AHCLSK302	Mate and monitor reproduction of alpacas
Application	<p>This unit of competency describes the skills and knowledge required to mate and monitor the reproduction of alpacas.</p> <p>The unit applies to individuals who mate pigs and monitor dry sow performance under broad direction, and take responsibility for their own work.</p> <p>All work must be carried out to comply with workplace procedures, health and safety in the workplace requirements, animal welfare legislative, regulatory and codes of practice requirements, and sustainability and biosecurity practices.</p> <p>In addition to legal responsibilities, all units of competency dealing with animals in the AHC Training Package have the requirements for animals to be handled humanely to minimise stress and discomfort.</p> <p>No licensing, legislative or certification requirements apply to this unit at the time of publication.</p>
Prerequisite Unit	Nil
Unit Sector	Livestock (LSK)

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Prepare animals for mating	1.1 Select male and female animals to be mated from the stud's mating plan 1.2 Identify potential hazards and risks, and implement safe working practices to manage risks 1.3 Select, fit, use and maintain personal protective equipment applicable to the task 1.4 Determine and record condition of animals selected for mating according to industry practices 1.5 Adjust nutritional program where required and monitor to produce optimum condition for mating 1.6 Prepare over-fleeced females to ensure that tail and vulva area are clean and free of fleece 1.7 Check animals for signs of infection or other reason not to proceed with planned mating and take remedial action as appropriate
2. Facilitate mating	2.1 Identify receptive females 2.2 Ensure paddock or pen mating areas are secure and provide access for handlers during joining 2.3 Use mating procedures and handling techniques that minimise stress and discomfort to animals according to workplace health and safety requirements and animal welfare practices 2.4 Supervise pen mating and intervene when required to maximise conception rates
3. Complete mating procedures	3.1 Undertake or commission pregnancy test and identify pregnancy status of animals and take suitable action as required 3.2 Complete required mating records

Foundation Skills	
<i>This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.</i>	
Skill	Description
Writing	<ul style="list-style-type: none"> Use clear language, accurate industry terminology and logical structure to prepare mating records
