# Introduction

## About this Guide

This Companion Volume Implementation Guide (Implementation Guide) is designed to assist assessors, trainers, Registered Training Organisations (RTOs) and enterprises to use the *PPM Pulp and Paper Manufacturing Training Package*.

## Structure of this Guide

This Implementation Guide contains two sections.

### 1. Overview

This section includes information about:

- what training packages are, and how they are developed
- the qualifications, skill sets and units of competency (including imported and prerequisite units of competency) in the training package
- mapping between previous and current versions of the qualifications and units of competency
- key work, training and regulatory/licensing requirements in the industry.

Note: Lists of qualifications, skill sets and units of competency, together with mapping information for qualifications, skill sets and units of competency, are in the Appendices section.

### 2. Implementation

This section explains some of the key features of the *PPM Pulp and Paper Manufacturing Training Package* and the industry that will impact on the use of the Training Package. It includes information about:

- training pathways
- occupational outcomes of qualifications
- entry requirements for qualifications
- access and equity considerations
- resources and equipment requirements.

## Overview

### About training packages

Training packages specify the skills and knowledge (known as competencies) that individuals need in order to perform effectively in workplaces. Training packages:

- reflect identified workplace outcomes
- support national (and international) portability of skills and competencies
- reflect the core, job-specific and transferable skills, required for job roles
- enable the awarding of nationally recognised qualifications
- facilitate recognition of peoples' skills and knowledge, and support movement between school, VET and higher education sectors
- promote flexible modes of training to suit individual and industry requirements.

---

---

**Note:** To make them easy to interpret, training packages are written in simple, concise language, with delivery and assessment requirements clearly described. Training package products do not prescribe how an individual should be trained so that users can develop training and assessment strategies to suit the needs of their particular learners.

---

---

### Training package components

Training packages consist of endorsed and non-endorsed components<sup>1</sup>.

Although all components must be developed to comply with the Standards for Training Packages 2012<sup>2</sup>, endorsed components must be submitted for approval by the Australian Industry and Skills Committee before they are released for use.

A summary of endorsed and non-endorsed components is provided on the following page.

---

<sup>1</sup> Note that the words 'components' and 'products' are used in currently applicable legislation standards and policies. Both words are generally used to refer to the qualifications, skill sets, units of competency, assessment requirements, credit arrangements and supporting materials produced for training packages.

<sup>2</sup> The *Standards for Training Packages 2012*, and accompanying policies, are available from the Australian Department of Education, Skills and Employment website < <https://www.dese.gov.au/skills-information-training-providers/resources/standards-training-packages-2012>>.

## Endorsed components

<b>Product</b>	<b>Description</b>
<b>Qualification</b>	A qualification combines the skills standards (called units of competency) into meaningful groups that meet workplace roles and align to the Australian Qualifications Framework (AQF).
<b>Unit of competency</b>	A unit of competency describes the requirements for effective performance in a discrete area of work, work function, activity or process. They specify the standard against which training delivery and assessment of competency can take place.
<b>Assessment requirements</b>	Assessment requirements accompany each unit of competency and include the performance evidence, knowledge evidence and conditions for assessment.
<b>Credit arrangements</b>	Credit arrangements provide details of existing arrangements between training package qualifications and higher education qualifications in accordance with the AQF.  Note: There are currently no nationally applicable credit arrangements between any Skills Impact training package qualification and higher education qualification.

## Non-endorsed components

<b>Product</b>	<b>Description</b>
<b>Skill set</b>	A skill set addresses a particular industry need or a licensing or regulatory requirement. A skill set is not endorsed but includes endorsed units of competency.
<b>Companion volume</b>	This general term refers to any product (including this Implementation Guide) which supports training and assessment.

## Training package development

Training packages are developed through a process of national consultation with industry. There are some key stakeholders that drive training package development.

### Key stakeholder roles<sup>3</sup>

<b>COAG Industry and Skills Council (CISC)</b>	The CISC is the ministerial council responsible for industry and skills. The CISC provides a forum for intergovernmental collaboration and decision-making about industry competitiveness, productivity and labour market pressures, and skills development and national training arrangements, including training packages.
<b>The Australian Industry and Skills Committee (AISC)</b>	The AISC was established by the CISC in 2015 to provide industry leadership within the national training system. As well as setting the priorities for the review of training packages in a national review schedule, the AISC approves training packages for implementation.
<b>Industry Reference Committees (IRCs)</b>	IRCs are the key industry advisory bodies to the AISC. They are made up of people who are experts in their particular industry sectors. IRCs drive the process of training package development so that the qualifications and units of competency are aligned with modern work practices.
<b>Skills Service Organisations (SSOs)</b>	SSOs are funded by the Australian Government to provide technical, operational and secretariat support to IRCs. SSOs assist IRCS to identify the skills required for jobs. Under the direction of the IRCs, SSOs develop and review compliant training packages that meet industry needs. Skills Impact is an SSO.
<b>Government</b>	The Australian Government supports the AISC and its network of IRCs and manages the SSOs. State and territory governments, referred to as State or Territory Training Authorities (STAs/TTAs), canvass stakeholder views about training packages, provide implementation advice, identify issues and develop purchasing guides for training providers.
<b>Vocational education and training regulators</b>	The national VET regulator, the Australian Skills Quality Authority (ASQA), and two state-based VET regulators, Victorian Registration and Qualifications Authority (VRQA) and Western Australian Training Accreditation Council (WA TAC), regulate the training and assessment strategies and practices of registered training organisations. Their aim is to ensure consistency with the requirements of the endorsed components of training packages.

---

<sup>3</sup> More information about key stakeholder roles is available on the AISC website < <https://www.aisc.net.au>>.

## The development process

The process used to develop and endorse training packages is based on the following principles:

- open and inclusive industry participation in development, validation and endorsement of training packages
- strong stakeholder engagement and the opportunity for industry to drive change
- highly responsive and capable of meeting industry needs and priorities for new skills
- clear and transparent arrangements for resolving contentious issues
- accountability of all stakeholders for the role that they play in the process.

The diagram summarises the process of training package development. <sup>4</sup>

---

<sup>4</sup> The training package development and endorsement process policy can be downloaded from the Department of Education, Skills and Employment website <<https://www.dese.gov.au/aisc/resources/training-package-development-and-endorsement-process-policy>>

## Contents of this training package

The *PPM Pulp and Paper Manufacturing Training Package* contains AQF aligned qualifications, skill sets and units of competency.

### Prerequisite requirements

No units of competency in this Training Package have prerequisite requirements.

### Imported units

Qualifications include units of competency from different training packages, including:

- BSB Business Services Training Package
- CPP Property Services Training Package
- FWP Forest and Wood Products Training Package
- HLT Health Training Package
- MEM Manufacturing and Engineering Training Package
- MSS Sustainability Training Package
- MSM Manufacturing Training Package
- MSL Laboratory Operations Training Package
- NWP National Water Training Package
- PMA Chemical, Hydrocarbons and Refining Training Package
- PSP Public Sector Training Package
- TAE Training and Education Training Package
- TLI Transport and Logistics Training Package
- UEP Electricity Supply Industry – Generation Sector Training Package

Please refer to **Appendix 1** for details of components in the *PPM Pulp and Paper Manufacturing Training Package* including lists of:

- qualifications, skills sets and units of competency
- imported units of competency.

## Mapping information

Mapping to previous versions of a training package can be useful for delivery and assessment because it:

- outlines the changes between current and previous versions of qualifications, skill sets and units of competency
- states whether the vocational outcomes of the current and previous versions of units of competency and qualifications are equivalent
- shows any components that have been added to, or removed from, the training package.

---

---

Note: The mapping tables are summary documents only and cannot be used alone to determine an individual's competence.

---

---

Please refer to **Appendix 2** for mapping between previous and current qualifications, skill sets and units of competency.

### Registered Training Organisation (RTO) use

An RTO may use the mapping information to help design training and assessment strategies, including recognition of prior learning (RPL) systems. In addition to the mapping information, RPL processes must take into account other evidence of current competency, for example, how long ago an individual was awarded a superseded unit of competency and current work experience.

### Employer use

An employer might use the mapping information to determine whether there are gaps between a qualification held by workers and the current expectations of a job role. Once gaps are identified, this could assist in planning professional development activities.

## How equivalence is determined

### Units of Competency

The training package developer determines equivalence based on the definition provided in the *Training Package Products Policy*<sup>5</sup> which state that:

“Training package developers are responsible for mapping units and determining their equivalence status.

- Where a unit of competency is superseded and the workplace outcome of the unit has changed, the superseding unit must be deemed ‘Not Equivalent’.
- The workplace outcome can be determined to have changed when the skills and knowledge (reflected through the elements, performance criteria and assessment requirements) required to achieve the workplace outcome of the superseded and superseding units cannot be mapped to each other.
- Determinations of ‘Not Equivalent’ may also be used to support licensing, regulatory, legislative or certification requirements. The equivalence table must list the units of competency and clearly identify the status of each unit according to the following categories:
  - **Equivalent** - the workplace outcomes of the superseded and superseding units are equivalent
  - **Not Equivalent** - the workplace outcomes of the superseded and superseding units are not equivalent (refer Section 2.5)
  - **Newly created** - the unit has been created to address an emerging skill or task required by industry
  - **Deleted** - the unit is deleted as the skill or task is no longer required by industry”

If two units are determined to be equivalent, an RTO can recognise an ‘old’ unit as satisfying the outcomes of a new unit (including RPL). However, an RTO cannot assume that no changes are needed for the training and assessment of the new unit.

If a unit of competency is not equivalent to its predecessor, this means that there are significant changes in the new unit. These changes would need to be addressed, for example, through training, providing additional RPL evidence.

---

<sup>5</sup> The policy is available from the Department of Education, Skills and Employment website at <<https://www.dese.gov.au/skills-support-individuals/resources/training-package-products-policy>>

## Qualifications

'Training package developers are responsible for mapping qualifications and determining their equivalence status.

- Where a qualification is superseded and the occupational outcome and/or the AQF level of the qualification has changed, the superseding qualification must be deemed 'Not Equivalent'.
- The occupational outcome can be determined to have changed when the skills and knowledge required to achieve the occupational outcome of the superseded and superseding qualifications cannot be mapped to each other.
- Determinations of 'Not Equivalent' may also be used to support licensing, regulatory, legislative or certification requirements.
- The equivalence table must list the qualifications and clearly identify the equivalence status of each qualification according to the following categories:
  - **Equivalent** - the occupational outcomes of the superseded and superseding qualifications are equivalent
  - **Not Equivalent** - the occupational outcomes of the superseded and superseding qualifications are not equivalent
  - **Newly Created** - the qualification has been created to address an original skill or occupational outcome required by industry
  - **Deleted** - the qualification is deleted as the skill or occupational outcome is no longer required by industry.'

## Superseded and deleted training package products

A product is **superseded** when another training product replaces it. This happens if the skill needs of industry change so training package developers need to alter a qualification, unit of competency or skill set.

A product is **deleted** when another training product does not replace it. This happens if industry determines that there is no longer sufficient demand for a qualification, unit of competency or skill set.

---

---

The rules around the use of superseded and deleted products for training purposes are in Clause 1.26 of the *Standards for Registered Training Organisation (RTOs) 2015*.

ASQA has a useful guide that explains how to manage the transition from superseded and deleted training products. This can be accessed from: <  
<https://www.asqa.gov.au/standards/about-standards-rtos-2015/standard-one/clauses-1.26-1.27>>

---

---

## Coding conventions

There are agreed conventions for the national codes used for training packages and their components.

### Training package codes

Each training package has a unique three-letter national code assigned when the Training Package is endorsed, for example, **PPM** is the code used for the *Pulp and Paper Manufacturing Training Package*.

---

---

The practice of assigning two numbers to identify the year of endorsement is no longer used as it is not consistent with national policy.

---

---

### Qualification codes

Within the training package, each qualification has a unique eight-character code that is used to identify the qualification, along with its title. The table explains the format of a qualification code for the *Pulp and Paper Manufacturing Training Package*.

Identifiers	Description	Example for PPM20116
<b>Training package identifier</b>	Three letters	= PPM
<b>AQF level identifier</b>	One number identifying the Australian Qualifications Framework level	= 2
<b>Sequence identifier</b>	Two numbers identifying the sequence of the qualification at that level in the Training Package	= 01
<b>Version identifier</b>	Two numbers identifying the year in which the qualification was endorsed.	= 21

## Unit of competency codes

Within the training package, each unit of competency has a unique code (up to 12 characters). The code, as well as the title, is used to identify the unit of competency. The table explains the format of a unit of competency code for the *PPM Pulp and Paper Manufacturing Training Package*.

Identifiers	Description	Example for PPMPUL201X
<b>Training package identifier</b>	Three letters	= PPM (Pulp and Paper Manufacturing)
<b>Sector identifier</b>	Three letters	= PUL (Pulping Operations)
<b>AQF level indicator</b>	One number that is a guide as to the type and depth of skills and knowledge described in the unit. This identifier is loosely tied to the Australian Qualifications Framework and can range from 1 (indicates Certificate I) to 8 to (indicates Graduate Certificate/Graduate Diploma)	= 2
<b>Sequence identifier</b>	The final numbers identify the sequence of the unit in the particular unit sector and AQF level, and allows each unit to have a unique code	= 01
<b>Cross sector unit</b>	Cross-sector units must have 'X' as the final character	= X

---

---

Under the *Standards for Training Packages*, units of competency no longer include a version identifier (e.g. A, B, C). In training.gov.au the release history of each unit is shown in both the web view of the unit and in the unit modification history and mapping tables.

---

---

## Key work and training requirements in the industry

In the context of the three main operational levels there is a distinct focus on the following key areas for training:

### Safety

The nature of the processes involved demand that safety training is a vital part of every job role, particularly for induction of new entrants to the workplace. Training needs typically include hazard identification and control, risk mitigation, safe work practices, pre-start and operational checks, personal protective and safety equipment, housekeeping, emergency and evacuation response and incident reporting. Safety extends to environmentally sustainable work practices where skill development focusses on optimisation of resources such as water and energy, recycling, effluent control, and skills for environmental monitoring and compliance.

In addition, many pulp and paper manufacturing sites are recognised by Safe Work Australia as Major Hazard Facilities and are required to comply with Commonwealth, state and territory workplace health and safety legislation, regulations and codes of practice in order to maintain their licence.

Skill standards in PPM support and are utilised to meet safety, quality and environmental compliance requirements.

### Quality

Product quality is a prime focus for pulping, since pulp is a resource used for the manufacture of paper. Paper manufacturers produce products to ever tighter tolerances and finishes in order to satisfy increasingly stringent demands of consumers.

Support operators charged with monitoring and controlling production equipment and processes need skills to analyse the impact of process variables (e.g. altering critical process inputs and line speed) on product quality. They need to identify product faults and rectify them by making adjustments to the production process, whilst being aware of the potential impact on other parts of the downstream processes. They need good communication skills to record shift data and convey information upstream and downstream.

Operator/technicians set and start up equipment. They may conduct sampling and testing to ensure products meet required specifications. Key training requirements include measurement and testing for product conformance.

### Productivity

At production support level, operator training is strongly focussed on process variables that impact on productivity. As with quality targets, operators make appropriate adjustments to optimise production. They also need skills to conduct routine maintenance on plant and equipment, as part of a planned maintenance regime to achieve maximum run time.

Planned and unplanned shutdowns can have a significant impact on production output. Operator/technicians need skills to conduct planned shutdowns efficiently according to schedule. They also need skills to respond to unplanned shutdowns, identifying symptoms and analysing the cause and potential impact of these stoppages.

Senior operator/production specialists are highly skilled technicians. They require training in troubleshooting, fault-finding and diagnostics to accurately analyse process and equipment problems that can impact on productivity and quality.

Development of problem solving skills is vital for the continuous operation of machinery and processes. Variables can include duration, frequency and continuity, deterioration rates, product quality issues, nature, location and impact of the problem on production. Actions or responses can include rectifying the problem within a given level of responsibility, making process adjustments, or reporting the problem to an authorised person.

## **Communication**

Effective interpersonal and communication skills are essential to every job role and therefore a key training requirement for industry. They relate to many aspects of work including orientation to the organisation, performing operational processes, following procedures and instructions, interacting with workers and supervisors, quality assurance, problem solving and troubleshooting, workplace health and safety, (WHS), taking part in meetings, undertaking training and training others on the job.

Employees at all levels need to communicate effectively with a range of individuals and groups including team leaders, supervisors and managers, production and technical staff, maintenance, WHS and quality assurance personnel.

Core interpersonal skills include verbal and non-verbal language, hand or other agreed signals, eye contact, active listening, questioning and use of electronic communication devices, such as two-way radios.

Key training for operators and support staff relates to reading and interpreting routine information, including work and quality procedures, work instructions, manuals, checklists, process and instrument diagrams and illustrations, signage, and safety data sheets. Supervisors, managers and specialist technical staff need advanced skills to critically read, analyse and evaluate procedures, guidelines and reports.

Writing skills for operators and technicians including recording production, process and quality information on proforma, reporting hazards and incidents, faults and downtime. Higher level written skills are needed by supervisors, managers and specialist technical staff, who are required to produce reports for a range of issues including production output, plant and equipment operation, risk assessments, workplace inspections, maintenance and testing, training, environmental monitoring.

## Implementation information

### Industry sectors

The *PPM Pulp and Paper Manufacturing Training Package* includes the following industry specific sectors:

<b>Pulping and Papermaking</b>	
Chemical preparation	Pulping operations
Chemical recovery operations	Recovered fibre operations
De-Inking Operations	Steam generation
Dry end operations	Stock preparation
Electrical power generation	Water services
Paper finishing and converting	Wet end operations
Primary resource operations	

The *PPM Pulp and Paper Manufacturing Training Package* Units of Competency are broken down into the following sectors:

CPR	Chemical preparation	PRV	Production Support
CSK	Computer/Process control equipment	PUL	Pulping operations
DEO	Dry end operations	QAS	Quality Assurance
DIK	De-Inking operations	REC	Chemical recovery operations
ENV	Environmental monitoring	RES	Primary resource operations
EPG	Electrical power generation	SPR	Stock preparations operations
FCO	Paper finishing and converting operations	STM	Steam generation
HWP	Handling and preparing <b>recovered fibre</b> for pulp production	WAR	Warehousing and dispatch
IND	Pulp and Paper Industry	WAS	Water services
MHV	Load shifting	WEO	Wet end operations
PLN	Planning and organising	WHS	Workplace health and safety
PRM	Preventative maintenance	WPO	Recovered fibre operations
PRS	Problem solving		

## Occupational outcomes of qualifications

The units of competency, skill sets and qualifications in the *PPM Pulp and Paper Manufacturing Training Package* cover a diverse range of work activities within the industry.

The following table lists the qualifications and provides an overview of occupational outcomes for each qualification.

Qualification	Overview of occupational outcomes
<p><b>Diploma (AQF level 5)</b></p> <ul style="list-style-type: none"> <li>▪ PPM50121 Diploma of Pulp and Paper Operations Management</li> </ul>	<p>The Diploma qualification reflects the role of individuals who apply integrated technical and theoretical concepts in a broad range of contexts and undertake skilled or paraprofessional work. The Diploma is suitable for supervisors, managers and specialist job roles. The Diploma serves also as a pathway for further learning.</p>
<p><b>Certificate IV</b></p> <ul style="list-style-type: none"> <li>▪ PPM40121 Certificate IV in Pulp and Paper Operations</li> </ul>	<p>The Certificate IV qualification reflects the role of individuals to undertake work in varied contexts using a broad range of specialised knowledge and skills. Certificate IV is suitable for senior workers and technicians who supervise or lead teams. Certificate IV also serves as a pathway for further learning.</p>
<p><b>Certificate III</b></p> <ul style="list-style-type: none"> <li>▪ PPM30121 Certificate III in Pulp and Paper Operations</li> </ul>	<p>The Certificate III qualification reflects the role of individuals required to apply a broad range of knowledge and skills in varied contexts and undertake skilled work. Certificate III is suitable for experienced operators, technicians and trades workers. Certificate III serves also as a pathway for further learning.</p>
<p><b>Certificate II</b></p> <ul style="list-style-type: none"> <li>▪ PPM20121 Certificate II in Pulp and Paper Operations</li> </ul>	<p>The Certificate II qualification reflects the role of individuals who undertake mainly routine work. Generally, Certificate II is used as an induction into the industry and is aligned to operator, production and assistant roles. Certificate II serves also to offer a pathway for further learning.</p>

## Occupational outcomes for industry sectors

Qualification	PPM20121 Certificate II in Pulp and Paper Operations	PPM30121 Certificate III in Pulp and Paper Operations	PPM40121 Certificate IV in Pulp and Paper Operations	PPM50121 Diploma of Pulp and Paper Operations Management
<b>Level</b>	Operator/production support	Operator/technician	Senior operator/production specialist	Supervision, line & function management.
<b>Focus</b>	Monitor & control equipment & processes	Start-up & shut down equipment & processes	Troubleshoot & rectify	Oversee & supervise/ manage operations
<b>Job roles</b>	<p>Production support employee in:</p> <ul style="list-style-type: none"> <li>▪ hydrapulping</li> <li>▪ pulping machine operations</li> <li>▪ machine operations</li> <li>▪ pulp handling</li> <li>▪ bale handling</li> <li>▪ fibre preparation</li> <li>▪ stock preparation</li> <li>▪ machine operation</li> <li>▪ fibre preparation</li> <li>▪ stock preparation</li> <li>▪ de-inking operations</li> <li>▪ winding operations</li> <li>▪ dryer operation</li> <li>▪ bale handling</li> <li>▪ folder operation</li> <li>▪ rewinding operations</li> <li>▪ wrapping machine ops</li> <li>▪ plant support</li> <li>▪ wet end support</li> <li>▪ dry end support</li> <li>▪ paper products</li> </ul>	<p>Production operator or technician in:</p> <ul style="list-style-type: none"> <li>▪ pulping operations</li> <li>▪ waste paper and fibre recycling</li> <li>▪ primary resources</li> <li>▪ stock preparation &amp; handling</li> <li>▪ fibre preparation</li> <li>▪ stock preparation &amp; handling</li> <li>▪ de-inking operations</li> <li>▪ fibre preparation</li> <li>▪ wet end operations</li> <li>▪ dry end operations</li> <li>▪ finishing &amp; converting</li> <li>▪ coating systems operator</li> <li>▪ winder/reel &amp; roll operations</li> <li>▪ packaging/folding</li> <li>▪ dry end testing</li> </ul>	<p>Production specialist in:</p> <ul style="list-style-type: none"> <li>▪ pulping operations</li> <li>▪ waste paper and fibre recycling</li> <li>▪ primary resources operations</li> <li>▪ stock preparation &amp; handling</li> <li>▪ fibre preparation</li> <li>▪ fibre/stock preparation &amp; handling</li> <li>▪ de-inking operations</li> <li>▪ wet end operations</li> <li>▪ dry end operations</li> <li>▪ coated paper treatments</li> <li>▪ finishing &amp; converting</li> <li>▪ winding &amp; rewinding</li> <li>▪ quality testing</li> </ul>	<p>Supervisor, manager or coordinator, such as:</p> <ul style="list-style-type: none"> <li>▪ line supervisor</li> <li>▪ production manager</li> <li>▪ senior operator (all sections)</li> <li>▪ crew/team leader</li> <li>▪ support operations coordinator</li> <li>▪ quality assurance specialist</li> <li>▪ sustainability coordinator/ manager</li> <li>▪ project coordinator / manager</li> <li>▪ training coordinator</li> </ul>
	<p><b>Common specialisations</b></p> <p>Electricity generation/turbine operations assistant            Steam generation/boiler assistant            Water services assistant            Chemical recovery assistant</p>	<p><b>Common specialisations</b></p> <p>Electricity generation/turbine operator            Steam generation/boiler operator            Water services operator            Chemical recovery operator</p>	<p><b>Common specialisations</b></p> <p>Electricity generation/turbine senior operator            Steam generation/boiler senior operator            Chemical recovery senior operator</p>	

Skill sets in the PPM Pulp and Paper Manufacturing Training Package V3.0.	
Code	Title
PPMSS00011	Pulp and Paper Manufacturing Industry Induction Skill Set
PPMSS00012	Chemical Recovery Skill Set
PPMSS00013	Converting Paper Products Skill Set
PPMSS00014	Paper Finishing and Converting Skill Set
PPMSS00015	Papermaking Dry End Operations Skill Set
PPMSS00016	Papermaking Wet End Operations Skill Set
PPMSS00017	Pulping Stock Preparation Skill Set
PPMSS00018	Warehousing Paper Products Skill Set
PPMSS00019	Recovered Fibre Operations Skill Set
PPMSS00020	De-inking Operations Skill Set
PPMSS00021	Pulp and Paper Manufacturing Management and Leadership Skill Set

## Key features of the training package and the industry that will impact on the selection of training pathways

A *pathway* is the route or course of action taken to get to a destination. A *training pathway* describes learning activities or experiences used to attain the competencies needed to achieve career goals.

### AQF Qualifications Pathways Policy Requirements

The AQF Qualifications Pathways Policy,<sup>6</sup> as part of the Australian Qualifications Framework, supports students' lifelong learning by aiming to:

- recognise the multiple pathways that students take to gain AQF qualifications and that learning can be formal and informal
- enhance student progression into and between AQF qualifications, both horizontally (across AQF qualifications at the same level) and vertically (between qualifications at different levels)
- support the development of clear pathways in the design of qualifications.

### Multiple pathways to gain qualifications

In line with requirements of the *AQF Pathways Policy*, the *PPM Pulp and Paper Manufacturing Training Package* allows for individuals to follow a training and assessment pathway, or recognition of prior learning (RPL) pathway (or combinations of each pathway) to complete the units of competency needed to be awarded a qualification. These pathways are shown in the following diagram.

---

<sup>6</sup> The AQF Qualifications Pathways Policy is available to download from the Australian Qualifications Framework website: <<http://www.aqf.edu.au/aqf/in-detail/aqf-policies/>>

## **Training and assessment pathway**

Training and assessment pathways usually incorporate a mix of formal, structured training and workplace experience to build skills and knowledge together with formative and summative assessment activities through which individuals can demonstrate their skills and knowledge.

Structured training and assessment courses may be conducted:

- face-to-face
- by distance or e-learning
- in the workplace
- by combining face-to-face, distance, e-learning and/or workplace delivery.

## **RPL pathway**

RPL acknowledges that individuals may already have the skills and knowledge required for all or part of a qualification. Individuals can gain credit towards a qualification by providing evidence of their current competency, which may have been gained through formal or informal learning, work experience or general life experience.

## **Australian apprenticeships/traineeships**

Apprenticeships and traineeships are legally binding training arrangements, between an employer and employee, which combine training with paid employment. Australian Apprenticeships are delivered through a cooperative arrangement between the Australian Government, state and territory governments, industry employers and RTOs. Each State or Territory Training Authority (STA/TTA) is responsible for apprenticeships and traineeships in its jurisdiction.<sup>7</sup>

Given the multiple entry points into the industry, all Certificate III, Certificate IV and Diploma qualifications in the *PPM Pulp and Paper Manufacturing Training Package* are suitable for delivery as an Australian Apprenticeship/Traineeship.

---

<sup>7</sup> The Australian Apprenticeships website has information about traineeships and apprenticeships. Visit <[www.australianapprenticeships.gov.au](http://www.australianapprenticeships.gov.au)> for more information. STA contact details are provided in the Links section of this Implementation Guide.

## **VET for secondary students**

Vocational Education and Training (VET) programs enable students to acquire workplace skills and knowledge while they are still at school. Successful completion of a VET program provides a student with a nationally recognised AQF qualification (or particular units of competency), usually as part of a senior secondary certificate. VET programs are packaged and delivered in various ways across Australia. The three main delivery arrangements used are:

- schools hold RTO status
- school sectoral bodies (such as Boards of Studies or regional offices) hold RTO status on behalf of a group of schools
- schools work in partnership with RTOs.

Qualifications in the *PPM Pulp and Paper Manufacturing Training Package* are not considered suitable as VET programs for secondary students. Pulp and paper facilities have a range of equipment and machinery to support integrated and continuous manufacturing processes. The fixed, complex and potentially hazardous nature of machinery and systems lends itself to training in a workplace.

Training package users should contact the relevant STA to confirm whether a particular qualification can be delivered in VET programs for secondary students.

## Progression between qualifications

Qualifications have been designed to allow learners to progress into and between qualifications. The following diagram shows the various options for movement into and between qualifications in the *PPM Pulp and Paper Manufacturing Training Package*.

## Entry requirements for qualifications

Any specific entry requirement for qualifications in the *PPM Pulp and Paper Manufacturing Training Package* are included in each qualification. These entry requirements ensure an individual has the skills and knowledge required to undertake the qualification.

No qualifications in the *PPM Pulp and Paper Manufacturing Training Package* Version 3.0 contain specific entry requirements.

## Credit arrangements for qualifications

<b>Credit arrangements for qualifications in the PPM Pulp and Paper Manufacturing Training Package V3.0</b>		
<b>Code</b>	<b>Title</b>	<b>Credit arrangement details</b>
PPM20121	Certificate II in Pulp and Paper Operations	At the time of endorsement of this Training Package no national credit arrangements exist.
PPM30121	Certificate III in Pulp and Paper Operations	At the time of endorsement of this Training Package no national credit arrangements exist.
PPM40121	Certificate IV in Pulp and Paper Operations	At the time of endorsement of this Training Package no national credit arrangements exist.
PPM50121	Diploma of Pulp and Paper Operations Management	At the time of endorsement of this Training Package no national credit arrangements exist.

## Selecting electives to enable different occupational outcomes

Qualifications include elective units that should be selected according to the needs of the learner. The choice of elective units may be negotiated between the learner and/or employer, and the RTO conducting the training program.

Some qualifications allow electives to be selected from within the training package, and also from other training packages and accredited courses. Wherever they are selected from, elective units should provide a vocational focus for the qualification and be relevant to the:

- AQF qualification level
- job role
- work outcomes
- local industry needs
- area of specialisation (if required).

<b>PPM Pulp and Paper Manufacturing Training Package V3.0. qualifications with specialisations</b>		
<b>Qualification</b>	<b>Specialisation</b>	<b>Mandatory elective choices</b>
PPM30121 Certificate III in Pulp and Paper Operations	Pulping	A minimum of 3 electives from Group A must be selected for the award of the Certificate III in Pulp and Paper Operations (Pulping Operations)
PPM30121 Certificate III in Pulp and Paper Operations	Papermaking	A minimum of 3 electives from Group B must be selected for the award of the Certificate III in Pulp and Paper Operations (Papermaking Operations).

## Training package delivery and assessment

RTOs must ensure that both training and assessment complies with the relevant standards<sup>8</sup>. In general terms, training and assessment must be conducted by individuals who:

- have the necessary training and assessment competencies
- have the relevant vocational competencies at least to the level being delivered or assessed
- can demonstrate current industry skills directly relevant to the training/assessment being delivered
- continue to develop their VET knowledge and skills, industry currency and trainer/assessor competence.

---

---

Assessors of some units of competency may have to meet requirements in addition to those of the *Standards for Registered Training Organisations (RTOs) 2015/AQTF* requirements for assessors.

Check the *Assessment Conditions* section (provided in the assessment requirements that accompany each unit of competency) for specific assessor requirements.

---

---

Some specific considerations in relation to the *PPM Pulp and Paper Manufacturing Training Package* are included below.

---

<sup>8</sup> RTOs regulated by Australian Skills Quality Authority (ASQA) must comply with the Standards for Registered Training Organisations (RTOs) 2015. RTOs regulated by the Western Australian Training Accreditation Council (WA TAC) or the Victorian Registration and Qualifications Authority (VRQA) must check with their regulator for current requirements.

## Amount of training and volume of learning

RTOs must create a training and assessment strategy for delivery of AQF qualifications that reflects the complexity required of that qualification. An essential consideration in the training and assessment strategy is to ensure the amount of training provided is sufficient so that the learner can:

- meet the requirements of each qualification
- gain the skills and knowledge specified in the units of competency.

The amount of training involves all the formal learning activities provided to a learner, for example, classes, tutorials, field-work, lectures, online or self-paced study, as well as workplace learning. Training should take into account the need to allow learners to reflect on and absorb the knowledge, to practise the skills in different contexts and to learn to apply the skills and knowledge in the varied environments that the 'real world' offers before being assessed.

AQF qualifications differ in terms of their complexity. The complexity of a qualification is defined by:

- the breadth and depth of the knowledge
- skills required
- application of knowledge and skills, and
- the AQF volume of learning.

The AQF volume of learning describes how long a learner, without any competencies identified in the qualification, would normally take to develop all the required skills and knowledge at that qualification level. The volume of learning includes all teaching, learning and assessment activities that are undertaken by the typical student to achieve the learning outcomes of the particular qualification.<sup>9</sup>

---

<sup>9</sup> Information sourced from Australian Government, ASQA, *Fact Sheet: Determining the amount of training*, <[https://www.asqa.gov.au/sites/g/files/net2166/f/FACT\\_SHEET\\_Amount\\_of\\_training.pdf](https://www.asqa.gov.au/sites/g/files/net2166/f/FACT_SHEET_Amount_of_training.pdf)> viewed June 2017:

## Access and equity considerations

An RTO's training and assessment practices should minimise any barriers to training and assessment by considering the individual needs of learners. Some needs that could affect an individual's participation in training and assessment include:

- age
- gender
- cultural or ethnic background
- disability
- sexuality
- language, literacy or numeracy skills
- employment status
- geographical location.

While the design and content of this training package supports equitable access and progression for all learners, it is the responsibility of the RTO delivering and assessing qualifications to:

- ensure that training and assessment processes and methods do not disadvantage individuals
- determine the needs of individuals and provide access to any educational and support services necessary.

Some practical ways that access and equity issues could be addressed include:

- modifying assessment processes for learners located at a distance from a campus location
- checking that materials are culturally appropriate for learners and amending, as necessary
- making sure that activities and assessments are suitable for the language, literacy and numeracy skill levels of learners (while meeting the requirements of the unit of competency).

## Reasonable adjustment for learners with disabilities

A legislative framework underpins and supports the delivery of vocational education and training across Australia. Under this framework, RTOs must take steps to provide enrolled learners with recognised disabilities access to same training as learners without disabilities.

In some cases, 'reasonable adjustments' are made to the training environment, training delivery, learning resources and/or assessment tasks to meet the needs of a learner with a disability. An adjustment is 'reasonable' if it can accommodate the learner's particular needs, while also taking into account factors such as:

- the views of the learner
- the potential effects of the adjustment on the learner and others
- the costs and benefits of making the adjustment to the RTO.

Adjustments must:

- be discussed and agreed to by the learner with a disability
- benefit the learner with a disability
- maintain the competency standards
- be reasonable to expect in a workplace.<sup>10</sup>

---

<sup>10</sup> The *Disability Standards for Education, 2005* and accompanying guidance notes can be downloaded at <http://education.gov.au/disability-standards-education>.

## Foundation skills in units of competency

Foundation skills are the 'non-technical skills' that individuals need so they can participate effectively in workplaces, in education and training, and in their communities.

Under the *Standards for Training Packages 2012*, training package developers must include foundation skills in units of competency, however, the method and format for doing this has not been prescribed.

In the *PPM Pulp and Paper Manufacturing Training Package* (and all training packages developed by Skills Impact) the foundation skills are shown in a table format as shown in the following example.

<b>Foundation Skills</b>	
This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.	
<b>Skill</b>	<b>Description</b>
Learning:	<ul style="list-style-type: none"><li>▪ Develops and uses personal organisation systems such as notebooks, folders and checklists</li></ul>
Reading:	<ul style="list-style-type: none"><li>▪ Interpret workplace health and safety and standard operating procedures, and maintenance schedules</li></ul>
Writing:	<ul style="list-style-type: none"><li>▪ Complete accurate basic records for system operation, production outcomes and problems with environmental release</li></ul>
Oral communication:	<ul style="list-style-type: none"><li>▪ Provide clear basic information about problems or variations with process, products and equipment</li></ul>
Numeracy:	<ul style="list-style-type: none"><li>▪ Interpret basic numerical settings on instruments, gauges and data recording equipment</li><li>▪ Monitor, assess and interpret production data</li><li>▪ Record basic numerical data for test results and production outcomes</li></ul>

---

---

Only those foundation skills that **ARE NOT** explicit in the performance criteria appear in the foundation skills mapping table.

The foundation skills are an integrated part of the unit for training and assessment purposes. Therefore it is important that users look closely at both the foundation skills and the performance criteria, to make sure that **all** foundation skills are considered during delivery and assessment.

---

---

## Key legislative implications for implementation

Regulatory or licensing requirements are identified in the *Application* field of units of competency and the *Qualification description* field in qualifications. If there are no particular requirements, then the statement 'No occupational licensing, legislative or certification requirements apply to this unit/qualification at the time of publication' will appear.

### Health and safety requirements

In general, health and safety requirements are addressed in specific work health and safety units of competency or embedded in particular units of competency in the *PPM Pulp and Paper Manufacturing Training Package*.

Work health and safety is a major focus for the industry and consequently features strongly in all industry training. All units and qualifications include a significant component for safety, which must be included in learning and assessment.

Commonwealth, State and Territory legislation and regulations, as well as organisational safety policies and procedures, encompass areas such as the following:

- personal protective equipment and clothing
- safe work practices
- safety equipment
- first aid equipment
- firefighting equipment
- hazard and risk control
- fatigue management
- handling and elimination of hazardous chemicals, materials and substances
- manual handling including shifting, lifting and carrying

Many pulp and paper manufacturing sites are recognised by Safe Work Australia as Major Hazard Facilities and are required to comply with Commonwealth, state and territory workplace health and safety legislation, regulations and codes of practice in order to maintain their licence.

RTOs must make sure that delivery of health and safety content is contextualised to comply with the relevant legislation in the state/territory in which they are training. Details of state and territory regulators, together with some useful workplace health and safety organisations, have been included in the following tables.

### State/Territory Regulators

State/Territory	Regulating Body	Website
<b>Australian Capital Territory</b>	WorkSafe ACT	<a href="http://www.worksafe.act.gov.au">www.worksafe.act.gov.au</a>
<b>New South Wales</b>	SafeWork NSW	<a href="http://safework.nsw.gov.au">safework.nsw.gov.au</a>
<b>Northern Territory</b>	NT WorkSafe	<a href="http://worksafe.nt.gov.au">worksafe.nt.gov.au</a>

<b>Queensland</b>	Workplace Health and Safety Queensland (WHSQ)	<a href="http://worksafe.qld.gov.au">worksafe.qld.gov.au</a>
<b>South Australia</b>	SafeWork SA	<a href="http://safework.sa.gov.au">safework.sa.gov.au</a>
<b>Tasmania</b>	WorkSafe Tasmania	<a href="http://worksafe.tas.gov.au">worksafe.tas.gov.au</a>
<b>Victoria</b>	WorkSafe Victoria	<a href="http://worksafe.vic.gov.au">worksafe.vic.gov.au</a>
<b>Western Australia</b>	WorkSafe WA	<a href="http://commerce.wa.gov.au/workSafe">commerce.wa.gov.au/workSafe</a>

### National organisations

<b>Name</b>	<b>Function</b>	<b>Website</b>
Safe Work Australia	Leads the development of national policy to improve work health and safety and workers' compensation arrangements across Australia.	<a href="http://safeworkaustralia.gov.au">safeworkaustralia.gov.au</a>
Comcare	The Comcare scheme provides rehabilitation and workers' compensation and occupational health and safety arrangements for Australian Government employees and for the employees of organisations which self-insure under the scheme.	<a href="http://comcare.gov.au">comcare.gov.au</a>

## Other legislative requirements

In several states licences are required for a range of occupations. These are aimed at securing consistent operating standards for individuals in high risk activities, such as boiler operations.

Where units of competency contain regulatory information or align to licensing, RTOs, trainers and assessors must be suitably qualified to deliver the training. This usually means that trainers and assessors must have the relevant vocational competencies, at least to the level being delivered or assessed, and can demonstrate current industry skills directly relevant to the training/assessment being undertaken.

Licensing/registration requirements for particular job functions described in units of competency vary significantly. There are variations between States and Territories, and between individual workplaces, depending on the equipment and processes being used.

Organisations delivering training must determine the applicable licensing requirements associated with the equipment being used, and in the relevant States and Territories.

To assist this process, units of competency will contain one of the following statements:

In the case of no licensing requirements:

*No licensing, legislative, regulatory, or certification requirements apply to this unit at the time of publication.*

In cases where a licence, certification or other regulatory/legislative compliance is required:

*Licensing, legislative, regulatory or certification requirements apply to this unit in some states and territories at the time of publication, and may differ according to jurisdiction.*

In the *PPM Pulp and Paper Manufacturing Training Package*, both the boiler and turbine operator units of competency refer the user to the appropriate High Risk Work Licence, in the event the equipment being operated is covered by those licences.

If the use of load shifting equipment is required as an adjunct to performing activities in a unit, the relevant units of competency for load shifting should also be accessed and are to be met concurrently or prior to the achievement of this unit.

<b>PPM Pulp and Paper Manufacturing Training Package V3.0. qualifications and units with legislative/regulatory/licensing requirements</b>	
<b>Qualification/unit</b>	<b>Description of requirement</b>
PPM20121 Certificate II in Pulp and Paper Operations	No licensing, legislative or certification requirements apply to this qualification at the time of publication, however some imported units in the elective bank relate to equipment use that require a high risk work licence. These units must be implemented in line with the parent training package.
PPM30121 Certificate III in Pulp and Paper Operations	No licensing, legislative or certification requirements apply to this qualification at the time of publication, however some imported units in the elective bank relate to equipment use that require a high risk work licence. These units must be implemented in line with the parent training package.
PPM40121 Certificate IV in Pulp and Paper Operations	No licensing, legislative or certification requirements apply this qualification at the time of publication, however a high risk work licence may be required depending on the type of equipment used for the steam and power generation unit sectors.
PPMEPG401 Troubleshoot and rectify power generation system	Licensing requirements apply to this unit where the turbine equipment falls under the category for which high risk work licence is required. Users are advised to check with the relevant regulatory authority for current requirements.
PPMSTM401 Troubleshoot and	Licensing requirements apply to this unit where the boiler equipment falls under the category for which high risk work licence is required. Users are

rectify boiler plant systems	advised to check with the relevant regulatory authority for current requirements.
------------------------------	---

---

---

Users of this Implementation Guide are advised to keep up-to-date with changes to legislative requirements by checking with the relevant regulatory authority.

---

---

## Training and assessing environments

The Assessment Conditions section of the Assessment Requirements states whether assessment must take place in a real workplace or whether an environment that 'accurately represents workplace conditions' can be used.

An environment that accurately represents workplace conditions is one which offers real life working conditions with the actual characteristics of that working environment, including equipment, interactions with other people and completion of tasks within timeframes, if these are requirements of the working environment.

Sometimes conducting training and assessment in a real workplace is not possible or practical. If conducting training and assessment in a non-workplace environment, trainers and assessors must make sure that learners have opportunities to complete tasks:

- to the quality standards, and within the acceptable timeframes, required by the industry
- in a manner that meets the industry's safety standards.

## Legal considerations for learners in the workplace/on placements

Legal requirements that apply to specific sectors covered by this Training Package vary across each state and territory and can change from time to time. Contact the relevant state or territory department/s to check. STA contact details are provided in the Links section of this Implementation Guide. The Fair Work Ombudsman has some general guidelines and fact sheets about unpaid work.<sup>11</sup>

Work placements should always involve the appropriate supervision and guidance from individuals in the workplace and trainers and assessors from the RTO and must adhere to required legislation that applies in the jurisdiction e.g. learners must be supplied with the appropriate personal protective equipment (PPE) and training on how to use the PPE effectively prior to undertaking tasks that include health and safety risks.

## Resources and equipment lists

RTOs must make sure that all resources and equipment required to train and assess units of competency are available. Details of specific resources, including equipment and materials essential for assessment, are listed in the Assessment Conditions sections of Assessment Requirements documents. Where units of competency require assessment in the workplace, the workplace must include the full range of equipment required to do the task, as listed in the Assessment Conditions.

---

<sup>11</sup> Fair Work Ombudsman: < <http://www.fairwork.gov.au/how-we-will-help/templates-and-guides/fact-sheets/unpaid-work>>

## Training Package developer's quality assurance process for Companion Volumes

Companion Volumes are developed in consultation with industry representatives, trainers and assessors, members of Industry Reference Committees (IRCs) and their representatives. These key stakeholders provide and review content to ensure that information is relevant and useful.

The Companion Volumes undergo continuous improvement in response to feedback lodged on the Skills Impact website ([skillsimpact.com.au/contact](https://skillsimpact.com.au/contact).)

## Appendix 1: Components – Qualifications, Skill Sets, Units of Competency

### Qualifications in the PPM Pulp and Paper Manufacturing Training Package V3.0

Qualifications in the PPM Pulp and Paper Manufacturing Training Package V3.0.	
Code	Title
PPM20121	Certificate II in Pulp and Paper Operations
PPM30121	Certificate III in Pulp and Paper Operations
PPM40121	Certificate IV in Pulp and Paper Operations
PPM50121	Diploma of Pulp and Paper Operations Management

### Skill sets in the PPM Pulp and Paper Manufacturing Training Package V3.0

Skill sets in the PPM Pulp and Paper Manufacturing Training Package V3.0.	
Code	Title
PPMSS00011	Pulp and Paper Manufacturing Industry Induction Skill Set
PPMSS00012	Chemical Recovery Skill Set
PPMSS00013	Converting Paper Products Skill Set
PPMSS00014	Paper Finishing and Converting Skill Set
PPMSS00015	Papermaking Dry End Operations Skill Set
PPMSS00016	Papermaking Wet End Operations Skill Set
PPMSS00017	Pulping Stock Preparation Skill Set
PPMSS00018	Warehousing Paper Products Skill Set
PPMSS00019	Recovered Fibre Operations Skill Set
PPMSS00020	De-inking Operations Skill Set
PPMSS00021	Pulp and Paper Manufacturing Management and Leadership Skill Set

## Units of Competency in the PPM Pulp and Paper Manufacturing Training Package V3.0

Units of competency in the PPM Pulp and Paper Manufacturing Training Package V3.0.	
Code	Title
PPMCPR301	Operate chemical systems
PPMCSK301	Operate process control equipment
PPMDEO201	Monitor and control dry end operations
PPMDEO301	Perform dry end operations
PPMDEO401	Troubleshoot and rectify dry end systems
PPMDIK201	Monitor and control de-inking operations
PPMDIK301	Perform de-inking operations
PPMDIK401	Troubleshoot and rectify de-inking operations
PPMENV201	Identify and monitor environmental discharges and emissions
PPMENV401	Monitor and control environmental hazards
PPMEPG201	Monitor and control power generation systems
PPMEPG301	Perform power generation operations
PPMEPG401	Troubleshoot and rectify power generation system
PPMFCO201	Monitor and control paper finishing and converting operations
PPMFCO301	Perform paper finishing and converting operations
PPMFCO401	Troubleshoot and rectify paper finishing and converting systems
PPMHRF201	Pack and dispatch recovered fibre
PPMHRF202	Receive recovered fibre
PPMHRF203	Unload recovered fibre
PPMIND201	Apply principles of pulp and papermaking to work practices
PPMIND202	Work effectively in the pulp and paper industry
PPMIND501	Evaluate emerging technologies and processes
PPMMHV201	Operate mobile crane
PPMPLN401	Implement production plan
PPMPRM201	Undertake operator level preventative maintenance
PPMPRM202	Perform lubrication
PPMPRS301	Identify and rectify operational problems
PPMPRS401	Solve systemic problems
PPMPRV201	Operate ancillary equipment
PPMPRV301	Co-ordinate and direct clothing changes
PPMPUL201	Monitor and control pulping operations
PPMPUL202	Store and distribute pulped product
PPMPUL301	Perform pulping operations
PPMPUL401	Troubleshoot and rectify pulping processes
PPMQAS201	Apply basic quality practices
PPMQAS301	Monitor in-process quality assurance

<b>Units of competency in the PPM Pulp and Paper Manufacturing Training Package V3.0.</b>	
<b>Code</b>	<b>Title</b>
PPMQAS401	Oversee quality assurance process
PPMQAS501	Evaluate production processes for regulatory and quality compliance
PPMREC201	Monitor and control chemical recovery operations
PPMREC301	Perform chemical recovery operations
PPMREC401	Troubleshoot and rectify chemical recovery operations
PPMRES201	Receive materials
PPMRES202	Unload materials
PPMRES203	Distribute woodchips
PPMRES301	Operate woodchip production system
PPMRES401	Troubleshoot and rectify primary resource operations
PPMRFO201	Monitor and control recovered fibre operations
PPMRFO301	Perform recovered fibre operations
PPMRFO401	Troubleshoot and rectify recovered fibre operations
PPMSPR201	Monitor and control stock preparation systems
PPMSPR301	Perform stock preparation operations
PPMSPR401	Troubleshoot and rectify stock preparation systems
PPMSTM201	Monitor and control boiler operations
PPMSTM301	Perform steam boiler operations
PPMSTM401	Troubleshoot and rectify boiler plant systems
PPMWAR201	Store product
PPMWAR202	Prepare and dispatch product
PPMWAR203	Package warehouse product
PPMWAS301	Operate water systems
PPMWAS401	Troubleshoot and rectify water systems
PPMWEO201	Monitor and control wet end operations
PPMWEO301	Perform wet end operations
PPMWEO401	Troubleshoot and rectify wet end systems
PPMWHS201	Participate in work health and safety processes
PPMWHS301	Contribute to work health and safety processes
PPMWHS401	Maintain work health and safety processes
PPMWHS402	Identify, assess and control work health and safety risk in own work
PPMWHS501	Manage work health and safety processes

## Imported Units in the PPM Pulp and Paper Manufacturing Training Package V3.0

<b>PPM Pulp and Paper Manufacturing Training Package V3.0. imported units of competency</b>

CPCCLDG3001	Licence to perform dogging	CPC Construction, Plumbing and Services Training Package
CPCCLRG3001	Licence to perform rigging basic level	CPC Construction, Plumbing and Services Training Package
CPCCLRG3002	Licence to perform rigging intermediate level	CPC Construction, Plumbing and Services Training Package
CPCCLRG4001	Licence to perform rigging advanced level	CPC Construction, Plumbing and Services Training Package
FWPCOT3263	Maintain and contribute to energy efficiency	FWP Forest and Wood Products Training Package
FWPCOT5207	Implement sustainability in the workplace	FWP Forest and Wood Products Training Package
FWPCOT5208	Build and maintain community relationships	FWP Forest and Wood Products Training Package
FWPCOT6201	Manage community engagement	FWP Forest and Wood Products Training Package
FWPCOT6205	Prepare an enterprise carbon management report	FWP Forest and Wood Products Training Package
FWPHAR3224	Operate crawler tractor	FWP Forest and Wood Products Training Package
FWPHAR3228	Operate loader	FWP Forest and Wood Products Training Package
FWPHAR3230	Operate skidder	FWP Forest and Wood Products Training Package
HLTAID011	Provide first aid	HLT Health Training Package
MEM11016	Order materials	MEM Manufacturing and Engineering Training Package
MSL904002	Perform standard calibrations	MSL Laboratory Operations Training Package
MSL973013	Perform basic tests	MSL Laboratory Operations Training Package
MSL936003	Maintain quality system and continuous improvement processes within work or functional area	MSS Sustainability Training Package
MSMBLIC001	Licence to operate a standard boiler	MSM Manufacturing Training Package

<b>PPM Pulp and Paper Manufacturing Training Package V3.0. imported units of competency</b>		
<b>Unit code</b>	<b>Unit title</b>	<b>Origin</b>
MSMBLIC002	Licence to operate an advanced boiler	MSM Manufacturing Training Package
MSMOPS212	Use organisation computers or data systems	MSM Manufacturing Training Package
MSMPER200	Work in accordance with an issued permit	MSM Manufacturing Training Package
MSMPER205	Enter confined space	MSM Manufacturing Training Package
MSS014010	Optimise sustainability of a process or work area	MSS Sustainability Training Package
MSS017012	Lead sustainable strategy deployment	MSS Sustainability Training Package
MSS402020	Apply quick changeover procedures	MSS Sustainability Training Package
MSS402040	Apply 5S procedures	MSS Sustainability Training Package
MSS402050	Monitor process capability	MSS Sustainability Training Package
MSS403001	Review competitive systems and practices	MSS Sustainability Training Package
MSS403011	Facilitate implementation of competitive systems and practices	MSS Sustainability Training Package
MSS403040	Facilitate and improve implementation of 5S	MSS Sustainability Training Package
MSS403085	Ensure process improvements are sustained	MSS Sustainability Training Package
MSS403087	Mistake proof an operational process	MSS Sustainability Training Package
MSS404054	Apply statistics to operational processes	MSS Sustainability Training Package
MSS405001	Develop competitive systems and practices for an organisation	MSS Sustainability Training Package
MSS405004	Develop business plans in an organisation implementing competitive systems and practices	MSS Sustainability Training Package
MSS405053	Manage application of six sigma for process control and improvement	MSS Sustainability Training Package
MSS405082	Adapt a proactive maintenance strategy to the process operations sector	MSS Sustainability Training Package
MSS405088	Plan, implement and monitor energy management	MSS Sustainability Training Package
NWPTRD004	Implement and manage trade waste policies and plans	NWP National Water Training Package
PMAWHS211	Prepare equipment for emergency response	PMA Chemical, Hydrocarbons and Refining Training Package

<b>PPM Pulp and Paper Manufacturing Training Package V3.0. imported units of competency</b>		
<b>Unit code</b>	<b>Unit title</b>	<b>Origin</b>
PSPGEN046	Undertake research and analysis	PSP Public Sector Training Package
TAEASS301	Contribute to assessment	TAE Training and Education Training Package
TAEASS401	Plan assessment activities and process	TAE Training and Education Training Package
TAEASS402	Assess competence	TAE Training and Education Training Package
TAEASS403	Participate in assessment validation	TAE Training and Education Training Package
TAEDEL301	Provide work skill instruction	TAE Training and Education Training Package
TAEDEL404	Mentor in the workplace	TAE Training and Education Training Package
TLIA0022	Pick and process orders	TLI Transport and Logistics Training Package
TLIA2021	Participate in stocktakes	TLI Transport and Logistics Training Package
TLIX0004X	Administer Inventory systems	TLI Transport and Logistics Training Package
TLID0006	Move materials mechanically using automated equipment	TLI Transport and Logistics Training Package
TLID1001	Shift materials safely using manual handling methods	TLI Transport and Logistics Training Package
TLID2003	Handle dangerous goods/hazardous substances	TLI Transport and Logistics Training Package
TLID2004	Load and unload goods/cargo	TLI Transport and Logistics Training Package
TLIE4006	Collect, analyse and present workplace data and information	TLI Transport and Logistics Training Package
TLILIC0003	Licence to operate a forklift truck	TLI Transport and Logistics Training Package
TLILIC0005	Licence to operate a boom-type elevating work platform (boom length 11 metres or more)	TLI Transport and Logistics Training Package
TLILIC0006	Licence to operate a bridge and gantry crane	TLI Transport and Logistics Training Package
UEPOPL001	Licence to operate a steam turbine	UEP Electricity Supply Industry - Generation Sector Training Package

## Imported Units of Competency with Prerequisite Requirements

Unit code and title	Prerequisite unit code and title
CPCCLRG3001 Licence to perform rigging basic level	CPCCLDG3001 Licence to perform dogging
CPCCLRG3002 Licence to perform rigging intermediate level	CPCCLRG3001 Licence to perform rigging basic level* CPCCLDG3001 Licence to perform dogging
CPCCLRG4001 Licence to perform rigging advanced level	CPCCLRG3002 Licence to perform rigging intermediate level* CPCCLRG3001 Licence to perform rigging basic level* CPCCLDG3001 Licence to perform dogging
MSMPER205 Enter confined spaces	MSMPER200 Work in accordance with an issued permit

## Appendix 2: Mapping – Qualifications, Skill Sets, Units of Competency

### Mapping – PPM Qualifications

<b>Mapping of qualifications from PPM Pulp and Paper Manufacturing Training Package Version 2.0 to PPM Pulp and Paper Manufacturing Training Package Version 3.0</b>			
<b>Code and title (previous version)</b>	<b>Code and title (current version)</b>	<b>Comments</b>	<b>Equivalence statement</b>
PPM20116 Certificate II in Pulp and Paper Operations	PPM20121 Certificate II in Pulp and Paper Operations	Two qualifications consolidated into one. Packaging rules, core and elective units revised while total number of units remains the same.	Not equivalent
PPM20216 Certificate II in Papermaking Operations	PPM20121 Certificate II in Pulp and Paper Operations	Two qualifications consolidated into one. Packaging rules, core and elective units revised while total number of units remains the same.	Not equivalent
PPM30116 Certificate III in Pulp and Paper Operations	PPM30121 Certificate III in Pulp and Paper Operations	Two qualifications consolidated into one. Revised packaging rules with added specialisations. Core and elective units revised while total number of units remains the same.	Not equivalent
PPM30216 Certificate III in Papermaking Operations	PPM30121 Certificate III in Pulp and Paper Operations	Two qualifications consolidated into one. Revised packaging rules with added specialisations. Core and elective units revised while total number of units remains the same.	Not equivalent
PPM40116 Certificate IV in Pulp and Paper Operations	PPM40121 Certificate IV in Pulp and Paper Operations	Two qualifications consolidated into one. Packaging rules, core and elective units revised while total number of units remains the same.	Not equivalent
PPM40216 Certificate IV in Papermaking Operations	PPM40121 Certificate IV in Pulp and Paper Operations	Two qualifications consolidated into one. Packaging rules, core and elective units revised while total number of units remains the same.	Not equivalent
PPM50116 Diploma of Pulp and Paper Process Management	PPM50121 Diploma of Pulp and Paper Operations Management	Revised qualification title. Packaging rules, core and elective units revised while total number of units remains the same.	Not equivalent

<b>Mapping of qualifications from PPM Pulp and Paper Manufacturing Training Package Version 1.0 to PPM Pulp and Paper Manufacturing Training Package Version 2.0</b>			
<b>Code and title PPM V1.0</b>	<b>Code and title PPM V2.0</b>	<b>Comments</b>	<b>Equivalence statement</b>
PPM20116 - Certificate II in Pulping Operations Release 1	PPM20116 - Certificate II in Pulping Operations Release 2	Minor changes to qualification elective bank and packaging rules – boiler operations	Equivalent
PPM20216 - Certificate II in Papermaking Operations Release 1	PPM20216 - Certificate II in Papermaking Operations Release 2	Minor changes to qualification elective bank and packaging rules – boiler operations	Equivalent
PPM30116 - Certificate III in Pulping Operations Release 1	PPM30116 - Certificate III in Pulping Operations Release 2	Minor changes to qualification elective bank and packaging rules – boiler operations	Equivalent
PPM30216 - Certificate III in Papermaking Operations Release 1	PPM30216 - Certificate III in Papermaking Operations Release 2	Minor changes to qualification elective bank and packaging rules – boiler operations	Equivalent
PPM40116 - Certificate IV in Pulping Operations Release 1	PPM40116 - Certificate IV in Pulping Operations Release 2	Minor changes to qualification elective bank and packaging rules – boiler operations	Equivalent
PPM40216 - Certificate IV in Papermaking Operations Release 1	PPM40216 - Certificate IV in Papermaking Operations Release 2	Minor changes to qualification elective bank and packaging rules – boiler operations	Equivalent
PPM50116 Diploma in Pulp and Paper Process Management Release 1	Release 2	Updated imported units	Equivalent

<b>Mapping of qualifications from FPP10 Pulp and Paper Manufacturing Training Package Version 1.3 to PPM Pulp and Paper Manufacturing Training Package Version 1.0</b>			
<b>Code and title FP10 V1.3</b>	<b>Code and title PPM V1.0</b>	<b>Comments</b>	<b>Equivalence statement</b>
FPP20110 Certificate II in Pulping Operations	PPM20116 Certificate II in Pulping Operations	Core units repackaged Elective unit packaging simplified Imported units have been updated to the most current at time of publication	Equivalent
FPP20210 Certificate II in Papermaking Operations	PPM20216 Certificate II in Papermaking Operations	Core units repackaged Elective unit packaging simplified Imported units have been updated to the most current at time of publication	Equivalent
FPP30110 Certificate III in Pulping Operations	PPM30116 Certificate III in Pulping Operations	Core units repackaged Elective unit packaging simplified Imported units have been updated to the most current at time of publication	Equivalent
FPP30210 Certificate III in Papermaking Operations	PPM30216 Certificate III in Papermaking Operations	Core units repackaged Elective unit packaging simplified Imported units have been updated to the most current at time of publication	Equivalent
FPP40110 Certificate IV in Pulping Operations	PPM40116 Certificate IV in Pulping Operations	Core units repackaged Elective unit packaging simplified Imported units have been updated to the most current at time of publication	Equivalent
FPP40210 Certificate IV in Papermaking Operations	PPM40216 Certificate IV in Papermaking Operations	Core units repackaged Elective unit packaging simplified Imported units have been updated to the most current at time of publication	Equivalent
FPP50110 Diploma of Pulp and Paper Process Management	PPM50116 Diploma of Pulp and Paper Process Management	Imported units have been updated to the most current at time of publication	Equivalent

## Mapping – PPM Units of Competency

<b>Mapping of units of competency from PPM Pulp and Paper Manufacturing Training Package Version 2.0 to PPM Pulp and Paper Manufacturing Training Package Version 3.0</b>			
<b>Code and title (previous version)</b>	<b>Code and title (current version)</b>	<b>Comments</b>	<b>Equivalence statement</b>
PPMCPP210 Monitor and control coated paper processes	PPMDEO201 Monitor and control dry end operations	Merged unit. Element added. Changes to performance criteria, foundation skills, performance and knowledge evidence. Assessment conditions updated.	Not equivalent
PPMCPP320 Prepare and start up coated paper processes	PPMDEO301 Perform dry end operations	Merges four units. Changes to unit title, elements, performance criteria, foundation skills, performance and knowledge evidence. Assessment conditions updated.	Not equivalent
PPMCPP330 Coordinate the shutdown of coated paper processes	PPMDEO301 Perform dry end operations	Merges four units. Changes to unit title, elements, performance criteria, foundation skills, performance and knowledge evidence. Assessment conditions updated.	Not equivalent
PPMCPP440 Troubleshoot and rectify coated paper processes	PPMDEO401 Troubleshoot and rectify dry end systems	Merged unit. Changes to elements, performance criteria, foundation skills, performance and knowledge evidence. Assessment conditions updated.	Not equivalent

**Mapping of units of competency from PPM Pulp and Paper Manufacturing Training Package Version 2.0 to PPM Pulp and Paper Manufacturing Training Package Version 3.0**

<b>Code and title (previous version)</b>	<b>Code and title (current version)</b>	<b>Comments</b>	<b>Equivalence statement</b>
PPMCPR210 Prepare chemical products	PPMCPR301 Operate chemical systems	Changes to unit title, element, performance criteria and foundation skills, performance and knowledge evidence. Assessment conditions updated.	Not equivalent
PPMCSK310 Operate process control equipment	PPMCSK301 Operate process control equipment	Changes to performance criteria, foundation skills, performance and knowledge evidence. Assessment conditions updated.	Not equivalent
PPMDEO210 Monitor and control dry end operations	PPMDEO201 Monitor and control dry end operations	Merged unit. Element added. Changes to performance criteria, foundation skills, performance and knowledge evidence. Assessment conditions updated. Addresses coated paper processes.	Not equivalent
PPMDEO320 Prepare and start up dry end operations	PPMDEO301 Perform dry end operations	Merges four units. Changes to unit title, elements, performance criteria, foundation skills, performance and knowledge evidence. Assessment conditions updated. Addresses coated paper processes	Not equivalent

**Mapping of units of competency from PPM Pulp and Paper Manufacturing Training Package Version 2.0 to PPM Pulp and Paper Manufacturing Training Package Version 3.0**

<b>Code and title (previous version)</b>	<b>Code and title (current version)</b>	<b>Comments</b>	<b>Equivalence statement</b>
PPMDEO330 Coordinate and implement dry end shutdown	PPMDEO301 Perform dry end operations	Merges four units. Changes to unit title, elements, performance criteria, foundation skills, performance and knowledge evidence. Assessment conditions updated. Addresses coated paper processes	Not equivalent
PPMDEO440 Troubleshoot and rectify dry end systems	PPMDEO401 Troubleshoot and rectify dry end systems	Merged unit. Changes to elements, performance criteria, foundation skills, performance and knowledge evidence. Assessment conditions updated. Addresses coated paper processes. Addresses coated paper processes.	Not equivalent
PPMENV210 Identify and monitor environmental discharges/emissions	PPMENV201 Identify and monitor environmental discharges and emissions	Minor amendment to unit title. Changes to elements, performance criteria, foundation skills, performance and knowledge evidence. Assessment conditions updated.	Not equivalent
PPMENV320 Monitor and control environmental hazards	PPMENV401 Monitor and control environmental hazards	Changes to performance criteria, foundation skills, performance and knowledge. Assessment Conditions updated.	Not equivalent

**Mapping of units of competency from PPM Pulp and Paper Manufacturing Training Package Version 2.0 to PPM Pulp and Paper Manufacturing Training Package Version 3.0**

<b>Code and title (previous version)</b>	<b>Code and title (current version)</b>	<b>Comments</b>	<b>Equivalence statement</b>
PPMEPG210 Monitor and control power generation system	PPMEPG201 Monitor and control power generation systems	Minor unit title change. Changes to elements, performance criteria, foundation skills, performance and knowledge evidence. Assessment conditions updated.	Not equivalent
PPMEPG320 Manage a power generation system startup	PPMEPG301 Perform power generation operations	Merges two units. Changes to unit title, elements, performance criteria, foundation skills, performance and knowledge evidence. Assessment conditions updated.	Not equivalent
PPMEPG330 Coordinate power generation system shutdown	PPMEPG301 Perform power generation operations	Merges two units. Changes to unit title, elements, performance criteria, foundation skills, performance and knowledge evidence. Assessment conditions updated.	Not equivalent
PPMEPG440 Troubleshoot and rectify power generation system	PPMEPG401 Troubleshoot and rectify power generation system	Changes to elements, performance criteria, foundation skills, performance and knowledge evidence. Assessment conditions updated.	Not equivalent
PPMFCO210 Monitor, control and shutdown finishing and converting operations	PPMFCO201 Monitor and control paper finishing and converting operations	Amended unit title. Changes to elements, performance criteria, foundation skills,	Not equivalent

**Mapping of units of competency from PPM Pulp and Paper Manufacturing Training Package Version 2.0 to PPM Pulp and Paper Manufacturing Training Package Version 3.0**

<b>Code and title (previous version)</b>	<b>Code and title (current version)</b>	<b>Comments</b>	<b>Equivalence statement</b>
		performance and knowledge evidence. Content relating to shut down removed and transferred to PPMCO301. Assessment conditions updated.	
PPMFCO320 Prepare and start up finishing and converting operations	PPMFCO301 Perform paper finishing and converting operations	Amended unit title. Changes to elements, performance criteria, foundation skills, performance and knowledge evidence. Content relating to shutdown added. Assessment conditions updated.	Not equivalent
PPMFCO340 Troubleshoot and rectify finishing and converting systems	PPMFCO401 Troubleshoot and rectify paper finishing and converting systems	Minor amendment to title. Changes to elements, performance criteria, foundation skills, performance and knowledge evidence. Assessment conditions updated.	Not equivalent
PPMHWP250 Store and dispatch waste paper	PPMHRF201 Pack and dispatch recovered fibre	Amended unit title and unit sector code. Changes to elements, performance criteria, foundation skills, performance and knowledge evidence. Assessment conditions updated	Not equivalent
PPMHWP260 Receive waste paper	PPMHRF202 Receive recovered fibre	Element added. Changes to unit title, unit sector code,	Not equivalent

**Mapping of units of competency from PPM Pulp and Paper Manufacturing Training Package Version 2.0 to PPM Pulp and Paper Manufacturing Training Package Version 3.0**

<b>Code and title (previous version)</b>	<b>Code and title (current version)</b>	<b>Comments</b>	<b>Equivalence statement</b>
		performance criteria, foundation skills, performance and knowledge evidence. Assessment conditions updated.	
PPMHWP270 Unload waste paper	PPMHRF203 Unload recovered fibre	Changes to unit title, unit sector code, elements, performance criteria, foundation skills, performance and knowledge evidence. Assessment conditions updated.	Not equivalent
PPMMHV210 Operate overhead crane	PPMMHV201 Operate mobile crane	Changes to unit title, elements, performance criteria, foundation skills, performance and knowledge evidence. Assessment required updated.	Not equivalent
PPMNUM210 Estimate and calculate basic data			Deleted
PPMNUM320 Measure and calculate routine workplace data			Deleted
PPMNUM430 Calculate and analyse production and financial performance			Deleted
PPMPLN210 Plan and undertake a routine task			Deleted
PPMPLN420 Plan a complex activity	PPMPLN401 Implement production plan	Changes to unit title, elements, performance criteria, foundation skills, performance and	Not equivalent

**Mapping of units of competency from PPM Pulp and Paper Manufacturing Training Package Version 2.0 to PPM Pulp and Paper Manufacturing Training Package Version 3.0**

<b>Code and title (previous version)</b>	<b>Code and title (current version)</b>	<b>Comments</b>	<b>Equivalence statement</b>
		knowledge evidence. Assessment conditions updated.	
PPMPRM210 Undertake operator level preventative maintenance	PPMPRM201 Undertake operator level preventative maintenance	Changes to performance criteria, foundation skills, performance and knowledge evidence. Assessment conditions updated.	Not equivalent
PPMPRM220 Perform lubrication	PPMPRM202 Perform lubrication	Changes to performance criteria, foundation skills, performance and knowledge evidence. Assessment conditions updated.	Equivalent
PPMPRS210 Identify and rectify problems in the workplace	PPMPRS301 Identify and rectify operational problems	Changes to unit title, performance criteria, foundation skills, performance and knowledge evidence. Assessment conditions updated.	Not equivalent
PPMPRS320 Solve systemic problems in the workplace	PPMPRS401 Solve systemic problems	Changes to unit title, elements, performance criteria, foundation skills, performance and knowledge evidence. Assessment conditions updated.	Not equivalent
PPMPRV210 Operate ancillary equipment	PPMPRV201 Operate ancillary equipment	Changes to element, performance criteria, foundation skills, performance and knowledge evidence.	Not equivalent

**Mapping of units of competency from PPM Pulp and Paper Manufacturing Training Package Version 2.0 to PPM Pulp and Paper Manufacturing Training Package Version 3.0**

<b>Code and title (previous version)</b>	<b>Code and title (current version)</b>	<b>Comments</b>	<b>Equivalence statement</b>
		Assessment conditions updated.	
PPMPRV320 Co-ordinate and direct clothing changes	PPMPRV301 Co-ordinate and direct clothing changes	Change to performance criteria, foundation skills, performance and knowledge evidence. Assessment conditions updated.	Not equivalent
PPMPUL210 Monitor and control pulping operations	PPMPUL201 Monitor and control pulping operations	Element added. Changes to performance criteria, foundation skills, performance and knowledge evidence. Assessment conditions updated.	Not equivalent
PPMPUL250 Store and distribute pulped product	PPMPUL202 Store and distribute pulped product	Changes to performance criteria, foundation skills, performance and knowledge evidence. Assessment conditions updated.	Not equivalent
PPMPUL320 Prepare and start up pulping system operations	PPMPUL301 Perform pulping operations	Merges two units. Changes to unit title, elements, performance criteria, foundation skills, performance and knowledge evidence. Assessment conditions updated.	Not equivalent
PPMPUL330 Coordinate and implement pulping plant shutdowns	PPMPUL301 Perform pulping operations	Merges two units. Changes to unit title, elements, performance criteria, foundation skills, performance and	Not equivalent

**Mapping of units of competency from PPM Pulp and Paper Manufacturing Training Package Version 2.0 to PPM Pulp and Paper Manufacturing Training Package Version 3.0**

<b>Code and title (previous version)</b>	<b>Code and title (current version)</b>	<b>Comments</b>	<b>Equivalence statement</b>
		knowledge evidence Assessment conditions updated.	
PPMPUL440 Troubleshoot and rectify pulping processes	PPMPUL401 Troubleshoot and rectify pulping processes	Changes to elements, performance criteria, foundation skills, performance and knowledge evidence. Assessment conditions updated.	Not equivalent
PPMQAS210 Apply basic quality practices	PPMQAS201 Apply basic quality practices	Changes to elements, performance criteria, foundation skills, performance and knowledge evidence. Assessment conditions updated	Not equivalent
PPMQAS420 Co-ordinate in-process quality assurance	PPMQAS301 Monitor in-process quality assurance	Changes to unit title, elements, performance criteria, foundation skills, performance and knowledge evidence. Assessment conditions updated	Not equivalent
PPMQAS430 Oversee quality assurance process	PPMQAS401 Oversee quality assurance process	Changes to elements, performance criteria, foundation skills, performance and knowledge evidence. Assessment conditions updated.	Not equivalent
PPMREC210 Monitor and control chemical recovery operations	PPMREC201 Monitor and control chemical recovery operations	Element added. Changes to performance criteria, foundation skills,	Not equivalent

**Mapping of units of competency from PPM Pulp and Paper Manufacturing Training Package Version 2.0 to PPM Pulp and Paper Manufacturing Training Package Version 3.0**

<b>Code and title (previous version)</b>	<b>Code and title (current version)</b>	<b>Comments</b>	<b>Equivalence statement</b>
		performance and knowledge evidence. Assessment conditions updated.	
PPMREC320 Prepare and start up chemical recovery operations	PPMREC301 Perform chemical recovery operations	Merges two units. Changes to unit title, elements, performance criteria, foundation skills, performance and knowledge evidence. Assessment conditions updated.	Not equivalent
PPMREC330 Coordinate and implement chemical recovery shutdowns	PPMREC301 Perform chemical recovery operations	Merges two units. Changes to unit title, elements, performance criteria, foundation skills, performance and knowledge evidence. Assessment conditions updated.	Not equivalent
PPMREC440 Troubleshoot and rectify chemical recovery operations	PPMREC401 Troubleshoot and rectify chemical recovery operations	Changes to elements, performance criteria, foundation skills, performance and knowledge evidence. Assessment conditions updated.	Not equivalent
PPMREL210 Contribute to effective working relationships			Deleted
PPMRES210 Prepare and operate the woodchip production system	PPMRES301 Operate woodchip production systems	Two elements added. Changes to unit title, performance criteria, foundation skills, performance and knowledge	Not equivalent

**Mapping of units of competency from PPM Pulp and Paper Manufacturing Training Package Version 2.0 to PPM Pulp and Paper Manufacturing Training Package Version 3.0**

<b>Code and title (previous version)</b>	<b>Code and title (current version)</b>	<b>Comments</b>	<b>Equivalence statement</b>
		evidence. Assessment conditions updated.	
PPMRES250 Distribute woodchips	PPMRES203 Distribute woodchips	Changes to performance criteria, foundation skills, performance and knowledge evidence. Assessment conditions updated.	Not equivalent
PPMRES260 Receive materials	PPMRES201 Receive materials	Changes to element, performance criteria, foundation skills, performance and knowledge evidence. Assessment conditions updated.	Not equivalent
PPMRES270 Unload materials	PPMRES202 Unload materials	Changes to elements, performance criteria, foundation skills, performance and knowledge evidence. Assessment conditions updated.	Not equivalent
PPMRES340 Troubleshoot and rectify primary resource operations	PPMRES401 Troubleshoot and rectify primary resource operations	Changes to elements, performance criteria, foundation skills, performance and knowledge evidence. Assessment conditions updated.	Not equivalent
PPMSPR210 Monitor and control stock preparation systems	PPMSPR201 Monitor and control stock preparation systems	Element added. Changes to performance criteria, foundation skills, performance and	Not equivalent

**Mapping of units of competency from PPM Pulp and Paper Manufacturing Training Package Version 2.0 to PPM Pulp and Paper Manufacturing Training Package Version 3.0**

<b>Code and title (previous version)</b>	<b>Code and title (current version)</b>	<b>Comments</b>	<b>Equivalence statement</b>
		knowledge evidence. Assessment conditions updated.	
PPMSPR320 Prepare and start up stock preparation system for production	PPMSPR301 Perform stock preparation operations	Merges two units. Changes to unit title, elements, performance criteria, foundation skills, performance and knowledge evidence. Assessment conditions updated.	Not equivalent
PPMSPR330 Coordinate and implement stock preparation system shutdown	PPMSPR301 Perform stock preparation operations	Merges two units. Changes to unit title, elements, performance criteria, foundation skills, performance and knowledge evidence. Assessment conditions updated.	Not equivalent
PPMSPR440 Troubleshoot and rectify stock preparation systems	PPMSPR401 Troubleshoot and rectify stock preparation systems	Changes to elements, performance criteria, foundation skills, performance and knowledge evidence. Assessment conditions updated.	Not equivalent
PPMSTM210 Monitor and control boiler operation	PPMSTM201 Monitor and control boiler operations	Minor unit title change. Changes to elements, performance criteria, foundation skills, performance and knowledge evidence. Assessment conditions updated.	Not equivalent

**Mapping of units of competency from PPM Pulp and Paper Manufacturing Training Package Version 2.0 to PPM Pulp and Paper Manufacturing Training Package Version 3.0**

<b>Code and title (previous version)</b>	<b>Code and title (current version)</b>	<b>Comments</b>	<b>Equivalence statement</b>
PPMSTM320 Manage steam boiler start up	PPMSTM301 Perform steam boiler operations	Merges two units. Changes to unit title, elements, performance criteria, foundation skills, performance and knowledge evidence. Assessment conditions updated.	Not equivalent
PPMSTM330 Shut down and bank steam boiler	PPMSTM301 Perform steam boiler operations	Merges two units. Changes to unit title, elements, performance criteria, foundation skills, performance and knowledge evidence. Assessment conditions updated.	Not equivalent
PPMSTM440 Troubleshoot and rectify boiler plant systems	PPMSTM401 Troubleshoot and rectify boiler plant systems	Changes to elements, performance criteria, foundation skills, performance and knowledge evidence. Assessment conditions updated.	Not equivalent
PPMSUS210 Apply sustainable work practices/policies			Deleted
PPMSUS510 Develop workplace policy and procedures for sustainability			Deleted
PPMWAR250 Store product	PPMWAR201 Store product	Changes to elements, performance criteria, foundation skills, performance and knowledge evidence. Assessment conditions updated.	Not equivalent

**Mapping of units of competency from PPM Pulp and Paper Manufacturing Training Package Version 2.0 to PPM Pulp and Paper Manufacturing Training Package Version 3.0**

<b>Code and title (previous version)</b>	<b>Code and title (current version)</b>	<b>Comments</b>	<b>Equivalence statement</b>
PPMWAR255 Prepare and dispatch product	PPMWAR202 Prepare and dispatch product	Changes to elements, performance criteria, foundation skills, performance and knowledge evidence. Assessment conditions updated.	Not equivalent
PPMWAR280 Warehouse product packaging	PPMWAR203 Package warehouse product	Amended unit title. Changes to elements, performance criteria, foundation skills, performance and knowledge evidence. Assessment conditions updated.	Not equivalent
PPMWAS210 Operate water systems	PPMWAS301 Operate water systems	Changes to elements, performance criteria, foundation skills, performance and knowledge evidence. Assessment conditions updated.	Not equivalent
PPMWAS340 Troubleshoot and rectify water systems	PPMWAS401 Troubleshoot and rectify water systems	Changes to elements, performance criteria, foundation skills, performance and knowledge evidence. Assessment conditions updated.	Not equivalent
PPMWEO210 Monitor and control wet end operations	PPMWEO201 Monitor and control wet end operations	Element added. Changes to performance criteria, foundation skills, performance and knowledge evidence. Assessment	Not equivalent

**Mapping of units of competency from PPM Pulp and Paper Manufacturing Training Package Version 2.0 to PPM Pulp and Paper Manufacturing Training Package Version 3.0**

		skills, performance and knowledge evidence. Assessment conditions updated.	
PPMWPO330 Coordinate and implement waste paper shutdown	PPMRFO301 Perform recovered fibre operations	Merges two units. Changes to unit title, unit sector code, elements, performance criteria, foundation skills, performance and knowledge evidence. Assessment conditions updated.	Not equivalent
PPMWPO440 Troubleshoot and rectify waste paper operations	PPMRFO401 Troubleshoot and rectify recovered operations	Changes to unit title, unit sector code, elements, performance criteria, foundation skills, performance and knowledge evidence. Assessment conditions updated.	Not equivalent
	PPMDIK201 Monitor and control de-inking operations	The unit has been created to address a skill or task required by industry that is not covered by an existing unit.	Newly created
	PPMDIK301 Perform de-inking operations	The unit has been created to address a skill or task required by industry that is not covered by an existing unit.	Newly created
	PPMDIK401 Troubleshoot and rectify de-inking operations	The unit has been created to address a skill or task required by industry that is not covered by an existing unit.	Newly created

<b>Mapping of units of competency from PPM Pulp and Paper Manufacturing Training Package Version 2.0 to PPM Pulp and Paper Manufacturing Training Package Version 3.0</b>			
<b>Code and title (previous version)</b>	<b>Code and title (current version)</b>	<b>Comments</b>	<b>Equivalence statement</b>
	PPMIND201 Apply principles of pulp and papermaking to work practices	The unit has been created to address a skill or task required by industry that is not covered by an existing unit.	Newly created
	PPMIND202 Work effectively in the pulp and paper industry	The unit has been created to address a skill or task required by industry that is not covered by an existing unit.	Newly created
	PPMIND501 Evaluate emerging technologies and processes	The unit has been created to address a skill or task required by industry that is not covered by an existing unit.	Newly created
	PPMQAS501 Evaluate production processes for regulatory and quality compliance	The unit has been created to address a skill or task required by industry that is not covered by an existing unit.	Newly created

### **Mapping Information – Deleted Units of Competency**

The following table outlines where content of deleted units of competency has been merged in the transition from PPM Pulp and Paper Manufacturing Training Package Version 2.0 to PPM Pulp and Paper Manufacturing Training Package Version 3.0

<b>Mapping of units of competency from PPM Pulp and Paper Manufacturing Training Package Version 2.0 to PPM Pulp and Paper Manufacturing Training Package Version 3.0</b>	
<b>Code and title PPM V2.0</b>	<b>Comments PPM V3.0</b>
PPMSUS210 Apply sustainable work practices/policies	Content will be merged and integrated in newly developed units of competency:  PPMIND201 Apply principles of pulp and papermaking to work practices PPMIND202 Work effectively in the pulp and paper industry

<p>PPMPLN210 Plan and undertake a routine task</p>	<p>Content will be covered in all 'monitor and control' level II functional units by including new Element 1 <i>Prepare for operations</i>. Applies to:</p> <p>PPMDEO201 Monitor and control dry end operations</p> <p>PPMDIK201 Monitor and control de-inking operations</p> <p>PPMEPG201 Monitor and control power generation systems</p> <p>PPMFCO201 Monitor and control paper finishing and converting operations</p> <p>PPMPUL201 Monitor and control pulping operations</p> <p>PPMREC201 Monitor and control chemical recovery operations</p> <p>PPMRFO201 Monitor and control recovered fibre operations</p> <p>PPMSPR201 Monitor and control stock preparation systems</p> <p>PPMSTM201 Monitor and control boiler operations</p> <p>PPMWEO201 Monitor and control wet end operations</p>
--	--

<p>PPMNUM210 Estimate and calculate basic data</p>	<p>Content will be covered in foundation skills sections of all functional units at level II which describe numeracy skills. Applies to:</p> <p>PPMDEO201 Monitor and control dry end operations  PPMDIK201 Monitor and control de-inking operations  PPMEPG201 Monitor and control power generation systems  PPMFCO201 Monitor and control paper finishing and converting operations  PPMPUL201 Monitor and control pulping operations  PPMREC201 Monitor and control chemical recovery operations  PPMRFO201 Monitor and control recovered fibre operations  PPMSPR201 Monitor and control stock preparation systems  PPMSTM201 Monitor and control boiler operations  PPMWEO201 Monitor and control wet end operations</p>
<p>PPMNUM320 Measure and calculate routine and workplace data</p>	<p>Content will be covered in foundation skills sections of all functional units at level III which describe numeracy skills units. Applies to:</p> <p>PPMDEO301 Perform dry end operations  PPMDIK301 Perform de-inking operations  PPMEPG301 Perform power generation operations  PPMFCO301 Perform paper finishing and converting operations  PPMPUL301 Perform pulping operations  PPMREC301 Perform chemical recovery operations  PPMRFO301 Perform recovered fibre operations  PPMSPR301 Perform stock preparation operations  PPMSTM301 Perform steam boiler operations  PPMWEO301 Perform wet end operations</p>

<p>PPMNUM430 Calculate and analyse production and financial performance</p>	<p>Content will be covered in foundation skills sections of all functional units at level III which describe numeracy skills units. Applies to:</p> <p>PPMDEO401 Troubleshoot and rectify boiler dry end systems</p> <p>PPMDIK401 Troubleshoot and rectify de-inking operations</p> <p>PPMEPG401 Troubleshoot and rectify power generation system</p> <p>PPMFCO401 Troubleshoot and rectify paper finishing and converting systems</p> <p>PPMPUL401 Troubleshoot and rectify pulping processes</p> <p>PPMREC401 Troubleshoot and rectify chemical recovery operations</p> <p>PPMRFO401 Troubleshoot and rectify recovered fibre operations</p> <p>PPMSPR401 Troubleshoot and rectify stock preparation systems</p> <p>PPMSTM401 Troubleshoot and rectify boiler plant systems</p> <p>PPMWEO401 Troubleshoot and rectify wet end systems</p>
