Release 1	This version released with FWP Forest and Wood Products Training Package Version 7.0.

FWPFGM5XXX	Communicate forestry and forest science with stakeholders and the community
Application	<p>This unit of competency describes the skills and knowledge required to develop, implement, monitor and review programs and activities that focus on communicating forestry and forest science information and skills to stakeholders and the community.</p> <p>The unit applies to individuals whose job role involves communicating forestry and forest science information and skills to stakeholders and the community</p> <p>All work must be carried out to comply with workplace procedures, according to state/territory health and safety regulations, legislation and standards that apply to the workplace.</p> <p>No licensing, legislative or certification requirements apply to this unit at the time of publication.</p>
Prerequisite Unit	Nil
Unit Sector	Forest Growing and Management (FGM)

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Determine needs	1.1 Identify information and skill development needs of community and stakeholder groups in relation to forestry and forest science 1.2 Determine most effective means of communicating forestry and forest science to community and stakeholder groups 1.3 Assess benefits and costs of different approaches to communicating forestry and forest science to specific audiences 1.4 Use consultative mechanisms to confirm and prioritise forestry and forest science information and skill development needs of community and stakeholder groups
2. Plan forestry and forest science communication strategy	2.1 Design and document a strategy for communicating forest and forest science information and skills to specific community and stakeholder groups 2.2 Identify forest and forest science activities and programs that are targeted at particular community and stakeholder groups 2.3 Analyse possible barriers to participation of community and stakeholder groups in forest and forest science activities and programs 2.4 Identify ways of promoting forest and forest science activities and programs to diverse community and stakeholder groups 2.5 Develop an evaluation strategy for ongoing monitoring of the forestry and forest science communication strategy
3. Implement forestry and forest science communication strategy	3.1 Work with forestry personnel and representatives of community and stakeholder groups to implement forest and forest science activities and programs 3.2 Identify and source resources to support delivery of forest and forest science activities and programs 3.3 Monitor implementation of activities and programs to ensure that needs of target group are addressed

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
4. Evaluate forestry and forest science communication strategy	4.1 Gather feedback from forestry personnel and community and stakeholder groups on programs and activities to verify effectiveness and identify program improvements 4.2 Report on outcomes of strategy and make recommendations for future programs and activities based on consultation and analysis

Foundation Skills	
<i>This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.</i>	
Skill	Description
Reading	<ul style="list-style-type: none"> Source, analyse and interpret written information presented in a variety of formats to identify program options and requirements
Writing	<ul style="list-style-type: none"> Prepare documentation that incorporates the analysis and evaluation of information using specialised language in a format and style appropriate to a specific audience
Oral communication	<ul style="list-style-type: none"> Conduct face to face consultations with a diverse community and stakeholder groups to determine their information and skill development needs in relation to forest and forest science
Numeracy	<ul style="list-style-type: none"> Perform calculations to determine budgets for and analyse feedback from stakeholders and community members on programs and activities
