or an environment that accurately represents a real workplace • resources, equipment and materials: | |

| | |
|--|---|
| Assessment Conditions | |
| <ul style="list-style-type: none">• work procedures, including advice on manual handling requirements and safe work practices. <p>Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.</p> | |
