AHCPGD504	Develop and implement a streetscape management plan
Application	<p>This unit of competency describes the skills and knowledge required to develop and implement a streetscape management plan, including defining the needs of the streetscape management plan, undertaking preliminary planning activities, preparing site description, analysing information, identifying management strategies, preparing and implementing the plan.</p> <p>The unit applies to individuals who apply specialist skills and knowledge to planning the restoration of parks and gardens, take personal responsibility and exercise autonomy in undertaking complex work. They analyse and synthesise information, and analyse, design and communicate solutions to a range of complex problems.</p> <p>All work is carried out to comply with workplace procedures, health and safety in the workplace requirements, legislative and regulatory requirements, and sustainability and biosecurity practices.</p> <p>No licensing, legislative or certification requirements apply to this unit at the time of publication.</p>
Prerequisite Unit	Nil
Unit Sector	Parks and Gardens (PGD)

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Define the need for a streetscape management plan	1.1 Discuss and clarify client preferences and brief requirements 1.2 Identify streetscape management plan objectives 1.3 Identify a planning team including specialists and consultants
2. Undertake preliminary planning activities	2.1 Identify major stakeholders 2.2 Determine the availability of specialists to assist in management planning work and prepare contracts where required 2.3 Establish timelines for development of the management plan and reporting arrangements to client 2.4 Identify required resources for developing management strategies
3. Prepare a site description	3.1 Identify and map landscape values of the area 3.2 Identify and map physical features and characteristics of the streetscape 3.3 Research land, including current, cultural and historical modifications, and determine and record their effects on the streetscape 3.4 Assess and document physical condition of site 3.5 Document the biological characteristics of the site
4. Analyse site information and description	4.1 Evaluate information in terms of core principles and objectives 4.2 Produce documents, including plans, technical reports and maps 4.3 Determine priorities and key management issues 4.4 Identify and document opportunities and constraints to meeting planning objectives and goals 4.5 Make a presentation to clients and residents and incorporate feedback into planning documentation

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
5. Identify management strategies	<p>5.1 Identify management strategies that address defined objectives</p> <p>5.2 Design management strategies to alleviate existing impacts or to target management action</p> <p>5.3 Cost management strategies and compare to existing budgets and available resources</p> <p>5.4 Plan implementation of work to prioritise outcomes and management resource allocation</p> <p>5.5 Consult with clients and residents and incorporate feedback into documentation</p>
6. Prepare the management plan	<p>6.1 Develop a draft management plan that includes site information and management strategies</p> <p>6.2 Consult with stakeholders and clients and incorporate agreed changes into the final plan</p> <p>6.3 Document and present final plan to client</p>
7. Implement the management plan	<p>7.1 Implement the management plan within predetermined budget, and according to the schedule and strategies set out in the plan</p> <p>7.2 Modify the implementation strategy to address on-going feedback from clients and residents</p> <p>7.3 Provide reports to clients and residents on the progress of implementation works</p>

Foundation Skills	
<i>This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.</i>	
Skill	Description
Numeracy	<ul style="list-style-type: none"> Access and analyse data for input to site description and streetscape management plan
