AHCLSK208	Monitor livestock to parturition
Application	<p>This unit of competency describes the skills and knowledge required to monitor animal health, wellbeing and welfare to parturition, including checking animal health status, and identifying and feeding pregnant animals.</p> <p>The unit applies to individuals who carry out birthing duties under general supervision with limited autonomy or accountability.</p> <p>All work is carried out to comply with workplace procedures, health and safety in the workplace requirements, animal welfare legislative, regulatory and codes of practice requirements, and sustainability and biosecurity practices.</p> <p>In addition to legal responsibilities, all units of competency dealing with animals in the AHC Training Package have the requirements for animals to be handled humanely to minimise stress and discomfort.</p> <p>No licensing, legislative or certification requirements apply to this unit at the time of publication.</p>
Prerequisite Unit	Nil
Unit Sector	Livestock (LSK)

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Check health status of animals	1.1 Identify workplace health and safety hazards, assessed risks and report to supervisor 1.2 Select, fit, use and maintain personal protective equipment (PPE) applicable to the task 1.3 Check condition and health status of animals and confirm according to workplace health strategies and records 1.4 Recognise signs of poor health and condition or abnormal behaviour and report to the supervisor 1.5 Administer preventative health treatments as instructed 1.6 Identify environmental implications associated with production and report to supervisor
2. Identify pregnant animals	2.1 Identify animals and separate on basis of pregnancy status 2.2 Report identified dry animals according to property management plan 2.3 Report additional assistance required for assessing pregnancy status to supervisor
3. Feed pregnant animals	3.1 Identify nutritional needs of pregnant animals and confirm against the feeding plan 3.2 Identify animals with special feeding needs and give them preferential feeding and record 3.3 Implement and record supplementary feeding as required 3.4 Maintain a safe and secure environment for pregnant animals 3.5 Handle animals with minimum stress and discomfort according to workplace animal welfare procedures

Foundation Skills	
<i>This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.</i>	
Skill	Description
Writing	<ul style="list-style-type: none"> Use clear language, accurate industry terminology and logical structure to complete feeding records
Oral communication	<ul style="list-style-type: none"> Participate in verbal exchanges to respond to questions and clarify information
