AHCLSC204	Lay paving
Application	<p>This unit of competency describes the skills and knowledge required to lay modular paving in landscape settings, including preparing for work, setting out paving area, ground preparation, laying bedding material and pavers, and cleaning up site.</p> <p>The unit applies to individuals who lay paving under general supervision with limited autonomy or accountability.</p> <p>No licensing, legislative or certification requirements apply to this unit at the time of publication.</p>
Prerequisite Unit	Nil
Unit Sector	Landscape (LSC)

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Plan and prepare for paving work	1.1 Read work instructions relating to paving work and confirm with supervisor 1.2 Prepare and use tools and equipment according to supervisor instructions 1.3 Check and confirm quantity and quality of materials according to job plan requirements 1.4 Identify workplace health and safety hazards, assessed risks and report to supervisor 1.5 Select, fit, use and maintain personal protective equipment (PPE) applicable to task
2. Set out and prepare paving area	2.1 Mark out the area to be paved according to site plan 2.2 Assist with pegging the reduced levels of the proposed paving area according to site plan and supervisor instructions 2.3 Maintain clean and safe worksite during paving activities
3. Undertake ground preparation	3.1 Excavate the area to shape, depth and dimensions to sub-base level 3.2 Trim the subbase to the designated level and falls to ensure that the final level of paving can be achieved 3.3 Construct drainage systems according to site plan 3.4 Place and compact base material to the required depth according to site plan
4. Lay bedding material	4.1 Establish screed rails to ensure the bedding course is maintained 4.2 Spread bedding material evenly over the area according to supervisor instructions 4.3 Level bedding material to the designated level and falls
5. Lay pavers to a given pattern	5.1 Set grid string lines to required levels to ensure the designated pattern of the project is attained and to maintain straight lines of components 5.2 Set out pavers to the required dimensions and pattern 5.3 Lay whole pavers and compact to the established finish level 5.4 Mark, cut and fit pavers to fill gaps in the pattern within nominated tolerances 5.5 Install permanent edge constraints to prevent movement of pavers 5.6 Spread jointing material over paved area and compact to the finished level

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
6. Clean site and store tools and equipment	6.1 Sweep jointing material evenly over paving 6.2 Dispose of or recycle soil and waste material from the site 6.3 Clean, maintain and store tools and equipment 6.4 Report work outcomes, and malfunctions, faults, wear or damage of tools to supervisor

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.

Skill	Description
Oral communication	<ul style="list-style-type: none"> Use clear language and standard industry terminology to report malfunctions, faults wear or damage to tools Participate in verbal exchanges to respond to questions and clarify information

TITLE	Assessment requirements for AHCLSC204 Lay paving
Performance Evidence	
<p>An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.</p> <p>There must be evidence that the individual has laid two different paving patterns on at least two occasions and has:</p> <ul style="list-style-type: none"> • read, interpreted and applied information from a site plan • applied workplace health and safety requirements • prepared the site for paving • laid bedding material • laid and cut in pavers to pattern • used different edge restraints • cleaned up the site and disposed of waste • reported paving operations and unserviceable tools and equipment. 	
Knowledge Evidence	
<p>An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:</p> <ul style="list-style-type: none"> • workplace requirements applicable to health and safety in the workplace for laying pavers including appropriate use of personal protective equipment (PPE) • principles and practices of paving, including: <ul style="list-style-type: none"> • types of base and bedding material, edge restraints and their function • types of pavers • paving patterns, styles and methods • site layout and planning • potential environmental impact of a paving project • types of signs and barriers that need to be erected around the site • methods of disposing of soil and waste materials. 	
Assessment Conditions	
<p>Assessment of the skills in this unit of competency must take place under the following conditions:</p> <ul style="list-style-type: none"> • physical conditions: <ul style="list-style-type: none"> • a workplace setting or an environment that accurately represents workplace conditions • resources, equipment and materials: <ul style="list-style-type: none"> • work instructions applicable to laying pavers • materials, tools and equipment applicable to laying pavers • PPE applicable to laying pavers • specifications: <ul style="list-style-type: none"> • workplace requirements applicable to health and safety in the workplace and laying pavers • site plan • relationships: <ul style="list-style-type: none"> • supervisor • timeframes: <ul style="list-style-type: none"> • according to job requirements. <p>Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.</p>
