Release	Comments
Release 1	This version released with AHC Agriculture, Horticulture and Conservation and Land Management Training Package Version 9.0.

AHCWRK4X1	Implement quality assurance procedures
Application	<p>This unit of competency describes the skills and knowledge required to implement quality assurance procedures.</p> <p>The unit applies to individuals who apply specialist skills and knowledge to implementing quality assurance procedures. This includes applying and communicating non-routine technical solutions to predictable and unpredictable problems.</p> <p>All work must be carried out to comply with workplace procedures, health and safety in the workplace requirements, legislative and regulatory requirements.</p> <p>No licensing, legislative or certification requirements apply to this unit at the time of publication.</p>
Prerequisite Unit	Nil
Unit Sector	Work (WRK)

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Establish quality specifications for product	1.1 Source market requirements for product 1.2 Identify product quality specifications
2. Identify hazards and critical control points in the production of quality product	2.1 Identify hazards and critical control points impacting on product quality 2.2 Determine the degree of risk for each hazard 2.3 Establish a Hazard Analysis Critical Control Point (HACCP) approach to quality assurance
3. Assist in planning of quality assurance procedures	3.1 Develop procedures for each identified control point to ensure optimum quality 3.2 Minimise hazards and risks by application of appropriate controls 3.3 Develop quality assurance record keeping templates 3.4 Develop processes to monitor the effectiveness of quality assurance procedures 3.5 Establish a document control register
4. Implement quality assurance procedures	4.1 Allocate responsibilities for carrying out quality assurance procedures to staff and contractors 4.2 Prepare quality assurance instructions 4.3 Provide staff and contractors with induction training on the quality assurance policy 4.4 Provide staff and contractors with on-job training relevant to their allocated procedures

Foundation Skills	
<i>This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.</i>	
Skill	Description
Reading	<ul style="list-style-type: none"> Identify and interpret information regarding quality assurance requirements
Writing	<ul style="list-style-type: none"> Use clear language and accurate industry terminology and logical structure to complete quality assurance record keeping templates, procedures, processes and instructions
Oral communication	<ul style="list-style-type: none"> Initiate discussions with staff and contractors, using clear language and standard industry terminology to allocate responsibilities and provide training
