Release 1	This version released with AHC Agriculture, Horticulture, Conservation and Land Management Training Package Version 1.0.

AHCPER6X3	Prepare a sustainable community and bioregional development strategy
Application	<p>This unit of competency describes the skills and knowledge required to investigate a community profile and their needs, prepare a brief, consult with community stakeholders and identify strategies and organisational structures to document a community and bioregional development strategy.</p> <p>The unit applies to individuals with a broad theoretical and technical knowledge. They have a broad range of cognitive, technical and communication skills and demonstrate autonomy and judgement for a defined area of responsibility, undertaking complex work with broad parameters to provide specialist advice and functions.</p> <p>No licensing, legislative or certification requirements apply to this unit at the time of publication.</p>
Prerequisite Unit	Nil
Unit Sector	Permaculture (PER)

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Prepare a brief	1.1 Investigate and define aims and objectives of sustainable community and bioregional development strategy 1.2 Investigate and define community core values, principles and guidelines 1.3 Compile investigations and outcomes and document in a brief 1.4 Consult with community stakeholders and develop protocols for the design, implementation and ongoing management of strategy
2. Analyse available information	2.1 Collate information on community and bioregion 2.2 Identify key elements and themes 2.3 Map interconnections and relationships between key elements and themes 2.4 Determine legal and planning instruments and guidelines for community and bioregion 2.5 Identify key stakeholders, specialist advisers and consultants to assist in development of strategy
3. Consult with community stakeholders	3.1 Consult and respond to community stakeholders in a manner which engages support and cooperation 3.2 Develop communications strategy for community for access, consultation and participatory process 3.3 Identify and develop processes for feedback and ongoing community involvement in planning process 3.4 Provide guidance and support to community to address feedback 3.5 Select and apply community consultation methods and document results
4. Identify required strategies	4.1 Develop steps required to implement suitable strategies 4.2 Formulate strategies and make available to stakeholders for comment 4.3 Develop strategies in consultation with stakeholders 4.4 Recognise and document opportunities and constraints to implementation 4.5 Record approaches, methods and refinements for historical reference according to workplace procedures

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
5. Design organisational structures	5.1 Provide assistance to community to design mechanisms and actions to address community business 5.2 Contribute to development of policies and processes to facilitate community stakeholder activity 5.3 Motivate community and stakeholders to work cooperatively through effective communication and interpersonal skills 5.4 Develop operational arrangements to facilitate community processes 5.5 Assist community to identify additional assistance and resources according to community requirements 5.6 Contribute to organisational or management strategies for coordination of multiple activities and initiatives
6. Document community and bioregional development strategy	6.1 Validate evidence used to support proposed strategies for sustainable community and bioregional development and transition 6.2 Confirm the implementation of operational plans according to developed strategies 6.3 Document community and bioregional development and transition strategy according to workplace procedures 6.4 Distribute strategic plan to stakeholders and ensure effective communication of information

Foundation Skills

This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.

Skill	Description
Writing	<ul style="list-style-type: none"> Prepare detailed strategic planning documentation demonstrating advanced writing skills by selecting appropriate conventions and stylistic devices, plans and diagrams to express precise meaning to key stakeholders of bioregional development
Oral communication	<ul style="list-style-type: none"> Demonstrate high level communication skills when dealing with community members with diverse cultural and linguistic skills

TITLE	Assessment requirements for AHCPER6X3 Prepare a sustainable community and bioregional development strategy
--------------	---

Performance Evidence

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual has on at least one occasion, prepared a sustainable community and bioregional development strategy and has:

- investigated and analysed community characteristics, structure and needs and prepared a brief for a strategy
- consulted community stakeholders and planned processes to ensure effective communication
- identified strategies suitable for community objectives and outcomes
- designed organisational structures to support strategic outcomes
- documented a community and bioregional development strategy.

Knowledge Evidence

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- permaculture principles and practices related to bioregional development
- bioregional analysis and development
- community responses to climate change, Peak Oil and resource depletion
- types of community or bioregional development strategies
- strategic planning framework, including:
 - core values
 - vision
 - goals
 - strategies
 - action plans
 - benchmarks
 - timelines
- community profile development, consultation and facilitation methodologies
- information gathering processes
- structure, processes and characteristics of community organisations, including:
 - non-government organisations
 - government organisations
 - cooperatives
 - incorporated and non-incorporated groups
 - companies both limited and unlimited
 - public companies both listed and unlisted
 - trusts
- funding sources, their policies and strategies for encouraging community participation, including, grants, gifts and crowd-sourced funding
- relevant local, state and federal strategies and legislation.

Assessment Conditions

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
 - skills must be demonstrated for a community or an environment that accurately represents workplace conditions
- resources, equipment and materials:
 - use of research tools and references
- specifications:
 - use of workplace policies, procedures, processes
 - access to specific legislation and codes of practice
- relationships:
 - community and key stakeholders.

Assessment Conditions

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
