

Work Safely Around Animals (Infection Control) Project

Summary of Consultation Feedback, Responses and Actions

18 April 2018

Consultation

ACMINF101 Take responsibility for the health and welfare of animals in own care

This unit of competency was developed as a result of requests from industry stakeholders during the initial consultation sessions for this project. It was released for broader stakeholder feedback between 29 March -16 April 2018.

Two feedback responses were received during the feedback period representing the following stakeholder groups.

Stakeholder Groups	States Represented	Total number
Industry Association (Ind Assoc)	NT	1
State Training Authority (STA)	VIC	1
Total		2

Below is a summary of the issues and feedback raised during industry/public consultation, and the responses and actions taken that are related to these issues and feedback. This has involved consideration of the information provided, the views of industry stakeholders where known, and the views provided by the people who were part of the SME processes. Resolutions are constructed to take into account the needs and views of stakeholders to the extent possible, and to comply with the *Standards for Training Packages 2012*. The resolutions may represent a compromise on one or more stakeholder views with the aim of a workable outcome for industry, government agencies and training providers.

Issues identified and responses

Stakeholder Comments and Identified Issues			Consideration and Proposed Resolution
ACMINF101 Take responsibility for the health and welfare of animals in own care			
1. Industry Association	NT	<p>Performance criteria (PC) – minor suggestions to wording in PCs 4.1, 4.3 to clarify intent</p> <p>Performance evidence (PE) – clarify the range of animal care and infection control activities for last PE statement</p> <p>Knowledge evidence – addition and clarification of some points</p>	<p>Changes have been made to performance criteria, performance evidence and knowledge evidence as suggested.</p> <p>A list of animal care and infection control activities has been added to last performance evidence statement.</p>
2. STA	VIC	<p>Performance Criteria – minor suggestions to wording in PCs 1.1, 3.4 to clarify intent</p> <p>Reduce the volume and frequency in some performance evidence statements</p>	<p>Minor changes have been made to the wording of PCs 1.1, 3.4</p> <p>This feedback was checked with a key industry stakeholder that advised the volume and frequency was acceptable</p>
