| AHCLSK3XX | Implement procedures for calving |
|--------------------------|---|
| Application | <p>This unit of competency describes the skills and knowledge required to prepare for calving, observe and support cows at calving and monitor after calf is born.</p> <p>The unit applies to individuals who implement procedures for calving under broad direction, and take responsibility for their own work.</p> <p>All work must be carried out to comply with workplace procedures, health and safety in the workplace requirements, animal welfare legislative, regulatory and codes of practice requirements, and sustainability and biosecurity practices.</p> <p>In addition to legal responsibilities, all units of competency dealing with animals in the AHC Training Package have the requirements for animals to be handled humanely to minimise stress and discomfort.</p> <p>No licensing, legislative or certification requirements apply to this unit at the time of publication.</p> |
| Prerequisite Unit | Nil |
| Unit Sector | Livestock (LSK) |

| Elements | Performance Criteria |
|--|---|
| <i>Elements describe the essential outcomes.</i> | <i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i> |
| 1. Prepare for calving | 1.1 Identify potential hazards and risks, and implement safe working practices to manage risks 1.2 Assess and monitor condition and health status of cow prior to calving 1.3 Select required calving equipment, resources and materials and check for safe operation 1.4 Select, fit, use and maintain personal protective equipment applicable to the task 1.5 Graze cows at risk of calving difficulty in an area where intervention can be carried out with as little disruption as possible 1.6 Check mating records and confirm anticipated calving date |
| 2. Observe the calving | 2.1 Monitor cows for signs of approaching parturition and throughout calving 2.2 Note signs of calf malpresentation or dystocia from the rate of progress in giving birth and initial orientation of the feet and head |
| 3. Support calving | 3.1 Handle calving cows calmly and put in a secure environment 3.2 Clean calving equipment according to workplace hygiene procedures 3.3 Use calving ropes and calf pulling equipment where required, without causing undue harm to the female 3.4 Seek specialist veterinary support where normal assistance procedures are not adequate to assist the calving 3.5 Handle livestock according to workplace animal welfare practices |

| Elements | Performance Criteria |
|--|---|
| <i>Elements describe the essential outcomes.</i> | <i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i> |
| 4. Carry out monitoring after calf has been born | 4.1 Allow cow to rest and encourage cow to lick the calf as an initial bonding 4.2 Check calves that have been assisted for clear airways 4.3 Leave the placenta for the cow to ingest after calving 4.4 Maintain personal safety when monitoring calves and cows 4.5 Clean and maintain the calving environment and facilities using appropriate hygiene procedures 4.6 Clean and return equipment, resources and materials to required location 4.7 Identify and report unserviceable equipment and resources according to workplace procedures 4.8 Complete calving records |

| Foundation Skills | |
|--|--|
| <i>This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.</i> | |
| Skill | Description |
| Reading | <ul style="list-style-type: none"> Identify and interpret textual information from a range of sources to identify relevant and key information about calving activities |
| Writing | <ul style="list-style-type: none"> Use clear language, accurate industry terminology and logical structure to prepare calving records |
| Oral communication | <ul style="list-style-type: none"> Use clear language with specialist veterinary support to provide information on calving assistance requirements Use clear language to report equipment and resources unserviceability |
